PETITION DENIED

The Railroad Commission has denied the petition for a vacation of its previous order in the complaint of the Los Angeles Lumber Products Company against Southern Pacific Company, and the complaint of Madera Sugar Pine Company, Sugar Pine Lumber Company and Yosemite Lumber Company against Minarets & Western Railway Company, Southern Pacific Company and Yosemite Valley Railroad Company. In so doing the Commission reduced the rates on lumber and its products from San Pedro to Niland from 29 cents to 27 cents, to Brawley and El Centro from 33 cents to 29 cents, and to Calexico from 33 cents to 29 cents, and to Colorado (Imperial County) from 35 cents to 31 cents. The Commission made the effective date of its order December 15, 1925, instead of December 31, 1925.

BUILDING CODE PUZZLE

The amateur draughter of building codes leads a hard life. If he adopts the requirements of Charlotte, North Carolina, all floors of residences must be designed for a load of 100 lb. per sq. ft. over the entire area; but if he follows the building ordinances of Milwaukee, 30 lb. per sq. ft. will be sufficient. What to do? What to do?

RESEARCH CHIEF NAMED

Announcement is made by Director Charles M. Upham, Highway Research Board of the National Research Council, that Professor S. S. Steinberg of the University of Maryland has been appointed Assistant Director of the Board. He will also for the present continue to serve as Acting Secretary of the Investigation on the Development of Earth Roads now being conducted under the auspices of the Highway Research Board. Professor Steinberg served as Assistant Director during the Summer of 1924. H. F. Janda, former Assistant Director, has been designated Secretary to Research Committees in accordance with the new policy of the Board to employ technical assistants who shall devote full time to research committee work. Professor Janda will return to his duties at the University of North Carolina on January 1, 1926 at the expiration of his leave of absence.

THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

DANDIE

Light Mixer

**Four-cylinder
Gasoline
Engine**

FAST! Fast! Fast! Here is a light mixer with a speedy charging skip, liberal drum dimensions and a high speed discharge that will break all your records of putting concrete where it pays you profits!

Just the balanced light weight to haul behind your truck on its rubber tired disc wheels and get from job to job in a big hurry.

Four cylinder, radiator cooled, gasoline engine. Transmission from engine to drum enclosed in oil bath! Double gear drum drive, chilled, beveled gears! Drum rollers fixed to shafts revolving in big bearings!

It's useless to try to give you the smallest idea of what this Dandie represents in superior speed and construction details — but it's *strong, rugged* — it will stand-up for all the punishment you can give it, and *work and work, and work!*

And you have a chance to buy at a price that gives you all the benefit of the economies the Koehring Company effect by big, standardized production! If you had half an idea of what this mixer means in the way of actual value, you would send back the coupon for full detail by next mail!

Koehring Dandie — 7 cu. ft. capacity mixed concrete. High speed charging skip, or low charging hopper with hinged steel framed platform which may be folded against mixer for hauling. Discharged from either side of mixer.

4 cylinder gas engine, radiator cooled, or optional two cylinder engine, hopper cooled. Drum drive transmission in oil bath. Maybe equipped with *automatic water measuring tank*, and *Light Duty Hoist*.

BUYING POWER OF WAGES IS INCREASING

Though the high wages paid at the peak in 1920 are looked back upon regretfully by many workers, yet the buying power of their earnings during the last three years has been considerably greater than the buying power of those very high figures of 1920.

This fact is revealed by a study of wages over the period from 1919 to the middle of this year made by the Metropolitan Life Insurance Company. The real wages are determined in the study by finding the ratio between money wages and the index of living costs. This index took a sharp upward turn in 1919 and continued to a peak in the summer of 1920. Living costs receded from then until the beginning of 1922. Money wages receded also but recovered late in 1921 and rose steadily until well into 1923. Even the sharp downward drop of wages in the summer of 1924 brought the factory workers buying power only to the level of peak times in 1920 and the autumn of last year and the spring of this year showed a rebound.

BETTER BUILDING CONSTRUCTION MOST EFFECTIVE WAY TO FIGHT FIRE

One of the most important ways in which our tremendous annual fire loss (Which now exceeds 500 million dollars) can be reduced is through better building construction, says S. H. Ingber, Chief of the Fire Resistance Section of the Bureau of Standards, Department of Commerce. While this method of reducing fire losses necessarily takes some time in yielding apparent results, it is nevertheless, one of the most effective ways of combating this destructive element in the long run.

It is to be hoped that as old buildings are replaced, and as the new construction reflects to an increasing extent the knowledge gained in the laboratory and through studies of actual fires, the destruction of property will decrease.

The Bureau of Standards is carrying out many investigations with the object of improving the fire resistance of building materials and construction. Tests are being made on full-sized columns, walls, and partitions, using specially designed furnaces in which the temperatures encountered in a burning building can be duplicated. In this way the behavior of different kinds of construction and the value of all the be studied under accurately controlled commonly used building materials can conditions.

In order to find exactly what temperatures are reached in a burning building and to find how long a given temperature is maintained, the Bureau has constructed a special fire test house in which actual fires are "stage" from time to time. This small building is fitted up with discarded furniture and supplies to simulate any desired occupancy and is then set on fire and the necessary data secured. From the results of this work it has been possible to state just what temperatures ought to be in the experimental furnaces.

Other tests have covered roofing materials, theatre curtains, and office furnishings such as filing cabinets and safes. In the case of safes the fire test is followed by a drop test to simulate the rough treatment which a safe receives when the floor of the building collapses. If the safe withstands the drop test it is heated again in the furnace, as would be the case if it had fallen into the basement and was surrounded by burning material.

While these tests may seem destructive on first consideration, they are in reality one of the most constructive lines of work now in progress at the Bureau.

Gladding, McBean and Company of San Francisco have issued a sixteen page booklet, 10½ by 8½ inches, titled "Shapes of Clay". The booklet tends to bring before the reader the beauties of clay products for interior and exterior decoration. The Carmelite convent at Santa Clara is illustrated throughout the publication.

BELIEVE WAGE PEAK HAS BEEN REACHED

Notwithstanding the immense amount of building construction going on throughout the country, there are indications that the wage peak has been reached, according to a national building labor survey made by S. W. Straus & Co. Conditions in the building trades are summed up as follows:

(1) National movement for higher wages seems definitely checked for present.

(2) Wage rates show greater stability although there is still some slight upward tendencies.

(3) No indication of a general movement to reduce wages and only few cities report any downward revision of scales.

(4) Longer agreements being signed by contractors that will tend to stabilize the industry.

(5) Except for several jurisdictional disputes, labor is fairly tranquil.

(6) Building labor is well employed and only an occasional shortage of skilled craftsmen is reported.

(7) Bonus payments and practice of contractors bidding against each other for men have largely disappeared.

(8) Unskilled labor maintains high rates, although supply being increased by slackness of factory employment.

(9) Bulk of common labor supply needed for building industry being furnished by Canada and Mexico as immigration laws have considerably reduced supply from Europe.

(10) Apprenticeship schools steadily increasing supply of skilled building craftsmen.

ROAD BUILDERS ANNOUNCE COLLEGE ESSAY CONTEST

Realizing the scarcity of highway engineers, and the need for additional engineers to carry on the great amount of work being done by the highway industry, the American Road Builders' Association is attempting to interest the college student and attract his attention to the importance of highway transportation to the progress of the country, by offering \$50 in prizes for the best essays on the subject "A New Nation by Improved Highways." The contest is open to all college students.

The essays will be judged, prize winners announced, and prizes awarded by the American Road Builders' Association at their convention in Chicago during "Good Roads Week," from January 11 to 15, 1926. Announcement of winners will also be made by radio during "Good Roads Week." The judges will be men nationally known in highway work and their names will soon be announced.

Essays must not exceed 600 words, and should be addressed to Essay Contest Committee, American Road Builders' Association, Congress Hotel, Chicago, Ill. They should be received before January 1, 1926. Further details of the contest are set forth on the poster being sent to all universities and colleges in the United States.

ISSUES BOOKLET

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Manufacturers of common brick are viewing with alarm the in-roads being made by foreign brick especially along the Atlantic seaboard. Brick plants in Belgium have adopted the American standard size and are producing brick, especially for American export. It is estimated that 60,000,000 common brick have been received at the port of New York so far this year. Cheap labor together with extremely low transportation costs make it possible for European manufacturers to ship brick to this country and undersell American producers. The Common Brick Manufacturers Association is endeavoring to have the new Congress enact tariff legislation that will raise the duty on foreign brick as a protective measure for the American manufacturers.

News dispatches from Washington indicate that the present administration is favorable toward an early resumption of the Federal building program, which was halted during the war. Plans are being prepared by the U. S. Treasury Department for Federal buildings in various parts of the country, which when completed will affect a saving of approximately \$24,000,000 annually in rentals now paid for buildings occupied by the different branches of the government.

The United States Steel Corporation unfilled tonnage statement for October showed an increase of 391,886 tons. The unfilled tonnage statement as of October 31 was 4,109,183 against 3,717,297 on September 30; 3,512,803 on August 31, 1925, and 3,525,270 tons October 31, 1924.

Union Engineering Company of Los Angeles has been awarded a contract to erect a \$1,250,000 plant at Riverside for the Soda Potash Products Company. Ten structures will be erected, each 95 by 200 feet, 50 feet in height. Brick and steel construction throughout.

Fresno has voted bonds of \$1,800,000 to finance erection of a new high school and for additions to standing high school structures. Bonds of \$1,100,000 for new elementary schools and alterations, additions and repairs have also been voted.

November 30 is date set by San Leandro city trustees to vote bonds of \$300,000 to finance erection of a new city hall, installation of a fire alarm system and purchase and improvement of playground sites.

Benjamin F. Mayhorn, Oakland contractor, has petitioned the Federal Court, to be adjudged a voluntary bankrupt. He listed his liabilities at \$3542, with assets of \$351.50.

Alvin Loud, 73, nationally known lumberman and former U. S. representative from the tenth Michigan district, was instantly killed in an automobile accident near Marshfield, Ore., Nov. 13.

The state forester has been figuring up the number of trees in California over eighteen inches in diameter. He makes it 569,000,000, and says they contain 284,505,000,000 board feet.

Los Angeles' building total for November, 1925, will be from nine to ten million dollars, if the ratio for the first nine days of the month is maintained. Last year this month produced a total of \$9,754,196. Up to and including the 9th the number of permits issued during November this year was 1141 and the estimated valuation was \$2,893,046. For the corresponding period of the preceding month the number of permits was 1235 with an estimated valuation of \$4,071,722, while for the first nine days of November, 1924, the number of permits was 1120 with an estimated valuation of \$3,505,938. For the current year up to and including Nov. 9, Los Angeles' building total was \$30,316,365, as compared with \$132,075,397 for the corresponding period in 1924.

Tariff protection for the hardwood industry of New England was advocated to President Coolidge by Senator Hale of Maine, Senator Keyes of New Hampshire and Representative Hersey of Maine, all Republicans. Birch and maple flooring can be imported duty free, and the group advised the President that Canadian producers had an advantage over Americans, because of the 25 per cent ad valorem Canadian tariff tending to shut out importations from the United States. The Congressional delegation said the tariff law either should be amended to provide duty equal to Canadian levy or negotiations should be begun with Canada to have its duty abolished.

On the authority of the Department of Commerce the lumber cut of the United States for 1924 was 35,930,000,000 feet, about a billion and a quarter less than 1923. California and Nevada combined are credited with nearly two billion. Washington led in production with six billions and a quarter.

The board of public works has no authority to require contractors on public work to employ only American citizens, according to an opinion given by City Attorney Stephens of Los Angeles. The city itself, however, may discriminate in the employment of city workers, Stephens said.

L. L. Dennett, state senator and attorney for several California irrigation districts, urges the appointment of a manager for the Modesto Irrigation District, declaring "it is the unavoidable solution if we are to make a success of our undertaking."

Twohy Bros. Company, Sharon Building, San Francisco, at approximately \$5,500,000 has been awarded a contract by the Northern Pacific Railroad Company to construct a 41-mile railway extension between Orofino and Headquarters in the state of Idaho.

Navy yards of the country face a shutdown or wholesale laying off of employees unless draftsmen are given increased pay, the Navy wage board is told by its representatives.

Harry F. Pool will operate from the Mills Building, San Francisco, under the firm name of Pool Construction Company.

ALONG THE LINE

Thomas A. Sourich, individually and as a member of the Co-Operative General Contractors and Builders of San Francisco, has petitioned the Federal Court to be adjudged a voluntary bankrupt. He listed his liabilities at \$13,227, with assets of \$5820. The French-American Bank, with \$3000 due on a promissory note, was named as the principal creditor.

The Montague Irrigation District, Siskiyou county, comprising 25,000 acres, has voted bonds of \$1,395,000 to finance construction of irrigation works; \$706,000 for reservoir, \$206,000 for main canals, \$148,000 for lateral system and \$15,000 for drainage. The balance of the fund will finance bond interest and overhead.

Grant Smith & Co., Portland, Ore., at approximately \$10,000,000 have the contract to construct a power plant and dam near Chelan, Washington, for the Washington Water Power Company. The announcement is made by D. L. Huntington, president of the power concern. The project will develop 100,000 horsepower.

Robert B. Van Horn, maintenance engineer, Tieton Division, Yakima Project, U. S. Bureau of Reclamation, has resigned to accept a position as instructor in the engineering department of the University of Washington. His place has been filled by transfer of Tom C. Mead from the storage division.

Calvin Nutting, 89, erector of lighthouses and pioneer building contractor, died at his home 1471 Washington St., Oakland, Nov. 15. Nutting was former head of the Nutting Structural Steel Works and leaves as monuments the lighthouses at Fort Point, Point Loma and three others on the Pacific Coast.

Harry Kinnee, former manager of the Alta District Lumber Company of Dinuba, has been transferred to the plant at Hanford. L. L. Myers of the Cutler yards will succeed Kinnee at Dinuba.

Paul D. Pratt of Fullerton has been appointed city engineer of La Habra and will give his entire time to the duties of the position. Mr. Pratt has been for the last two years assistant city engineer of Fullerton.

Architect Arthur B. Scholz of San Francisco has established an office with the Harry H. Culver Co., Culver Bldg., Culver City, and desires catalogs and information on local materials.

Oakland has voted bonds of \$9,960,000 to finance harbor improvements. The issue carried by a vote of seven to one; 30,415 in favor of the issue and 4,044 against.

ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

S. F. MASTER PAINTERS ELECT AND PLAN DINNER DANCE

Herbert E. Ernce has been elected president of the Master Painters' Association of San Francisco. Other officers elected are: L. J. Nval, 1st Vice President; F. Kiesel, 2nd Vice President; J. F. Provoo, 3rd Vice President; G. C. Exley, 4th Vice President; F. La Torres, Secretary; M. Cohn, Treasurer; R. Postler, Statistician; J. Friedman, Sergeant at Arms; F. Dixon, R. H. Holmes, C. E. Gordon, Trustees.

At the last meeting of the association plans were perfected for the annual dinner dance to be held in the Italian Ballroom of the St. Francis Hotel, December 5. The program will be carried out under the direction of Sam F. Cohn, chairman of arrangements. Ladies of the members will be invited to attend the event.

Speakers will be Mayor Jas. Rolph, Senator Albert Boynton, Robt. Newton Lynch and Chief of Police Daniel O'Brien.

A. D. Sutherland, Frank Dixon and F. La Torres will comprise the committee on arrangements and will assist Mr. Cohn, the chairman, to make the event the biggest yet in the history of the association.

BERKELEY BUILDERS' EXCHANGE HOLDS OPEN MEETING

Seventy-five building contractors and materialmen attended the first open meeting of the recently organized Builders' Exchange of Berkeley, held in that city Nov. 16.

Mayor Frank D. Stringham, city Building Inspector Stanley P. Koch and E. M. Tilden, president of the Oakland Builders' Exchange were the principal speakers.

Weekly meetings of the organization will be held on Mondays. Offices of the organization will be maintained in the Hink Building, Durant and Shattuck avenues, Berkeley. E. A. Mitchell is president of the exchange and Wm. Tooze, secretary.

CERTIFICATES ISSUED

At the first fall meeting of the Philadelphia Building Congress, attended by all the elements in the building industry, certificates of craftsmanship for work performed during 1924 were awarded. The Committee on Awards, after reviewing nominations, awarded Certificates as Guildsmen to 12 mechanics and Certificates as Craftsmen to 8. Certificates as Co-Operating Master Craftsmen were awarded to 7 general and sub-contracting firms.

A. G. C. CONTRACTORS ORGANIZE

Ventura Chapter, Associated General Contractors, has been organized with the following officers: President, Thomas Bergseid, Ventura; vice-president, Roy Guyer, Oxnard; treasurer, A. Schroeder, Oxnard; secretary, E. E. Wiker, Ventura; directors, W. A. Hudson, Santa Paula; B. F. Barr, Ventura; R. W. Wingfield, Ojai, and J. W. Westling, Santa Paula.

"OPEN SHOP" NOT WANTED IN SANTA BARBARA

The Santa Barbara Daily Morning Press of November 15, carries the following story:

"An agent of the Los Angeles 'open shop' element has been in Santa Barbara for several days and The Morning Press is informed on good authority that he has been attempting to magnify a slight misunderstanding between a Los Angeles contractor doing business in this city and his men, members of Santa Barbara trades unions.

"Reports persist that a meeting is to be held in this city within the next few days to make plans for starting an 'open shop' movement here and that the agent of the Los Angeles open shop adherents is responsible for the meeting.

"We have only this to say to the open shoppers of Los Angeles: They are not needed here, they are not wanted here and we will not stand for their meddling in our affairs.

"There is no condition in Santa Barbara that warrants 'open shop' action at this time. The organized laboring men of this city have steadfastly refused to increase wages following the earthquake, regardless of the temptation to do so, and there has never been any serious trouble between employers and the organized workers. There is certainly no open difficulties now that we know of and no reason in the world for any steps being taken here to form an 'open shop' organization of any kind."

NATIONAL BUILDING EXPOSITION FOR OKLAHOMA CITY

Plans have been completed for the holding of a National Building Exposition at the Coliseum in Oklahoma City, during the Eighteenth Annual Convention of the National Association of Builders' Exchanges, to be held the week of February 22nd.

150 booths will be erected in the Coliseum, and it is hoped to have the most representative showing of building materials that was ever in any Exposition in the Southwest.

Preparations are being made for the entertainment of 3000 delegates from the various Builders' Exchanges of the country, and the Building Exhibition will be one of the features of the program that is being worked out.

G. A. Nichols is the General Chairman; and J. B. Landers, Secretary-Manager of the Builders' Exchange, will have charge of the Exposition.

STRIKE SETTLED

Settlement of the strike of tile setters and helpers in Los Angeles was effected by a compromise, the tile setters accepting an advance of 50 cents a day over the former scale of \$10 a day. After Jan. 1 next the scale will be \$11 a day. According to the Tile Contractors' Credit Association the helpers return to work under the same conditions that existed prior to the strike. Although they have a union separate from the tile setters, the tile contractors do not recognize them as expert workmen. Their wage is said to average about \$6 a day.

UNION WORKERS SEEK INJUNCTION AT SACRAMENTO

Seeking an injunction to restrain Bridgemen and Structural Iron Workers, Union No. 118 of Sacramento, from operating under that name and a charter issued to them, the International Association of Bridge, Structural and Ornamental Iron Workers, has filed suit in superior court.

W. J. Leflar, Cliff Harvey, Herman Olson and John Madden, who state in the action they are members of the local union, are named co-plaintiffs in the complaint. It is charged the union seceded from the international last February, and Leflar, Harvey, Olson and Madden, being in the minority and "always loyal to the international," were powerless to prevent the secession.

The Sacramento local has a membership of fifty-four, according to the complaint, and since its secession, it is alleged, has refused to pay monthly dues to the international.

The complaint also states that the Western District Council, a "voluntary unincorporated organization," was created last January for the alleged purpose of inducing all locals to secede from their international.

Following the withdrawal of local union No. 118, the council last September reorganized under the name of Bridgemen, Iron Workers and Riggers' Union of America, the complaint further avers. It never was chartered by the American Federation of Labor, according to the suit.

Officers and trustees of Sacramento Union No. 118 also were made parties in the action by the international, which seeks a return of the charter issued to the local and all funds, bonds, stocks and books and records.

The defendant members of Sacramento Local Union No. 118 are: R. M. Haggerty, president; J. Sullivan, financial secretary, recording secretary and treasurer, and R. M. Haggerty, C. W. Crittenden and George Pilsworth, trustees.

OPEN SHOP CONFERENCE IS HELD AT SAN DIEGO

A definite statement of the policies and standards at the American Plan Open Shop was drafted at a conference of proponents of the open shop at San Diego, Nov. 5 to 7. This statement will be printed for information of the public and all interested persons. Industrial freedom is the keynote of the open shop, according to the understanding of those participating in the conference. This means freedom of the employer to hire whomsoever he pleases and freedom of the worker to seek employment with whomsoever he desires, without dictation from any outside influence.

No formal program was followed in the conference, but many subjects in connection with the open shop movement were discussed. Nearly a hundred persons from all sections representing associations or groups interested in the open shop were in attendance. Among these were a number of representatives of the construction industry.

GLIDDEN COMPANY CLOSES DEAL FOR PLANT IN OAKLAND

E. H. Glidden Company of Cleveland, Ohio, manufacturers of paints, varnishes and enamels, announces the purchase of the Chemical Extraction Company's 40-acre plant in East Oakland for \$250,000. The property is bounded by Fifth and Fifty-eighth avenues, the estuary and the Western Pacific right-of-way.

The company has assets upwards of \$50,000,000, according to reports and is one of the largest concerns of its kind in the country. According to J. W. Bland, vice-president and general manager in charge of Pacific coast operations, improvements involving a \$250,000 expenditure will be begun immediately. Approximately \$1,000,000 will be expended on buildings and equipment by the time the plant is in complete operation. Lithophone will be the principal product manufactured.

The company has branch plants at Chicago, New York, Boston, Atlanta, St. Paul, San Francisco, Dallas, St. Louis, New Orleans, Baltimore, Kansas City, Evansville, Reading and Toronto and warehouses located in Seattle, Spokane, Portland and Los Angeles.

The acquisition of the new plant gives the East Bay additional prestige as the center of paint manufacturing on the Pacific Coast. It is the seventh paint factory for Oakland and the eleventh for the East Bay district.

Officers of the company are: Adrian D. Joyce, president; O. A. Haffe, vice president and W. J. Bland, vice president and general manager in charge of Pacific Coast operations.

FEDERATION OF LABOR ADOPTS NEW POLICY

Almost without exception, press reports emanating from the recent convention of the American Federation of Labor bore some reference to a new note that had never before been heard at a labor gathering. Article after article appeared in the leading daily papers of the country to the effect that labor was beginning to realize that productivity and not the cost of living should be the real basis of wages. The reports stated, further, that labor was becoming more tolerant in its attitude toward labor-saving devices and that in the future there would be less opposition to methods which decreased production costs through the substitution of machine labor for hand labor.

During the closing days of the convention a new wage policy was formally adopted by the Federation in which production and not the cost of living will be the real basis on which wages will be adjusted. In commenting on this new plan, President Green said, "This action places American labor in a most advanced position on wage theories. It may be regarded as the announcement of a new idea."

Employers of labor have time and again expressed the opinion that low production, rather than high wages, constituted the biggest problem in industry. Unless the recent adoption of the new policy on the part of organized labor is an empty gesture, we are going to witness in the future a very decided change in the attitude of labor toward the industrial problems of the country.—National Assoc. of Bldg Trades Employers.

J. R. O'Donnell & Company, manufacturers' representatives and distributors of electrical equipment and supplies, have removed offices and warehouse to 1377 Mission street, San Francisco.

\$42,642,136 Is Pacific Coast Building Expenditure in October

A grand total of 16,978 building permits calling for an aggregate construction cost of \$42,642,136 were issued during October in 59 principal cities of the Pacific Coast. This total is one per cent greater than that of September and is slightly greater than the total for last October, as shown by the monthly building survey of the Pacific Coast section, released by S. W. Straus & Co.

California's 59 cities comprised in this survey, taken as a whole, showed a 2% gain over September, but a slight reduction from last October's record and a 25% reduction from that of October, 1923.

In Washington, 10 cities report an aggregate gain of 18% over last October, but a 21% reduction from September's total, 6 of them showing gains over last October and but one, Longview, showing a gain also over September.

Of Oregon's 5 cities comprised in this survey, but one, Eugene, shows an increase over last October and all show reductions from September's figures.

As a whole, Oregon reports a 13% reduction from last October, and a 14% reduction from September's total.

Following are the official October, 1925, construction cost figures reported by building department executives from 90 cities comprised in the Pacific Coast section:

CALIFORNIA:	October 1925	October 1924	September 1925
Alameda	\$ 529,740	\$ 192,093	\$ 2,143,509
Alhambra	298,235	394,095	287,000

Standard Wage Scale For 1926 Adopted by S. F. Builders' Exchange

Good wages, as compared with wages paid in other similar lines of endeavor, together with the extensive building program underway, guarantee to the building trades mechanic excellent annual earnings for the year 1926, as will be shown in the 1926 standard wage scale adopted by the San Francisco Builders' Exchange and approved by the Industrial Association of San Francisco.

In making the scale announcement, Wm. H. George, president of the Exchange, said:

"Skilled mechanics and workers in the building trades are requested to report to the Industrial Relations Committee of the Builders' Exchange any attempt to pay less than the standard wage."

The following is a complete tabulation of the wage scales as issued by the Exchange:

Craft	Journeyman	Mechanics	Helpers
Asbestos workers	\$ 7.00
Bricklayers	10.00
Bricklayers' Hodcarriers	6.50
Cabinet workers, in shop	7.00
Cabinet workers, outside	8.00
Carpenters	8.50
Cement finishers	8.00	6.00
Electrical workers	7.00
Electrical fixture hangers	8.50	6.00
Elevator constructors	7.00
Engineers, stationary	7.50
Engineers, traveling crane	8.00
Engineers, on derricks	8.00
Glass workers	8.00
Hardwood floormen	8.00
Housesmovers	7.00
Housesmiths, architectural iron	8.00	6.00
Housesmiths, reinforced concrete	10.00
Iron workers (bridge & structural) including engineers	4.50
Labor, common (6-day week)	5.00
"Laborers, "building"	8.00
Lathers	9.00	5.50
Marble setters	7.00
Marble cutters and copers	6.50
Marble bed rubbers	6.00
Marble polishers and finishers (outside)	7.00
Millmen, planing mill department	6.00
Millmen, sash and door	8.00
Millwrights	9.00
Model makers	7.50
Model casters	7.50	5.50
Mosaic and terrazzo workers	8.00	6.00
Painters	7.00
Painters, varnishers and polishers (shop)	8.00
Painters, varnishers and polishers (outside)	8.00
Pile drivers and wharf builders (including engineers)	10.00
Plasterers	7.00
Plasterers' hodcarriers	9.00
Plumbers	8.00
Roofers, composition	8.50	6.00
Sheet metal workers	7.20
Sprinkler fitters	9.00
Steamfitters	8.00
Stair builders	8.00
Stone cutters, soft and granite	8.50
Stone setters, soft and granite	8.00
Stone carvers	8.00
Stone derrickmen	9.00	5.50
Tile setters	5.50
Auto truck drivers—less than 2500 lbs.	6.00
Auto truck drivers—2500 lbs. to 4500 lbs.	6.50
Auto truck drivers—4500 lbs. to 5500 lbs.	7.00
Auto truck drivers—5500 lbs. and over	7.50
General teamsters—1 horse	6.00
General teamsters—2 horse	6.50
General teamsters—4 horse	7.00
Plow teamsters—4 horse	7.50
Scraper teamsters—2 horse and 4 horse	8.00
Plasterers' hodcarriers, bricklayers' hodcarriers, roofers laborers, hoisting engineers and steam shovel firemen to start 15 minutes before other workmen, both at morning and at noon.
Eight hours to constitute a day's work, except as otherwise noted.
Five and one-half (5½) days to constitute a week's work, except as otherwise noted.
Overtime to be paid time and a half, except Sundays and Holidays, double time.
*Laborers, on building, Saturday afternoons straight time. Shift work to be paid for at straight time, provided two or more shifts of 8 hours are worked on the job in any 24 hrs.
Recognized holidays to be New Year's Day, Christmas Day, Thanksgiving Day, Fourth of July, Labor Day, Admission Day, and Decoration Day.
Teamsters and auto truck drivers will be governed by the usual hours and regulations prevailing in their craft in this city.

TRADE NOTES

With installation of eight kilns November 15th, increasing output capacity by 15 per cent, the Merced plant of the California Pottery Company faces its most prosperous season, according to a statement by F. G. Lingren, manager. The present crew of forty men will probably be increased to meet the demands of market for tile, especially roofing tile, in which line the Merced plant is specializing. An order received recently calls for twelve carloads of tile to be used in construction of state buildings at Eureka. The new community hotel at Bakersfield is being constructed by tile manufactured at the Merced plant.

The U. S. Air Compressor Company of Cleveland, Ohio, has opened a factory branch sales office at 900 O'Farrell Street, San Francisco, to handle air compressors (new and used), electric motors, drills, buffers, grinders, wire and grinding wheels, painting, outfits, air hose, water house, air brushes, exhausting and ventilating fans, air filters, reducing gauges, pressure gauges, sand blast machinery, etc. Branch is under the management of W. N. Lux.

C. T. Berg, representing the Port Costa Brick Works and United Material Company and W. S. Hoyt, representing the Richmond Pressed Brick Company, announce the purchase of 62,240 square feet of property at Thirty-fourth and Wood streets, Oakland, on which will be erected a warehouse for the storage of clay products such as common brick, red brick, fire brick, building tile, roofing tile, etc. A supply yard will also be maintained.

C. E. Irwin, painting contractor and decorator, has opened new quarters at 2067 Center street, Berkeley. The new plant will carry a complete line of paints, varnishes, brushes and wall paper to serve both the retail and wholesale trade.

The State Land Settlement Board has closed a deal with the United Concrete Pipe & Construction Co. of Merced whereby the latter is to take over and operate the Samcrete pipe plant in Delhi. The plant has been idle for two years.

O. R. Cross, operating under the trade name of Cross Lumber Company has opened a sawmill, planing mill and box plant at 154 Rio street, Red Bluff. The plant will also carry a line of building materials.

Crescent Lumber Company of Fresno has been incorporated with a capital stock of \$100,000. Directors are: J. S. Joint, H. E. Joint, C. W. Stepanek and Gaynell Stepanek, all of Fresno.

Northwest Rolling Mills Corporation has purchased 10-acre site in Ninth avenue northwest, Seattle, and plans to erect plant costing in excess of \$250,000.

Elizabeth E. and Earl S. Leonard, 1843 Fifteenth St., San Francisco, will operate under the trade name of Leonard Lumber Company.

Albert Bailey and Abram Harris will operate from 141 Clara street under the trade name of Royal Mill & Cabinet Company.

(4 3-room apts.)

Owner—Mrs. Margaret Kalser, 222
Fair Oaks St.

Architect—E. E. Young, 2002 Califor-
nia St., S. F.

Bids are being held under advice-
ment.

Contract Awarded.

APARTMENTS Cost, \$24,000 ea
SAN FRANCISCO, N and S Broadway
50 W Polk St.

Two three-story and basement frame
(12 each) apartment buildings.

Owner—R. J. O'Brien, Alexander Bldg.
San Francisco.

Architect—Albert W. Burgren, 110 Sutter
St., San Francisco.

Contractor—Kiernan & O'Brien, Alexander
Bldg., San Francisco.

Plans Being Revised.

APARTMENTS Cost, \$20,000
BERKELEY, Alameda Co., Cal. No.
2636 Ashby Ave.

Two-story reinforced concrete store
and apartment building.

Owner—Carl Martin.
Designer—Carlson-Lo Prest, Koerber
Bldg., Berkeley.

Owner to Take Figures.

APARTMENTS Cost, \$45,000
SAN FRANCISCO, S Sutter St. — W
Franklin St.

Five-story and basement reinforced
concrete apartment house (35 apts.)

Owner—V. Fassio, 165 Julian Ave., San
Francisco.

Architect—J. C. Hladik, Monadnock
Bldg., San Francisco.

Owner to Take Figures.

APARTMENTS Cost, \$15,000
SAN FRANCISCO, E Franklin St. — N
Greenwich St.

Three-story and basement frame apart-
ments (12 apts.)

Owner—G. A. Metcalf, 2801 Van Ness
Ave., San Francisco.

Architect—J. C. Hladik, Monadnock
Bldg., San Francisco.

To Be Done by Day's Work.

APARTMENTS Cost, \$14,000
BERKELEY, Alameda Co., Cal. No.
1733 Oxford St.

Two-story frame (4) apartments.

Owner—Max Bakar, 618 Excelsior Ave.,
Oakland.

Designer—John L. Lindquist, 1641
Everett St., Alameda.

Electrical Work Let—Bids Being Re-
ceived for Plastering and Stair
Work.

APARTMENTS Cost, \$100,000
SAN FRANCISCO, S Turk St., bet.
Taylor and Jones Sts.

Six-story and basement concrete apart-
ment building.

Owner—M. V. Brady, Monadnock Bldg.,
San Francisco.

Architect—D. C. Coleman, 110 Sutter
St., San Francisco.

Electrical Work—Radelfinger Bros.,
3128 Turk St., San Francisco.

As previously reported plumbing was
let to Adrian Ramazotti, 1473 Val-
lejo St., San Francisco; heating to C.
Peterson Co., 330 6th St., San Francisco;

reinforcing steel to Steel Service Co.,
Indiana St., S. F.; cement to Western
Lime & Cement Co.; elevators to Spen-
der Elevator Co., 168 7th St., S. F.; grad-
ing to Sibley Grading & Tearing Co.,

Architect—Mel I. Schwartz, 1202 Nev. Bk. Bldg., S. F.

Contractor—John Spargo, 240 Montgomery St., S. F.

CALIFORNIANS INC. WORTH SUPPORTING

CALIFORNIANS INC. bases its plea for continuing support on what it has accomplished. Excellent results have followed its advertising campaign, and, on the basis of useful performance, it goes before the people and asks that its record be approved.

Community advertising is the outgrowth of the conviction that the community is subject to the same laws of success as any other business. Communities want population, as manufacturers want customers. Increased population is fundamental to community progress. More population means more buyers, more business, more money in circulation. This is the gospel of Californians Inc. preached at home. Abroad its function is much like that of any other advertiser of goods. It has a good product in San Francisco and California, and is satisfied that if its claims are truthfully and attractively presented to its market, the results will be profitable not only to the community advertised but to the customer population attracted by its message.

Californians Inc. began its advertising campaign late in 1922. Primarily, its object was to attract a new population, a responsible, capitalized population, a producing, working population, rather than a retired, uneconomic population. And, while it may not be claimed that the whole of the progress made in the last three years was due to its efforts, it is certain that Californians Inc. has been a large factor in bringing about this advance.

In two years—1923-1925—during Californians Inc. advertising:

San Francisco industries increased by.....	2,128
San Francisco wage earners increased.....	22,066
San Francisco payrolls increased.....	\$20,822,000
Value of products increased.....	\$33,682,465.00

During the three years Californians Inc. has been carrying on its advertising campaign the number of new water connections in San Francisco was 96 per cent greater than in the previous three-year period. Other significant items increased as follows:

New electric consumers.....	87%
New gas consumers.....	49%
New telephone connections.....	37%
San Francisco property values.....	134%
Building permit values.....	148%

On this record Californians Inc. bases its plea for continuing support. Advertising pays. And the business men of San Francisco feel that they are on the right track in keeping California continually before the national mind.

The \$400,000 that Californians Inc. is asking for this year will not only provide funds for a continuance of the campaign to make California known, but it will protect the \$1,000,000 invested in the last three years and secure the cumulative effect of 'his expenditure.

It is a worth-while investment, one that has proved profitable to the community. And the business men of the city will see that Californians Inc. does not lack for funds to carry on.—Editorial in San Francisco Chronicle, November 17th, 1925.

SANDY PRATT is a subscriber.

TO THE above fund.

BECAUSE IT helps all California.

BOTH SOUTHERN and Northern.

AND SANDY Pratt, produces.

OF SAND, rock and gravel.

IS FOR anything.

THAT WILL help California.

FOR CALIFORNIA'S success.

IS SANDY'S success.

IT PAYS to advertise.

"I THANK you."

Official Proposals

STATE OF CALIFORNIA CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 555 Forum Building, Sacramento, Cal., until 2 o'clock P. M., on December 14, 1925, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefore, to which special reference is made, of portions of State Highway, as follows:

Del Norte County, between The Head of Richardson Creek and The Klamath River, (1-D.N.-1-A), about two (2.0) miles in length, to be graded and surfaced with crushed gravel or stone.

Plans may be seen, and forms of proposals, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willets, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

HARVEY M. TOY,
LOUIS EVERDING,
N. T. EDWARDS,

California Highway Commission,
R. M. MORTON,
State Highway Engineer.

W. F. MIXON, Secretary.
Dated: November 18, 1925.

NOTICE TO BIDDERS

(Bret Harte Union High School Bldg.)

Notice is hereby given by the Board of Trustees of the Bret Harte Union High School District, that sealed bids will be received by the said Board of Trustees at the present High School Building located at or near the town of Angels Camp, up to seven (7) o'clock P. M. on the third (3rd) day of December, 1925, at which time all bids will be publicly opened.

Said bids shall be for the furnishing of all labor and material for the erection and completion of a one-story Concrete and Stone High School Building, according to plans and specifications prepared by Wright & Satterlee, architects employed by the Board, said bids to be for all work according to: Division One (1) which shall be all work except heating and ventilating, and electric clocks.

Division Two (2) heating and ventilating.

Division Three (3) Electric Clocks system.

All according to plans and specifications for said building.

Said Building to be erected on a site

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

recently purchased by the Board of Trustees of the Bret Harte Union High School District, being located at or near the town of Altaville, County of Calaveras, State of California.

All bids are to be for work according to said plans and specifications, which may be obtained at the office of Wright & Satterlee in the Bank of Italy Building, Stockton, California, during business hours.

Each bid must be accompanied by a certified check or certificate of deposit for Seven Hundred and Fifty (\$750.00) Dollars for Division No. 1, \$250 for Division No. 2, and \$200 for Division No. 3; made payable to L. Monte Verde, clerk of the Board of Trustees, and condition that the successful bidder shall enter into a contract in accordance with such bids, and file with said Board of Trustees two approved bonds within six days after the acceptance of his bid, one of which bonds shall be conditioned for the faithful fulfillment of the contract entered into and to be done thereunder, and one for the protection of all persons performing labor or furnishing materials for the construction of said building.

In case the contractor shall fail to execute the required contract or to furnish bonds acceptable to the Board within the six days, due notice having been given him, then shall the contractor forfeit all claims to the said Seven Hundred and Fifty Dollars (\$750), or of deposit above mentioned and it shall become the property of the Bret Harte Union High School District.

All bids must be submitted upon forms obtained from the Architect. Contractors will be required to make a deposit of Fifteen Dollars (\$15) for plans and specifications for Division No. 1 and Ten Dollars (\$10) for plans and specifications for each of Division two and three (2 and 3). Contractors will be allowed ten (10) days in which to figure the work under each Division, should contractor fail to return plans and specifications on or before the allotted time he will forfeit the deposit and the Architects shall be at liberty to use said money to defray the expense of producing additional blue prints and specifications. However should the contractor return the said plans and specifications in good order within the time above mentioned then

shall the architect return the deposit to the contractor.

The Board reserves the right to reject any or all bids.

Dated, Twelfth (12th) day of November, 1925.

By order of the Board of Trustees.

A. C. WILSON,

A. MAY,

J. C. CARLEY,

F. C. STEVENOT,

L. MONTE VERDA, Clerk.

NOTICE TO CONTRACTORS

(Memorial Building—Merced)

Office of the Clerk of the Board of Supervisors, Merced County, California.

Notice is hereby given that sealed bids for the construction of a Veterans' Memorial Building, for the Merced Post No. 83 of the American Legion, to be erected on Lots 10, 11, 12 and 13 in Block 187, according to the official map of the City of Merced of record in the office of the County Recorder of the County of Merced, State of California, will be received at the office of the Clerk of the Board of Supervisors at the Merced County Court House, in the City of Merced, up to 10 o'clock A. M. of Tuesday, the 5th day of January, 1926.

Plans and specifications for the work can be seen at the office of the County Clerk, or copies of same can be obtained from W. E. Bedesen, County Surveyor, Merced, California, upon making a deposit in the sum of ten dollars (\$10.00) for each set of plans and specifications, which will be refunded upon the return of plans and specifications in good condition.

Each bid must be accompanied by a certified check drawn to the order of the Chairman of the Board of Supervisors of Merced County, California, amounting to ten (10) per cent of the bid as a guarantee that the successful bidder will within ten days after being awarded the contract, enter into the necessary contract and bonds to construct said building according to plans and specifications.

The Board reserves the right to reject any and all bids.

P. J. THORNTON,
Clerk of the Board of Supervisors
Merced County, California.

NOTICE TO CONTRACTORS

(Residence—Sacramento County)

Office of the Clerk of the Board of Supervisors of the County of Sacramento, State of California.

Pursuant to an order of the Board of Supervisors of the County of Sacramento, made and entered on record on the 2nd day of November, A. D. 1925.

Notice is hereby given that sealed bids will be received by the undersigned up to and not later than the hour of 12:00 A. M. of the 7th day of December, 1925, at the office of said Board in the Court House building, 7th and I Sts., Sacramento City, for the furnishing of all labor, materials and mechanical workmanship required for the erection and completion of two-story frame and stucco residence building with basement on Lots 242, 244 and 245 of Wright & Kimbrough Addition No. 14, City of Sacramento, County of Sacramento, State of California, in accordance with the plans and specifications prepared therefor by R. A. Herold, Architect, which plans and specifications may be seen and examined, during office hours, by intending bidders at the architect's office, 430-37 Forum Building, Sacramento, California.

All bids must be submitted on blank forms furnished by the Clerk of the

QUANTITY SURVEYOR

Valuation Engineer

ARTHUR PRIDDLE

603 Mission Street, Third St.

Telephone Douglas 8-4-9-3

General Listing Bureau

Architect's Preliminary Estimates

Board, and must be accompanied with a certified check on some solvent bank in a sum equal to ten per cent (10%) of the amount of each bid, conditioned that if the contract is awarded, the party submitting the accepted bid will enter into contract and furnish such bond as may be required within five days after making award, or, failing so to do, the amount of such check to be forfeited as liquidated damages for such failure. All checks to be made payable to the order of the Chairman of the Board of Supervisors of Sacramento County.

The Board reserves the right to reject any or all bids.

By order of the Board of Supervisors of Sacramento County, Calif.

Attest:
(SEAL) HARRY W. HALL,
County Clerk and Ex-Officio Clerk of
the Board of Supervisors of Sacramento County, California.

By WILLIAM HICKEY,
Deputy Clerk.

Dated November 9, 1925.

NOTICE TO BIDDERS

Merced Irrigation District, Merced County, California

Notice is hereby given that sealed proposals will be received at the office of the Board of Directors of the Merced Irrigation District in the Barcroft Building, Merced, California, until **Tuesday, December 1, 1925, at 11 o'clock A. M.**, for the furnishing of the following work and material:

Schedule No. 1—About 170,000 sq. ft. concrete canal lining.

Schedule No. 2—About 16,000 cubic yards canal excavation.

Specifications for said work and material can be seen at the office of said Board, and can be obtained upon the deposit of Five Dollars, said deposit to be returned if said plans and specifications are returned in good condition not later than the date of opening bids.

Said board will be in session at its office at 11 o'clock A. M. on said last day of December, 1925, and open all proposals received in response to this notice.

The contract will be let to the lowest responsible bidder, but the Board reserves the right to reject any and all bids and readvertise for proposals or proceed to construct the work under their own supervision.

Bidders may submit bids upon any or all of the schedules, but no schedule will be subdivided.

A bidder to whom a contract may be awarded must present bonds as provided by law, to-wit: A bond in the sum of at least one-half of the contract price to secure the payment of the claims of material men, mechanics and laborers, and a bond in the sum of at least one-fourth of the contract price conditioned upon the faithful performance of the contract.

Each bid must be accompanied with cash or a certified or cashier's check payable to Merced Irrigation District for an amount equal to at least 5 per cent of the amount of the bid as a guarantee that if the bid is accepted the bidder will, within five days after its acceptance, enter into a contract with the District in the form attached to said specifications and furnish the bonds aforesaid.

Bids must be on the proposal forms attached to the specifications and must be in sealed envelopes addressed to the Board of Directors of Merced Irrigation District and marked to indicate that each is a proposal for the doing of said work.

Dated at Merced, California, this 10th day of November, 1925, by order of said Board of Directors.

H. P. SARGENT,
Secretary of the Board of Directors of Merced Irrigation District.

NOTICE TO BIDDERS

(Concrete Wall—Presidio)

OFFICE CONSTRUCTING QUARTERMASTER, Fort Mason, Calif.
Sealed proposals will be received here until **11 A. M., Nov. 23, 1925**, for concrete boundary wall at Presidio of San Francisco, Calif. Information upon application.

NOTICE TO CONTRACTORS

Mechanical Equipment—Pacific Colony

Sealed bids will be received by Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, up to **2 o'clock P. M., Tuesday, December 8th, 1925**, said bids then and there to be publicly opened and read, for furnishing all plant, materials and labor required for the erection and completion of the **Mechanical Equipment, Cottages No. 4 and No. 6 for Inmates, and Boiler Plant, Pacific Colony, near Pomona, California**, in accordance with plans and specifications therefor, copies of which may be obtained on application to the Division of Architecture, State Department of Public Works, Forum Building, Sacramento, California. Plans and specifications will be on file, for inspection only, at 818 Pacific Finance Building, Los Angeles, California.

Cash, a bidder's bond made payable to the State of California, or a certified check made payable to the "State Engineer, Department of Public Works," in the sum of at least ten per centum (10%) of the amount of the bid, must be enclosed with each bid.

A deposit of twenty-five (\$25.00) dollars will be required on plans and specifications, the deposit to be returned immediately upon the return of plans and specifications to the Division of Architecture, at Sacramento, California, in good condition.

The Division of Architecture, State Department of Public Works, reserves the right to reject any or all bids and to waive any informality in any bid received.

All bids must be addressed to Geo. B. McDougall, State Architect, Chief, Division of Architecture, Forum Building, Sacramento, California, and plainly marked on the envelope: "Proposal for Mechanical Equipment, Cottages No. 4 and No. 6 for Inmates, and Boiler Plant, Pacific Colony, near Pomona, California."

STATE DEPARTMENT OF PUBLIC WORKS, DIVISION OF ARCHITECTURE,

GEO. B. McDOUGALL,

State Architect.

W. F. McCLURE,
Director of Public Works.

NOTICE TO CONTRACTORS

(Terra Bella Irrigation District)

Notice is hereby given that the Board of Directors of the Terra Bella Irrigation District will receive sealed bids or proposals for the construction of a concrete sump and headgate and screens as per plans and specifications prepared therefore **up to the hour of 11 o'clock A. M., on Tuesday, December 1st, 1925**. The Board of Directors reserves the right to reject any or all bids to waive defects.

A certified check made payable to the Terra Bella Irrigation District of not less than five per cent (5%) of the total amount of the bid shall accompany each bid, as a guarantee that the successful bidder will enter into contract with the District within five days after the work has been awarded to him.

All bids must be addressed to Earle R. Cemens, Secretary, Terra Bella Irrigation District, near Pomona, California, and marked on the outside, "Bid for concrete sump, headgate and screens."

EARLE R. CEMENS,
Secretary Terra Bella Irrigation Dist.

NOTICE TO CONTRACTORS

(General Work—Pacific Colony)

NOTICE TO BIDDERS

(Rolling Doors)

OFFICE CONSTRUCTING QUARTERMASTER, Fort Mason, Calif.
Sealed proposals will be received here until **11:00 A. M., Nov. 24, 1925**, for rolling sliding doors. Information upon application.

Engineering News Section

BRIDGES

SAN MATEO COUNTY, Calif.—Frank C. Towne, promoter and holder of the bridge franchise over San Francisco Bay, has awarded a contract to Raymond Concrete Pile Co., N. Y., for test borings in connection with the project. The structure will connect San Mateo county with Alameda county at Hayward; est. cost \$2,000,000.

SAN GABRIEL, Cal.—\$20,000 bond issue for Ramona est. bridge carried at recent election. Ira H. Stouffer, city clerk.

SAN DIEGO COUNTY, Cal.—As previously reported, bids will be rec. by State Highway Commission until Nov. 30, to const. rein. conc. girder bridge over A. T. and S. F. Rlwy. near Carlsbad, consisting on one 27-ft. and two 31-ft. and two 32-ft. spans with 30-ft. rdwy. and 5-ft. sidewalk. Project involves 575 cu. yds. class F and 16 cu. yds. class E cem. concr.; 95,000 lbs. reinforcing steel; 350 cu. yds. excavation for bridge structure; 220 cu. yds. backfill for bridge structure.

SACRAMENTO & CONTRA COSTA COUNTIES, Cal.—See "Sewers and Street Work," this issue. Projected Sherman Island bridge; formation of joint highway district.

OLYMPIA, Wash.—Until 10 A. M., Dec. 1, bids will be rec. by state highway comm. (J. W. Hoover, state highway engr.), to const. steel bridge across Columbia River on State Rd. No. 7, at Vantage Ferry Washington. Bridge will be about 2174 ft. long, involy. 8500 cu. yds. excav. for found., 10,250 cu. yds. concr., 500,000 lbs. reinf. steel, 3,000,000 lbs. struc. steel, 550 M. B. M. timbers. It is reported that two piers at least will require use of pneumatic process for sinking, with pressure heads from 55 to 85 ft., involy. 4500 cu. yds. excav., 550 M. B. M. timber for pilsons. Plans may be obtained from engr. upon deposit of \$10.

SONORA, Tuolumne Co., Cal.—A. Parsons, Sonora, at \$982.50 awarded contract to widen Curtis Creek bridge on Tuolumne rd. R. J. Gray, \$2069; M. F. Swerer, \$1825 were other bidders.

Parsons at \$748 awarded cont. to repair Sullivan Creek bridge on Tuolumne rd. Other bids: M. F. Swerer, \$849.75; N. F. Tompkins, \$875; R. J. Gray, \$968.50.

DREDGING, HARBOR WORKS AND EXCAVATIONS

OAKLAND, Cal.—City votes bonds of \$9,960,000 to finance harbor improvements as follows:

Outer Harbor—A wharf 1700 ft. long with a 1500-ft. transit shed of nearly 200,000 sq. ft. in area and necessary tracks and roadways, located on city land at the west end of 14th St.

Inner Harbor—A double pier at Grove St. with 1700 ft. of berthage and a transit shed with an area of 168,000 sq. ft. and a double pier at Clay Street with 1500 ft. of berthage and 126,000 sq. ft. of transit shed, with necessary roadways, trackage and approaches.

Brooklyn Basin—A mole pier with 1800 ft. of berthage space and a transit shed with an area of 600,000 sq. ft., together with the necessary trackage, roadways and approaches thereto from existing streets.

Warehouse and Cold Storage Plant—To be constructed at the most suitable

place in the harbor area sufficient to meet the requirements of shipping.

Fire Boat and House—A fire boat with a capacity of 10,000 gals. per min. at 200 lbs. pressure, together with a house for its protection.

Miscellaneous Dredging—In various parts of the harbor.

COLUSA, Colusa Co., Cal.—Directors of Reclamation District No. 1004 will levy \$40,000 assessment to finance extension of irrigation and drainage canals.

MERCED, Merced Co., Cal.—Until Dec. 1, 11 A. M. bids will be rec. by H. P. Sargent, Secty., Merced Irrigation District, for (1) 170,000 sq. ft. conc. canal lining; (2) 16,000 cu. yds. canal excavation. See call for bids under official proposal section in this issue.

YUMA, Ariz.—Until 4 p. m., Dec. 1, bids will be rec. to cut down hill on parts of lots 11 to 17 incl., blk. 9, city of Yuma, and removing rock and earth from premises, invly. approx. 100,000 cu. yds. This work is for day-lighting Prison Hill, bet. Doten St. and Prison Lane. Cert. check 5%. S. F. Stanley, city recorder.

LONG BEACH, Cal.—Fred C. Franks Constr. Co., San Francisco, awarded cont. supplementary to cont. bet. said company and city of Long Beach dated March 17, 1924, to transport all dredged materials under such cont. and deposit same in area on beach west of the harbor entrance, at 5.9c cu. yd.

SACRAMENTO, Cal.—Until Dec. 14, bids will be rec. by Harry Hall, county clerk, to const. pavement on Grand island at intersection of Sacramento river and Steamboat Slough. Plans obtainable from County Surveyor Chas. Deterding, Jr.

BIDS IMPROPERLY PREPARED

Contracting officers of the Government are again complaining of the failure of bidders to prepare their bids in accordance with established regulations, and particularly with the requirements of the Judge advocate general's office making it mandatory that the bidders state the amount of premium paid on contract bonds. Absence of this information delays the execution of the papers and the delivery of contracts. Contractors can materially assist in expediting execution and completion of contracts by complying with these necessary requirements.

DRAFTSMAN EXAMINATION

U. S. Civil Service Commission announces an examination, to be held shortly, for the position of "principal architectural and structural steel draftsman," paying an entrance salary of \$2100 a year with possible advancements in pay up to \$2700 a year. Applications for examinations may be had from the offices of the commission in the Post Office or Customhouse in any city and must be filed with the commission on or before Dec. 26.

NEW METHOD OF PROCESSING WROUGHT IRON TO REDUCE COSTS

That the inventive genius of the American engineers is constantly at work to reduce manufacturing costs by substitution of machinery for manual labor is again evidenced as the result of the annual meeting of the American Iron & Steel Institute of New York, which forecast considerable reduction in building costs in consequence of the perfection of a new method of processing wrought iron.

F. H. Dechant has perfected the new process for the American Chain Company, and its subsidiary, the Highland Iron & Steel Company, Terre Haute, Ind. According to the description of the new process, which is called the Ely process of manufacturing wrought iron, which Mr. Dechant gave to the convention, the production of wrought iron is done by mechanical puddling. The apparatus used is the patented Ely furnace which comprises a box-like structure mounted and equipped to rotate or oscillate as required. The usual ports are provided for the introduction of fuel and the exit combustion products. An important feature of the furnace and one which has much to do with the lessening of the amount of labor required is the mechanically operated door which opens and closes for the reception of raw materials and the discharge of slag, cinder and the puddled ball. This door is equipped for remote control so that it may be operated at any time whether or not the furnace be in motion.

The lining of the furnace is composed of fire brick, laid next to the outer shell, and the inner surface is arched or curved so that the greatest diameter of the furnace is at mid section. Various fuels have been used, notably coal and fuel oil, but recent developments have been accompanied by the use of very finely pulverized coal produced by the Briggs Fuelizer, another recent development of the American Chain Company of Bridgeport, Conn.

"The most notable feature of the process is its adaptability for being carried out by unskilled labor, one puddler and two assistants being able to operate two furnaces with ease," said Mr. Dechant. "This fact, together with the convenient size of the ball produced, enables the production of large quantities of iron at low cost."

The uses for commercial wrought iron today are many and they will be increased immeasurably by the decrease in production costs which now places it on a basis that is relatively cheaper than the Bessemer and open-hearth steel which has for many years been used extensively as a substitute for wrought iron.

NEW BULLETIN

The Engineering Experiment Station, University of Illinois, has issued Bulletin No. 67 entitled "Reinforced Concrete Wall and Column Footings," by A. N. Talbot, originally issued in 1913, and which has been out of print for a number of years. This bulletin contains a description of tests on a number of different types of reinforced concrete wall and column footings. A limited number of copies are now available at the price of sixty-five cents each and may be obtained by addressing the Engineering Experiment Station, Urbana, Illinois.

U. S. LIMESTONE DEPOSITS ARE FAST DISAPPEARING

More than 120,000,000 tons of limestone are used commercially in the United States every year, according to a survey conducted by the department of commerce. The study discloses that the surface deposits of limestone gradually are becoming exhausted, forcing more and more operators to employ underground methods of quarrying.

Owing to the lack of familiarity with mining for limestone, department experts have made a study to determine the methods in use, to ascertain what constitutes good and bad practice and to suggest improvements that will increase the efficiency of the industry. This investigation, conducted by the bureau of mines has placed at the disposal of quarrymen a great volume of information that officials believe will be of important benefit.

ENAMELING PLANT EXPANDS

Sagerdahl & Doss, 1111 Geary St., enamelers of hollow metal doors, elevator cabs, metal furniture of all descriptions, and other metals used by the building trades, announce the enlarging of their plant to facilitate the handling of bulkier articles to be enameled for the building material dealer, contractor and architect. According to Doss, formerly connected with the enameling department of the Forderer Cornice Works, while the firm was but recently organized it has had upwards of twenty years' experience in enameling. He states they are able to match any of the finishes commonly used on metal and wood. Grained, stippled, imitation bronze, and plain enameling being a specialty.

The Clyde Builder's Hoist

Photo shows Clyde single drum reversing builders' hoist working for Krahl Construction Co., Chicago, on the new Venetian Bakery building.

The Clyde single drive reversible steam hoist with boiler and elevator sheave is a unit of the Clyde line which has demonstrated repeatedly its ability to more than meet the requirements.

It is built with the usual Clyde thoroughness in detail construction. Cut gears; extra large shafting, turned and ground, asbestos lined brakes and heavy pawls, all contribute to the satisfaction found in the finished product.

When desired, the hoist can be equipped with friction clutch elevator sheaves, instead of jaw clutch. Full details upon request.

KOEHRING DANDIE

Light Mixer

**Four-cylinder
Gasoline
Engine**

FAST! Fast! Fast! Here is a light mixer with a speedy charging skip, liberal drum dimensions and a high speed discharge that will break all your records of putting concrete where it pays you profits!

Just the balanced light weight to haul behind your truck on its rubber tired disc wheels and get from job to job in a big hurry.

Four cylinder, radiator cooled, gasoline engine. Transmission from engine to drum enclosed in oil bath! Double gear drum drive, chilled, beveled gears! Drum rollers fixed to shafts revolving in big bearings!

It's useless to try to give you the smallest idea of what this Dandie represents in superior speed and construction details—but it's *strong, rugged*—it will stand-up for all the punishment you can give it, and *work and work, and work!*

And you have a chance to buy at a price that gives you all the benefit of the economies the Koehring Company effect by big, standardized production! If you had half an idea of what this mixer means in the way of actual value, you would send back the coupon for full detail by next mail!

**Send Back this
Coupon!**

Koehring Dandie — 7 cu. ft. capacity mixed concrete. High speed charging skip, or low charging hopper with hinged steel framed platform which may be folded against mixer for hauling. Discharged from either side of mixer.

4 cylinder gas engine, radiator cooled, or optional two cylinder engine, hopper cooled. Drum drive transmission in oil bath. Maybe equipped with *automatic water measuring tank*, and *Light Duty Hoist*.

OAKLAND ARCHITECT RECEIVES COMPETITION AWARD

Frederick H. Reimers, Oakland architect, has been informed by Architectural Forum that he had been awarded the third prize in a national competition conducted by the Architectural Forum for the Lehigh Portland Cement Company. The competition, which was open to all architects in the United States, called for plans for a small residence, and the awards were made by a jury of five prominent Eastern architects.

Mr. Reimers' plans were for a quaint rural cottage of English type, low roof line with stone chimney and garden walls. The type is particularly adaptable to California.

The award was made to Mr. Reimers on the following seven points: Adherence to competition regulations; execution of plan; economy and efficiency of plan; architectural correctness and attractiveness of plan; practicability for concrete masonry construction; practical provisions for structural safeguards against fire; texture and color of scheme.

GAME COMMISSION OPPOSITION KILLS \$10,000,000 PROJECT

Withdrawal of the largest water application filed with the state division of water rights in several years is announced by E. N. Bryan, chief deputy of the division, when Thomas M. Park of San Francisco recalled his application for water rights in connection with a \$10,000,000 project in Siskiyou county.

Threatening opposition by the state fish and game commission was the reason for the cancellation, Park told the officials of the water division.

Park sought to appropriate 3000 cubic feet per second from Klamath river for generating 54,545 horsepower and a second application for the same amount to develop 39,000 theoretical horsepower. These applications for power development and mining purposes were estimated to cost \$10,000,000.

With the announcement of the applications, the state fish and game commission launched an immediate investigation as to the possible obstruction to fishing conditions that would result from such a project.

The commission held that Park's project was in opposition to the intent of an initiative measure voted at the last November election, prohibiting any project that would interfere with the fish and game preserve extending to the mouth of Scott river.

The commission advised Park that protest would be made against his projects, and advised him to take the matter up with legal authorities.

After due consideration, Park presented his plans of cancellation to the division of water rights.

According to Bryan, Park requested his withdrawal be accepted without prejudice.

Park definitely stated that he did not propose to abandon the project, but would endeavor to find some other way by which he could proceed with his \$10,000,000 development project.

GENERAL BUSINESS SITUATION

Favorable factors in the business situation outweigh the unfavorable, according to Iron Age. This publication believes that this condition will continue through the balance of the year.

A summary of favorable and unfavorable factors follows:

Favorable

- (1) Commodity prices fairly stable;
- (2) unfilled orders increase;
- (3) diminished prospect of tight money markets;
- (4) report trade gained in September;
- (5) business failure trend downward;
- (6) building activity very great;
- (7) automobile production well sustained.

Unfavorable

- (1) Ratio of commodity prices to physical volume of trade tending downward;
- (2) new enterprises decline sharply;
- (3) stocks of manufactured commodities large for the season;
- (4) decline in grain prices;
- (5) extended speculation in real estate and stock markets;
- (6) money rates at point near investment yields.

H. C. STORRIE POWER CONTRACT IS FINANCED

Announcement of an important piece of power financing is made today by First Securities Company, Los Angeles, heading a banking group which includes E. H. Rollins & Son, Pierce, Fair & Co., William R. Staats Co., California Securities Company, Dean Witter & Co., Security Company, Stevens, Page & Sterling, Hunter, Dulia & Co., Citizens National Company, Bond & Goodwin & Tucker, California Company, Drake, Riley & Thomas, and Schwabacher & Co.

Feather River Power Company First (closed) Mortgage 5% Series Gold Bonds, due 1929 to 1963, in the amount of \$5,500,000, are offered at par to yield 6%.

The power output of the large hydroelectric development of this company is to be taken, under a 35-year purchase contract, by the Great Western Power Company of California, which company at the end of that period will become the owner of the reservoir, water rights, power plant with installed generating capacity of 40,000 K W and all appurtenances. The bond issue will be amortized serially over the period of thirty-five years. The bonds have been authorized by the Railroad Commission of the State of California.

The engineering features have been approved by W. A. Brackenridge, consulting engineer; construction work is being done by R. C. Storrie & Company, contractors, of San Francisco, and completion is guaranteed by surety bonds of several of the largest surety companies in the United States, in the aggregate amount of \$6,850,000. All legal details are under the direction of Gibson, Dunn & Crutcher, Attorneys, Los Angeles.

SHORTAGE OF LABOR SHOWN EVERYWHERE EXCEPT CALIFORNIA

The gigantic wave of prosperity now sweeping the country has exhausted practically all the labor available for some industries in many of the larger centers, and actual labor shortages now exist, according to figures made public by the department of labor.

This is particularly true of New York state. In the Boston district the majority of plants are running full time with full working quotas.

In California a considerable shortage exists in harvest workers and skilled shaft men for lead, zinc and silver mines. Railroad repairs shops are operating on a normal basis. Skilled labor is "well employed" throughout the state, but a surplus exists in common labor.

Western Water Company with main offices at Taft, plans to expend \$250,000 in development of an adequate water system to serve the Taft and Midway oil fields in Kern County. Deep wells will be the source of supply.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

In an address before the semi-annual meeting of the American Iron & Steel Institute in New York on October 23, Judge Elbert H. Gary, Chairman of the United States Steel Corporation stated that although the industry had more than doubled its capacity for production during the last decade, present operations are about 80 to 85 per cent of total capacity. Judge Gary stated that conditions in the industry had been better this year than predicted at the beginning of 1925 and that every indication pointed to a continued era of prosperity in the iron and steel trade. One of the reasons for conditions being good in the steel industry is on account of the big building program now being carried on throughout the country. The construction industry uses one ton of steel out of every five tons produced, and next to the railroads is the biggest consumer of steel products in this country.

The year 1925 will record a \$5,000,000 building program, the largest in the history of the United States. So says Herbert Nelson, the executive secretary of the National Association of Real Estate Boards. His statement is based on a real estate index prepared by the National Association covering forty-one cities. A more favorable money market and a market desired on the part of the American people to obtain better living conditions, he assigns as the cause. A striking feature of the index is a marked increase in the sales and population of farm lands throughout the nation.

The complaint of the Federal Trade Commission filed in September, 1924, against the Permutt Co., New York City charging it with unfair trade practices was unqualifiedly dismissed on Oct. 20 after an exhaustive investigation. The company is thus vindicated of any charge of unfair trade practice. The Permutt Co. manufactures and sells zeolite water softeners and other appliances for general sanitation purposes.

Members of the Bridge, Structural and Ornamental Iron Workers' Union of Boston have voted to call off their strike on all construction work in that city. They returned to work on October 29 at the old rate of \$11.0 per hour. Approximately 400 members of the union quit work about the middle of October to establish a new rate of \$12.25 per hour.

J. R. Howell, former engineer of the Anderson-Cottonwood Irrigation District in Shasta county and more recently with the upper Sacramento Valley holdings of the American Bank, died in Cottonwood, Nov. 19. Harry Howell, civil engineer of Sacramento, is a brother. J. R. Howell was born in Merced in 1880.

According to Harvey W. Corbett, speaking at the National City Plan meeting at Philadelphia, in April, 50 years hence all automobile traffic will have entirely disappeared from the surface thoroughfares of New York City and people will be shot through tubes like merchandise.

The data obtained from 50,000 questionnaires submitted to manufacturers throughout the country was made public at the recent convention of the National Association of Manufacturers by John Edgerton, President of the organization. A summary of the reports show that 19.1 per cent of the replies indicate business excellent; 43.5 per cent good and 30.5 per cent fair. Replies reporting present trade compared with last year were as follows: 61.2 per cent better; 16.5 per cent worse and 23.6 per cent unchanged. In the building material manufacturers division, the reports on present trade conditions were as follows: 16 per cent excellent; 46 per cent good and 30 per cent fair. Replies reporting present trade compared with last year were as follows: 46 per cent better; 20 per cent worse and 34 per cent unchanged.

With winter at hand, the two big lumber companies, Standard and the W. R. Pickering, have ceased operations in the woods above Sonora. The Standard cut 60,000,000 feet and the Pickering 50,000,000, reaching last year's figures. The mill at Standard City will run two weeks yet on logs in the pond, but the Pickering company will operate its mill at Tuolumne until some time in January before closing. The Standard company has 100 men at work at present at its railroad construction camps. These crews will be kept employed all winter, completing a line from Lyon's Dam to Schoettgen's Springs at the top of the ridge, a distance of 20 miles.

The Minnesota Trades School, located in St. Paul, opened its winter term on November 2. The course is for six months and will end April 30, 1926. This is the fifth year for the Minnesota school. It was one of the first building trade apprentice schools to be established in the country and has had a good record of accomplishment since its inception. The school is under the control of the Minnesota Building Employers Association.

Frank Page of Raleigh, N. C., was elected president of the American Association of State Highway Officials at the close of the organization convention in Detroit, Nov. 21. Louis D. Blauvelt of Denver, Colo., was named vice-president. Resolutions favoring continuance of federal aid for road building and a uniform system of road marking were adopted.

An order for three and a half million feet of Mendocino county redwood is reported placed by the Southern Pacific Company for use on its lines in Mexico. Both ties and lumber are included in the order. Some of it is said to replace fir, which is alleged to deteriorate quicker in that climate than redwood.

Articles of incorporation of the Sears Point Toll Road Company, capitalized at \$600,000 have been filed with the secretary of State. The company will operate a toll system on a macadamized road in Solano county. Office of the company will be in San Francisco. Business men of that city are named as directors.

ALONG THE LINE

J. W. Swaren, recently engineer in the Treasury Department at Washington, D. C., has opened an office there for consulting service to other engineers who may be engaged in the preparation of data for submission to federal departments and bureaus. Prior to the war, Mr. Swaren was engineer of tests with the Pacific Gas & Electric Co. and from 1908 to 1917 was engaged in private practice in San Francisco. Subsequent to the war, he was for a time general sales manager and engineer of the Duriron Co. of Dayton, Ohio, before going to the Treasury Department. More recently he has been in private practice in appraisal and valuation work.

Santa Barbara county rejects proposal to issue bonds of \$980,000 to finance construction of a combined courthouse, hall of records and county jail building. The vote was 3888 in favor and 2544 against the issue, a two-thirds majority being required to carry the proposal.

Frank Welsh, 53, contracting engineer, died in an Oroville hospital as the result of injuries he sustained in an accident at the Table Mountain Clay Products plant of which he was general manager. Mr. Welsh was until lately connected with Richmondite Paving Company.

N. A. Dickey, president of the California Brick Company and the Livermore Brick Company, accompanied by his wife left Nov. 14 on the Steamer Manchuria for a pleasure trip to Havana. He will be gone about six weeks.

Harry Hess, city harbor engineer of Oakland, announces he is "swamped" with applicants for engineering positions, due to the proposed construction program to be financed through the recently voted \$9,960,000 harbor bond issue.

Harris G. Otis, city manager of Clarksburg, W. Va., was elected president of the International City Managers' Association at the annual convention of the organization at Grand Rapids, Mich. John N. Eddy, manager of Berkeley, was chosen vice-president.

Edmund D. Grove, former Petaluma city engineer, died in that city, Nov. 15, following a two day illness. Mr. Grove was born in Austin, Nevada, in September, 1870.

L. C. Kinwelman, engineer with the Maintenance Department of the California State Highway Commission, died in Oakland Nov. 12.

Lemuel David Davis, former surveyor in Sierra County, died in San Francisco early in November at the age of 80 years.

ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

TEXAS LEGISLATURE PASSES NEW LIEN LAW

The legislature of Texas at its last session passed the following act:

SECTION 1. That any person, firm or corporation, or trust estate, furnishing any material, apparatus, fixtures, machinery or labor to any contractor for any public improvements in this State, shall have a lien on the moneys, or bonds, or warrants, due or to become due to such contractors for such improvements; provided such person, firm, corporation, or stock association shall, before any payment is made to such contractor, notify in writing the officials of the State, county, town or municipality whose duty it is to pay such contractor of his claim.

SEC. 2. That no public official, when so notified in writing, shall pay all of said moneys, bonds or warrants, due said contractor, but shall retain enough of said moneys, bonds or warrants to pay said claim, in case it is established by judgment in a court of proper jurisdiction.

SEC. 3. The fact that the State is now entering upon a period of intensive road building and public improvements and that the machinery people have to supply the contractors on such public improvements with machinery to make improvements, and that such machinery people lose enormous amounts of money by such contractors leaving their jobs incomplete and making away with the machinery, creates an emergency and an imperative public necessity that the rules requiring bills to be read on three several occasions be suspended, and that this law take effect from and after its passage, and it is so enacted.

RAPIDLY GROWING

Howard K. Johnson, president of the Builders' Institute of Sacramento, announces the membership campaign being conducted by the organization is meeting with success. Applications accepted at the last meeting included those of J. T. Hunt, W. F. Wood, H. H. Bateman and W. W. Polley, general contractors; George Sorensen, ornamental plaster and cement; W. R. Field, plastering contractor, C. H. Wainwright, brick contractor and Mark-Lally Co., wholesale plumbing and heating supplies.

The following applications have been received and will be considered at the next regular meeting of the directors: Wm. C. Keating, Frank P. Williams, Campbell Construction Co., L. F. Gould, Ira C. Boss, Chas. J. Peterson, I. Greltzer, general contractors; MacDonald & Kahn, Inc., supt. of construction; Frank M. Fuller, plumbing contractor; J. A. Miller, brick contractor; F. A. Clark, roofing contractor; Old Mission Portland Cement Co., cement; Sacramento Building Block Co., cement contractor and manufacturer; W. E. Dugdel, specialty (Byrne Fireplace Furnace Distributor); Frank W. Harkin, cement contractor; F. L. Palmer, plastering contractor; Edw. Cechettini, hardware; Calif. Stucco Products Co., stucco manufacturers; Capital Nursery landscape gardening.

150 HEAR F. C. DAVIS TALK ON EARTHQUAKES

Wednesday evening, Nov. 18th, the Master Masons Association of Alameda County gave an elaborate dinner in the quarters of the Builders' Exchange of Alameda County.

Mr. B. Brigham, president of the Master Masons Association, introduced Mr. W. W. Dennis of the McNear Brick Co., as chairman of the evening. Mr. Dennis gave a short talk explaining the objects of the occasion. He had secured Mr. F. C. Davis, structural engineer of the Gladding, McBean Company, who gave an illustrated talk on the manufacture of terra cotta, and followed with a talk on the conditions of building after the earthquakes of San Francisco, Santa Barbara and Japan.

Mr. Davis showed lantern slides of the different buildings that had withstood the earthquakes. This lecture was intended to show the value of brick, tile and terra cotta when properly constructed. Mr. Davis laid much stress on the three following factors to be considered in all building construction: 1st, Proper designing; 2nd, Good workmanship; 3rd, Good material.

He also discussed the importance of proper wetting of the brick and proper ties between masonry and frame of building.

There were about 150 at the dinner, including architects, engineers, city officials, brick masons, and general contractors.

Mr. Robt. Greig, State Housing Commissioner, was also a guest of the evening.

All those who attended gained much valuable information in tile, brick and terra cotta construction.

Mr. Frederick C. Davis has been with the Gladding, McBean Company for thirty-five years. He was the first salesman to sell terra cotta in Japan and the first American made terra cotta in Australia. He has made three trips to Japan before and after the earthquake, and also has made numerous trips to Honolulu for the Gladding, McBean Company.

SACRAMENTO BUILDERS' INSTITUTE ENJOYS BIG BEAN FEED

The get-together luncheon of the Sacramento Builders' Institute, held last Tuesday noon, proved a huge success in-as-much as it was the consensus of opinion that such luncheons should be held often.

The hero of the luncheon proved to be Andy T. McGuire, a grading contractor, who handles the culinary equipment and the trimmings with as much gusto as he would a grading job. Steaming hot beans—and more of them—was Andy's menu. That the menu was enjoyed was shown in the fact that the plates were clean enough to return them to the cupboard without the usual dishpan preliminary.

T. P. Scollan, a lathing contractor, furnished the thrill of the luncheon by raffling a ten pound turkey, a product of the Sacramento valley. Each guest was given a ticket as a gate prize. Following the drawing the turkey was carried home by L. L. Robertson of the George H. Tay Company of Sacramento.

HIGHWAY PROMOTION ASSOCIATION IS FORMED IN S. F.

The Highway Promotion Association is the name of a new organization brought into existence by highway contractors and representatives of various branches of the construction industry in northern California. About 50 were present at the organization meeting held in San Francisco. Adequate financing of state highway construction will be the chief object. Officers were elected as follows, two vice-presidents and seven directors to be named later representing southern California interests:

President, Henry J. Kaiser, Kaiser Paving Company; secretary, Roy Fellom, Pacific Street & Road Builder; treasurer, Harry Lesser, California Bridge & Tunnel Co.; directors, J. P. Holland, J. P. Holland Co.; Herbert Coffman, Old Mission Portland Cement Co.; Edw. R. Bacon, Edw. R. Bacon Co.; F. E. Brisbane, Fidelity & Deposit Co. of Maryland; John Daniel, Daniel Contracting Co.; H. A. Larsen, National Steel Fabric Co.; J. W. Riley, Coast Rock & Gravel Co.; C. R. Stevens, General Petroleum Co.; I. M. Wells, Spears-Wells Machinery Co.; Roy Fellom; Harry Lesser, California Bridge & Tunnel Co.; Henry J. Kaiser, Kaiser Paving Co.

"ASSOCIATE MEMBERSHIP" OPENED IN BUILDING CONFERENCE

The Pacific Coast Building Officials Conference, A. C. Horner, secretary-treasurer, announces the opening of an "associate membership" to architects, engineers, builders, material dealers and manufacturers of building products. The entire fee and annual dues have been placed at \$2 a year.

The conference has prepared a tentative draft of a proposed uniform building code which, when completed, will be offered to the Pacific Coast cities. This tentative code, before it is adopted by the Conference, will be given careful study in order to learn what changes are necessary and to make comparisons with existing building practice. The assistance and advice from those affected will be sought and numerous conferences will be held.

ENGINEERS ELECT

W. W. Lane, chief engineer of the Arizona state highway department, was elected president of Arizona Chapter, American Association of Engineers. John W. B. Blackman of Phoenix was elected first vice-president and Claude W. Miller of Yuma was elected second vice-president.

Arrangements are being completed in Washington, D. C., by the Associated General Contractors of America for the seventh annual meeting to be held in Portland, Ore., during the week of January 18, 1926. Extensive preparations are being made by the Pacific Northwest Chapter of the organization for entertainment of the visitors and their ladies.

TRADE NOTES

The Pajaro Valley Mercantile Company of Watsonville has disposed of its general hardware department to the Watsonville Hardware Company of that city. The change will become effective Dec. 1. Officers of the latter company are: Grover R. Cottrell, president; Henry G. Watters, vice-president; Hrebert L. Rettig, secretary and treasurer, and Bertha B. Watters. The business will be under the active management of Grover R. Cottrell and Hubert L. Rettig.

Electric Supply Co., wholesalers and jobbers of electrical specialties and supplies, radio materials and parts, has been opened at 1063 Howard St., San Francisco, by Edw. N. Watkins. In the electrical specialties group, the company will handle the lines of the Star Rite, Bosch, Gold Seal, Simplex, Curlex and Wolcott.

Silent Hoist Co., Brooklyn, N. Y., announces the appointment of the following distributors as exclusive sales agents for its winches, cranes and derricks: Standard Auto Body Works, 1501 Central Ave., Los Angeles, and Traller & Truck Equipment Co., 1340 Howard St., San Francisco.

Stelling Electric Co., 548 Jones St., San Francisco, is opening a branch store at 2310 Mission and will handle a general retail line of electrical supplies, lighting fixtures, radios and radio equipment, and engage in the electrical contracting business.

Table Mountain Clay Products Company of Oroville has filed articles of incorporation. The company has a capital stock of \$100,000, and the directors are J. C. Boyle, L. F. Riley, C. F. Belding, E. Meyer and J. B. Fritzgerald, all of Oroville.

Elrod-Oas Home Building Company has been incorporated in Oakland with a capital stock of \$200,000. Directors are: M. A. Elsie, Oakland, Clarence DeLancey, Piedmont and E. Ritchie, Oakland.

The Beecher Co., contracting furnishers and decorators, announce the opening of its new quarters at 1161 Mission street, San Francisco. The company formerly operated from 783 Mission street.

Carpenters' Co-Operative Association, a contracting concern, capitalized at \$25,000, has filed articles of incorporation at Redwood City. C. C. Campbell is chairman of a board of twelve directors.

Art Iron Works, formerly located at 1795 Union street, has moved to a more central location at 574 Bryant street, San Francisco, where with additional equipment the company will be enabled to afford better service.

The Electric Material Company, capitalized at \$25,000, has been incorporated in San Francisco with the following directors: L. Eltisle, M. Hulbert and J. L. Reith.

H. H. Larsen, formerly located at 517 Monadnock Building, San Francisco, has moved to Room 407 Foxcroft Building, 68 Post Street.

Negotiations Completed To Make S. F. World's Hardwood Center

San Francisco is preparing to wrest from New York the North American control of Latin America's hard and soft wood lumber industry.

This was revealed Saturday when George Feeley, formerly one of New York's dealers and shippers of hardwood and balsa lumber from South and Central American ports, and now associated with N. H. Hickman at 24 California St., San Francisco, announced the completion of a deal which provides for the shipment of millions of feet of material to San Francisco, effective after January 1.

High lights of Feeley's announcement are:

Organization and location here of a big receiving and distributing plant where hard and other woods from Latin America will be treated if necessary, cut into the desired dimensions and distributed direct to manufacturers.

Solicitation of the eastern manufacturers with a large export business to locate plants or factories in the San Francisco area, because the raw lumber material may be secured here at only a fraction of the eastern cost, and thus effect a big saving in the manufacturing price at a place more convenient to the export market.

To point out to the eastern prospects the advisability of locating adjacent to tide water in order to secure large shipments of manufacturing woods direct from arriving vessels and also to make possible the loading of water shipments direct into shipholds from the concern's private wharf.

To encourage the conversion of vessels into refrigerators at this port because balsa, the world's most efficient insulator of heat, cold and moisture, can be delivered and sold here at almost one-half of the New York price.

"We are simply taking advantage of

the opportunity offered because the eastern market, plus the cost of freight to San Francisco, makes the cost of raw material to the manufacturers excessive," Feeley said.

"For instance," New York quotes balsa wood at approximately \$200 per ton. We are in a position to practically cut this price in half, and this will mean that it has now become logical to utilize this, the world's best insulator, in important work.

"We are preparing to close a deal providing for the use here at San Francisco of a vast quantity of balsa to be used in converting a number of vessels into refrigerator craft. In addition, the wood is used for other classes of insulation and one of our engineers now proposes to extend its use as a sound insulator in all classes of buildings and homes. It will also be used extensively to lay under hardwood floors to insulate heat, cold and sound.

"We are planning to communicate direct with thousands of manufacturing concerns utilizing hardwoods, balsa and other foreign woods in their product and secure an accurate estimate of raw material costs.

"We will then submit the San Francisco costs and tabulate the tremendous savings which may be effected if these concerns locate main or branch factories in this district.

"We expect to handle more balsa than other woods because the demand is greater. We have already proved to local manufacturers that this wood can be used as a superior substitute for cork in all classes of insulation, and as a result are now arranging to send a representative to Latin America to take charge of the big purchases and consignments to be diverted to San Francisco."

LATHERS UNUSUAL DEMANDS ARE REJECTED

The Metal Lath Contractors Association of Kansas City was recently presented with a unique proposition by the local lathers' union which contained the following demands:

(1) That the personnel of the Lathers Union be divided into about four classes.

(2) That these four classes be graded according to the ability of the men, the highest of the four grades to contain only "good lathers."

(3) That the "good lathers" receive \$12.00 per day and that the other grades be decreased proportionately so that the poorest grade would receive \$8.00 per day.

(4) That a Labor Board be instituted to consist only of representatives from the Metal Lathers' Union No. 27 and that this board would convene at stated periods for the purpose of making a recheck of the various classes of metal lath workers as to their ability.

(5) That an advance of \$1.00 be granted every three months to those meriting an increase in the estimation of the Labor Board.

(6) That the request for the proposed increase go into effect at once.

The Executive Board of the Builders Association of Kansas City with which organization the lathing contractors are affiliated, after conferring with representatives of the latter group, voted to turn down the proposition.

\$20,000,000 STEEL PLANT IS ANNOUNCED FOR SAN DIEGO

A steel plant to cost \$20,000,000, and which will be the only one on the Pacific coast, is to be constructed at San Diego, according to Claus Spreckels.

Spreckels, who is the son of John D. Spreckels, and general manager of his father's interests, admitted that conferences were being held with officials of the Studebaker corporation, automobile manufacturers, for establishment of such a plant in the near future.

Salient details of the project are:

The plant will cost \$20,000,000 and will have a capacity of 1300 tons of ore a day.

Iron ore, which will be transformed into steel at the plant, will be brought from mines located about 130 miles south of San Diego, on the coast of Lower California.

Engineers are already at work surveying for construction of a 600-foot dock near the Lower California ore field, according to Spreckels.

Gerard Glenn of the legal staff of Western Power Corporation of New York, is in Fresno in connection with the merger of the San Joaquin Light & Power Corporation and Great Western Power Corporation with Western Power Corporation. He recently returned with A. Emory Wishon who was in New York on a business trip.

APARTMENTS

To Be Done By Day's Work.

APARTMENTS Cost, \$16,000
OAKLAND, W Erie 200 N Mandana Blvd.
Two-story 18-room frame and stucco apartments
Owner—H. C. Knight, 1428 Franklin St., Oakland.
Architect—None.

To Be Done By Day's Work.

APARTMENTS Cost, \$20,000
SAN FRANCISCO, NW 22nd Ave & Balboa Street.
Three story and basement frame (12) apartments.
Owner—T. I. Strand, 166 Funston Ave.
Architect—None.

Segregated Figures to be Asked in Two Weeks

APARTMENT BLDG. Cost, \$400,000
SAN FRANCISCO, NE Jackson and Steiner Sts.
Ten-story and basement and sub-basement class A (steel frame and concrete) apartment building, 10 apartments.
Owner—Thomas Hamill & R. G. Hall, Inc., 6140 Geary St., San Francisco.
Architect—C. A. Muesdorfer, 802 Humboldt Bank Bldg., S. F.

Contract Awarded

APARTMENTS Cost, \$13,000
OAKLAND, NW 14th Ave. & E. 19th Street.
Two-story 16-room frame apartments.
Owner—Mrs. Julia Bulcock, 1332 E. 19th St., Oakland.
Architect—None.
Contractor—Drew Caminetti, 1324 E. 18th St., Oakland.

To be done by Day's Work.

APARTMENTS Cost, \$20,000
SAN FRANCISCO, W. Divisadero 137 S O'Farrell Street.
Three-story and basement frame and stucco (16) apartments.
Owner—H. S. Meinberger, 653 15th Ave.
Architect—J. C. Hladik, Monadnock Building.

Contract Awarded.

APARTMENTS Cost, \$20,000
BERKELEY, Alameda Co., Cal. No. 3351 Grove St.
Three-story frame and stucco rustic (6) apartments.
Owner—Anna M. Ratlangi, 1245 McAllister St., San Francisco.
Architect—R. de Lappe, 1710 Franklin St., Oakland.
Contractor—C. Hamilton Elrod, 1710 Franklin St., Oakland.

Plans to be Prepared

APARTMENT BLDG. Cost, \$20,000
PITTSBURG, Contra Costa Co., Calif.
Two-story frame and stucco apartment building (6 4-rm. apts.)
Owner—Withheld.
Architect—E. P. Whitman, 192 Main St., Hayward.

Electric Contract Let

APARTMENTS Cost, \$520,000
SAN FRANCISCO, SW Pacific Ave & Laguna St.
Ten-story class A community apt. bse. with terra cotta exter. (20 9-room apts.)
Owner—Pacific Laguna Corp., E Tropp et al, 129 Sutter St.
Architect—Hyman & Appleton, 163 Post St.
Contractor—Cahill Bros., 55 New Montgomery St.
Electric Work—Crown Elec. Co., 153 Eddy St., S. F., at \$11,325.
As previously reported:
Plumbing & Mechanical Work—Rodoni Becker Co., 1230 Folsom St., at \$24,669 and \$15,352.

Plans Being Figured.

APARTMENTS Cost, \$35,000
SAN FRANCISCO, Seventh Avenue and Geary Street.
Three-story and basement frame and stucco apartment building, (18 3-room apts.)
Owner—Ashbury Methodist Episcopal Church.
Architect—Rollin S. Tuttle, 363 17th St., Oakland.

Contract Awarded

APTS. & STORES Cost, \$35,000
OAKLAND, SE 37th Ave & E 14th St.
Three-story 30-room brick and frame apartments and stores.
Owner—E. L. Brown, 3701 E. 14th St., Oakland.
Architect—None.
Contractor—C. G. Hildebrand, 1700 Fremont Way, Oakland.

Contracts Awarded

APARTMENTS Cost, \$100,000
SAN FRANCISCO, Sacramento St. near Brooklyn Alley.
Five-story reinforced concrete apartment house.
Owner—Chin Pack & Associates.
Architect—Wm. I. Garren, 1606 De Young Bldg., San Francisco.
Reinforcing Steel—Bald Falk & Co., 74 New Montgomery St., S. F.
Steel Casements—Detroit Steel Products, 251 Kearny St., S. F.
Structural Steel—Central Iron Works, 2050 Bryant St., S. F.
Grading & Concrete—E. W. Stone, 26 Eagle St., San Francisco.
Carpentry Work—H. A. Abrahams, 50 Silliman St., S. F.
Electrical Wiring—Pacific Elec. Const. Co., 1496 Mission St., S. F.
Plumbing—Harry Lee, 1607 Mission St., San Francisco.
Brick Work—Emil Hogberg, 150 Jessie St., San Francisco.

Sub-Contract Awarded

APARTMENTS Cost, \$80,000
SAN FRANCISCO, S Fulton St. E Franklin.
Four-story and basement reinforced concrete apt. house (28 2-room apts.)
Owner—E. V. Lacey, 180 Jessie St. & Hearst Bldg., S. F.
Architect—H. C. Hladik, Monadnock Bldg., S. F.
Concrete—L. Vannucci, 401 Church St., San Francisco.

Plans Complete.

APARTMENTS Cost, \$45,000
SAN FRANCISCO, NE Francisco and Franklin.
Three-story and basement frame (18) apartments.
Owner—Herman C. Hogrefe, 270 20th Ave., S. F.
Architect—Edward E. Young, 2002 California St., S. F.

Contracts Awarded

APT. BLDG. Cost, \$90,000
SAN FRANCISCO, S-S Fulton E of Franklin St.
Five-story reinforced concrete apartment building.
Owner—Mission Concrete Co., 125 Kissing St., S. F.
Architect—J. C. Hladik, Monadnock Bldg., S. F.
Concrete—L. Vannucci, 401 Church St., San Francisco.
Plumbing—E. V. Lacey, 180 Jessie Street.

Sub-Contracts Awarded

APT. BLDG. Cost, \$75,000
OAKLAND, 3459 Piedmont Ave.
Three-story frame and stucco apartment building (30 two- and three-room apartments).
Owner—A. Corum, 1636 Franklin St., Oakland.
Designer and Contractor—California Builders, Inc., 1636 Franklin St., Oakland.
Wiring—Spencer Electric Co., 320 12th St., Oakland.
Lumber—Kiernan-Hubbard Lumber Co., 340 29th Ave., Oakland.
Hardwood—Holt Hardwood Co., 11th Ave. & E. 12th, Oakland.
Concrete—Oakland Concrete & Terazzo Co., 2227 Market St., Oakland.
Roofing—Bardhose Roofing Co., Oakland.
Frame Windows—Murphy & Murphy, 7514 E 14th St., Oakland.
Plastering—Abonido Cardoni, 5244 Lawton Ave., Oakland.
Mill Work—Oakland Planing Mills, 2nd & Wash. St., Oakland.

LOS ANGELES, Cal.—Lee Callahar & Sons, 718 Edwards & Wilsey Bldg., have compl. wkg. plans and have cont. for 5-story and basement brick class C hotel, on Ebel St. bet. 6th St. and Wilshire Blvd. of C. Stein and J. Jacobowitz; 72-rms., with 100% baths, lobby and 1 store; 44x120 ft., mezzanine flr.; \$90,000.

Plans Being Figured

ALTERATION Cost, \$10,000
SAN FRANCISCO, Duboce Ave.
Alteration of flat building into apartments.
Owner—Mary A. Dempsey, 581 Duboce Ave., San Francisco.
Architect—Geo. H. Weimeyer, 57 Post St., San Francisco.

BONDS

SAN LEANDRO, Alameda Co., Cal.—Election will be called at once to vote bonds of \$200,000 to finance construction of additional classrooms to standing buildings and purchase of new school sites; \$150,000 will be required for 12 additional classrooms at the Washington school and 8 classrooms at the McKinley school; bet. \$30,000 and \$35,000 will be required for site purchases and \$15,000 for alterations to standing school buildings. Plans will be prepared by John J. Donovan, architect, Oakland.

MOUNTAIN VIEW, Santa Clara Co., Cal.—Citizens in mass meeting vote to call election to vote bonds of approximately \$200,000 to finance erection of \$150,000 grammar school and \$50,000 to provide additional classrooms and purchase of equipment for high school.

CHURCHES

TULARE, CALIFORNIA, November 26, 1925.

SANDY PRATT is here.

EATING FREE turkey.

WORTH 70 cents per pound.

PAID FOR by his relations.

AND SANDY speaks tomorrow.

BEFORE THE Rotary Club.

AND THE Tulare Rotarians.

ARE PROBABLY thankful.

THAT SANDY appears.

IN TULARE City.

ONLY ONCE a year.

AND SANDY Pratt, president.

OF THE Pratt Building Material Co.

AND PRODUCER.

OF CLEAN, sharp sand.

AND HARD, crushed rock.

WOULD LIKE to tell the world.

AS WELL as the Rotarians.

HOW THANKFUL Sandy is.

TO ALL his friends.

FOR ALL the sand.

AND ROCK business.

SANDY HAS enjoyed.

DURING 1925.

SANDY'S BUSINESS grows.

AND SANDY is thankful.

TO HIS friends and customers.

FOR THEIR wonderful help.

IT PAYS to have friends.

IT PAYS to give service.

IT PAYS to produce good sand.

AND GOOD rock.

AND SANDY says.

ON THANKSGIVING Day.

"I THANK you."

Bringing food to town near Tulare, birth place of Sandy Pratt, producer of clean sand, hard rock and washed gravel. Sandy is in Tulare for Thanksgiving.

RHODES-JAMIESON TO EXTEND PLANTS

Reflecting building activities in the East Bay district is the plans of the Rhodes-Jamieson & Company to enlarge its numerous plants and principally to complete the Elliot plant, a large gravel pit between Livermore and Pleasanton which will soon have a capacity of 1000 cubic yards per day. A bond issue has been floated this week by local bond houses to assist the company in carrying out extension plans.

The company started in 1904 as a co-partnership into which its two members, A. G. Rhodes and G. G. Jamieson, paid \$3000 each. In 1906 the capital and volume of business were both doubled and in 1908 expansion of holdings began with the purchase of a plant at the foot of Canal Street, Alameda, where rail and water facilities were available. In 1911 and 1912 the Oakland Sand and Gravel company and the Pacific Fuel company were added to the company.

Five years later all these properties were consolidated into one corporation by the formation of Rhodes-Jamieson & Company. Subsequently the Berkeley branch was established and the Kenas warehouse here together with a plant on the Alameda estuary and a small plant at 5340 Grove Street, Oakland, were merged.

Keeping pace with the growth of the East Bay district, the corporation's net sales show \$946,272.01 for the year ending April 30, 1920 and \$2,408,806.60 for the year ending last April. According to T. P. Jordan, sales manager for the Security Bond and Finance company, the present bond issue is a first mortgage deed of trust on all property now owned by the company and on all property hereafter acquired by the company in replacement of present holdings.

Lumber Trade Outlook Is Good

Despite the lateness of the season, 439 of the principal softwood mills shipped 5 per cent more than they cut during the week ended October 31, and new bookings amounted to 99 per cent of the cut. Continuance of demand, says the "American Lumberman," is due to building activity, the volume of which, from the national viewpoint, is likely to be well maintained throughout winter. Takings by Northwest States during fall have been below expectations, but the South is a heavy consumer, though the rains that have forced heavy curtailment of hardwood production have held back full development of rural consumption of softwoods.

The larger Southern pine mills during the week shipped 8.12 per cent more than they produced, and had orders for 12.15 per cent more, though their total shipments for the first forty-four weeks of the year have amounted to 99 per cent of their cut. Operations of many of the smaller pine mills has had to be discontinued owing to heavy rains.

West Coast mills during the week shipped 3 per cent more than they cut, but orders dropped to 16 per cent below output. During the first forty-four weeks of this year, however, these mills shipped 4 per cent more than they cut. Some buyers expect that increased production will bring a weaker market, but mill stocks are low and yards have so reduced holdings that they may be expected in the market earlier than after a year of normal buying.

There is a fair cargo movement to the Atlantic seaboard and to California, but the domestic is taking second place to the foreign cargo demand, both Japan and Australia being in the Coast market more heavily.

Persistent heavy rains make southern hardwood logging impossible and threaten further curtailment of hardwood manufacture. Flooring and trim makers are buying large quantities, furniture makers are taking increasing quantities, and even automobile factories show some tendency to buy for future needs. Brisk trade in northern hardwoods has given their prices a very firm tone.

Official Proposals

NOTICE TO CONTRACTORS

(Dredging—Mare Island)

Sealed Proposals, indorsed "Proposals for Dredging, Mare Island, Calif., Specification No. 5172," will be received at the Bureau of Yards and Docks, Navy Department, Washington, D. C., until 11 o'clock a. m. (date not given) 1925, and then and there publicly opened, for dredging at the Navy Yard (Submarine Repair Base), Mare Island, Calif., Specification No. 5172 and accompanying drawing may be obtained on application to the Bureau or to the Commandant, Navy Yard, Mare Island, Cal. Deposit of a check or postal money order for \$10 payable to the Chief of the Bureau of Yards and Docks is required as security for the safe return of the drawing and specification. L. E. Gregory, Chief of Bureau, November 11, 1925.

NOTICE TO CONTRACTORS

(Sewerage and Outfall Works—Watsonville)

Sealed proposals for constructing sewerage and outfall works for the City of Watsonville, California, indorsed "Proposals for Constructing Sewerage and Outfall Works, City of Watsonville, California, Contract No. 1," addressed to the City Clerk, will be received at the office of the City Clerk, City Hall, Watsonville, California, until 8:30 P. M., Pacific Standard Time, on the 22nd day of December, 1925, at which time they will be publicly opened and read. The sewerage and outfall work comprises:

- (1) about 14,350 feet of 6-in., 8-inch and 10-inch vitrified clay sewers with 39 manholes and other appurtenances, all within the city limits, to primarily serve certain newly annexed territory;
- (2) a screening-pumping plant with connections and appurtenances on the north bank of Pajaro River approximately 2.5 miles in air line distance from the City Hall and about 1550 feet southeast of the Beach Road, consisting of a reinforced concrete sub-structure and super-structure housing motor-driven centrifugal pumping and rotary screen equipment and appurtenances having a general capacity of about 6 million gallons a day;
- (3) a 21-inch and 20-inch outfall sewer line with appurtenances, about 14,750 feet long to the shore of Monterey Bay just north of the mouth of Pajaro river;
- (4) a 12-inch or 16-inch wrought iron pipe line 1500 feet long into Monterey Bay to a depth of about 19 feet at mean lower low water.

The above statement is presented merely for the purpose of giving a general impression of the nature and magnitude of the work to be done and is not to be considered as exact or complete.

Each proposal must be accompanied by a certified check made payable to the order of the City Treasurer, City of Watsonville, California, in the sum of ten (10%) per cent of the minimum aggregate of the proposal.

A faithful performance bond, amounting to fifty (50%) per cent of the contract price, and a material and labor bond in the same amount, will be required of the successful bidder, in accordance with the provisions of the City Charter and ordinances and of State Laws.

Prior to the acceptance of the completed work a defective workmanship bond amounting to five (5%) per cent of the amount of the contract must be furnished.

The complete contract documents may be examined at the offices of the City Clerk and the City Engineer and copies thereof, including blue prints of

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

the contracts drawings, will be furnished to intending bidders on request and upon the payment of a deposit of fifteen dollars (\$15.00). All such deposits will be refunded upon the return of the Contract Documents in good condition, or in case they are used in filing a proposal.

No informal or irregular proposals or propositions for doing the work will be considered by the City at this time. It is the desire and purpose of the Board of Aldermen to let the Contract for the work as a whole. The City reserves the right to reject any or all proposals and to increase or decrease within stated limits the amount of any class or portion of the work.

M. M. SWISHER,
City Clerk.

STATE OF CALIFORNIA

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock p. m. on December 21, 1925 at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway, as follows:

Imperial County, across the Sand Hills (VII-imp-27-B), about six (6.0) miles in length, to be graded and paved with Portland cement concrete or with asphalt concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Los Angeles, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate

the location, character and quantity of work to be done with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

LOUIS EVERDING,
N. T. EDWARDS,
California Highway Commission.
R. M. MORTON,
California Highway Engineer.

W. F. NIXON, Secretary.
Dated: November 23, 1925.

NOTICE TO CONTRACTORS

(West Side Irrigation District)

Sealed proposals addressed to the Board of Directors of the Banta-Carbena Irrigation District, Box "Z", Tracy, California and indorsed "Proposal for the Construction and Installation of Timber-Curt Crossings, West Contract No. 12", will be received by said Board at the district office, at Carbena, three miles South of Tracy, until 8 o'clock p. m. of the 10th day of December, 1925, at which time and place will be publicly opened and read.

All proposals must be made on blank forms to be obtained from the Secretary of the Board of Directors, Schlossman Box "Z", Tracy, or from the Chief Engineer, W. D. Harrington, Box 631, Tracy, California; must give the prices proposed, both in writing and in figures, and must be signed by the bidder with his address.

Each bid is to be presented under sealed cover and shall be accompanied by CASH OR CERTIFIED CHECK made payable to the President of the Board of Directors of the Banta-Carbena Irrigation District, HENRY T. OHM, for the amount of One Thousand (\$1000.00) Dollars, and no bid shall be considered unless such cash or certified check is enclosed therewith, and, also, no bid will be considered unless in conformity with the specifications. Should the successful bidder to whom the contract is awarded fail to execute the same, said cash or check shall be forfeited to and become the property of the district, all other cash and checks will be returned to the unsuccessful bidders, who submitted the same.

A Common-law bond will be required for the faithful performance of the contract, in a sum not less than FIFTY PER CENT (50%) of the estimated amount of the contract, and a further bond in the sum of FIFTY PER CENT (50%) of the estimated amount of the contract must be furnished with acceptable sureties, to secure payment of laborers and materialmen.

The contractor to whom the contract may be awarded, will be required to appear at the office of the district, with sureties offered by him and execute the contract, within ten (10) days (not including Sundays) from the date of the notification of award and the preparation and readiness for signature of the contract, and in case of failure or neglect so to do, he will be considered as having abandoned it, and said forfeited cash or certified check will operate.

All bids are to be compared on the basis of the Engineer's estimate of the

quantities of work to be done.

Item No. 1.—Furnishing of materials, construction and installation including all necessary excavation and backfill and approaches for 40 bridge culvert crossings.

The foregoing quantities are approximate only, being given as a basis for the comparison of bids and the Board of Directors of the Banta-Carbena Irrigation District, does not expressly or by implication reserve the actual amount of work will correspond therewith, but reserves the right to increase or decrease the amount of any class or portion of work as may be deemed necessary or expedient by the said Board of Directors.

The work to be done in accordance with the plans and specifications which may be seen at the office of the Secretary, at Carbena, or at the office of W. D. Harrington, Chief Engineer, Tracy, California, where copies may be obtained.

The right is reserved to accept the proposal of the lowest responsible bidder or to reject any or all bids.

By order of the Board of Directors of the Banta-Carbena Irrigation District, made this 4th day of November, 1925.

(SEAL) W. SCHLOSSMAN,
Secretary of the Board of Directors of the Banta-Carbena Irrigation District.

NOTICE TO CONTRACTORS

(Glenn County High School District)

NOTICE IS HEREBY GIVEN that sealed bids will be received and opened by the Board of Trustees of the Glenn County High School District, State of California, up to two o'clock P. M., Wednesday, December 2nd, 1925, in the present High School Building, for the installation and completion of certain plumbing work, carpenter work, electrical work and wiring, and plaster work, in the new gymnasium building being erected in the City of Willows, State of California, on the high school property, all in accordance with plans and specifications prepared for the same by W. H. Weeks, the authorized architect employed by the Board of Trustees. Plans and specifications may be seen at the office of the Architect, 369 Pine St., San Francisco, Calif., or at the office of the Clerk of the Board of Trustees at Willows.

Each bid must be accompanied by a certified check for five per cent of the amount bid, made payable to A. E. Pieper, Clerk of the Board of Trustees of the Glenn County High School District, and to be forfeited to the District if the contractor to whom is awarded the contract, fails within five days after award to enter into a signed contract and to furnish the required bonds. Bids to be enclosed in a sealed envelope addressed to A. E. Pieper, Clerk, Board of Trustees, Glenn County High School, Willows, California, and marked in the lower left hand corner of the envelope, "Bid for Plumbing, Carpenter, Electrical and Plaster Work in Gymnasium Building."

Bids must be in the hands of the Clerk of the Board prior to the hour of closing as above mentioned.

BOARD OF HIGH SCHOOL TRUSTEES,
GLENN COUNTY HIGH SCHOOL DISTRICT.

By A. E. PIEPER, Clerk.

NOTICE TO CONTRACTORS

West Side Union High School District

NOTICE IS HEREBY GIVEN that sealed bids will be received and opened by the Board of Trustees of the West Side Union High School District, Santa Clara County, State of California, in the present High School Building, near Sunnyvale, California, at 7:30 P. M., the 9th day of December, 1925, for the installation and completion of material and equipment noted below to be installed in the new High School Building being erected in the above-named School District, near Sunnyvale, California, according to plans and specifications prepared for the same by W. H. Weeks, Architect.

Separate bids will be received on the

following branches of the work:

Plumbing Closets,
Plastering,
Electric Light Fixtures,
Gas Plant,
Metal Lockers,
Stage Curtain and Equipment and Window Drapes.

Plans and specifications may be seen at the office of the architect, W. H. Weeks, 369 Pine St., San Francisco, or Ray Bldg., 1924 Broadway, Oakland, California, or at the office of the Clerk of the Board in Sunnyvale, California.

All bids should be presented on bid forms furnished by the Architect. Each bid must be accompanied by a certified check on some responsible California bank in a sum not less than Five Per Cent (5%) of the amount bid, made payable to President of the Board of Trustees of the West Side Union High School District for the purpose stated in specifications.

Each bid must be delivered in sealed envelope addressed to Clerk of the Board of Trustees, and endorsed: "Proposal For The New High School Building."

The Board reserves the right to reject any and all bids.
(Signed) LEO H. VISHOOT, Clerk,
West Side Union High School.

NOTICE TO BIDDERS

(City of Orland)

Pursuant to resolution of the Board of Directors of the Town of Orland directing this notice, said Board of Trustees hereby invites sealed proposals for bids for furnishing materials, delivered F. O. B. Orland, as follows:

260 ft. 4-inch Class "B" American cast iron pipe.
1 4-inch Crane valve with nut.
1 4-inch by 8-inch by 4-inch by 4-inch cross.
1 4-inch "T" for hydrant connection.
1 California hydrant.
1 4-inch leader plug.
280 ft. 8-inch vitrified sewer pipe.
1 1/2" 8-inch to 4-inch.
1 8-inch cover at end.
1 manhole, complete.

or for the furnishing, laying and installing of the above-named materials in the alley between Second and Third Streets, north of Shasta street, in the Town of Orland, the water pipe being laid to a depth of 2 feet and the sewer pipe to a depth of 38 inches.

All proposals or bids shall be laid with leaded joints, the 8-inch sewer pipe to be laid with cemented joints. Installation to be under the supervision of E. L. Wright.

Resolution No. 21, hereby made to Resolution No. 24, said Board of Trustees inviting proposals for furnishing of such materials or the furnishing and laying of such materials.

All proposals or bids shall be accompanied by a certified check payable to the Town of Orland for a sum not less than ten per cent of the aggregate of the proposal. Said sealed proposals or bids shall be delivered to the Clerk of the Board of Trustees on or before eight P. M. of the 7th day of December, 1925, said time being not less than ten days from the first publication of this notice. Bids will be opened at said day and hour and the Board hereby reserves the right to reject any or all bids made.

E. P. MAFES,
Clerk of the Board of Trustees of the Town of Orland.

NOTICE TO CONTRACTORS

(Soldiers' Home—Sawtelle, Calif.)

Sealed proposals will be received by the undersigned at the Pacific Branch, National Home for D. V. S., Soldiers' Home, Los Angeles County, California, until eight P. M., January 18, 1926, and then opened in the presence of the bidders in the Office of the Treasurer, Pacific Branch, N. H. D. V. S., for (a) Furnishing the labor and material for the complete construction (except mechanical equipment and elevators) of a hospital building at the Pacific Branch, N. H. D. V. S., at Sawtelle, California; (b) Furnishing the labor and material for the mechanical equipment (except

elevators) for the above described building; (c) Furnishing the labor and material for the elevators for the above described building; (d) Furnishing labor and materials for construction complete of the above described building. Drawings and specifications are on file and may be consulted by prospective bidders at the following places: Headquarters Office, National Home for D. V. S., Dayton, Ohio; Office of the Supervising Architect, Treasury Building, Washington, D. C.; Office of the Quartermaster, Pacific Branch National Home for D. V. S., Soldiers' Home, California; Minneapolis, Minn.; Exchange, 608 Second Avenue, South, Minneapolis, Minn.; Portland Chamber of Commerce, Portland, Oregon; Seattle Chamber of Commerce, Seattle, Washington; Chamber of Commerce and Commercial Club, Salt Lake City, Utah; San Francisco Chamber of Commerce, Merchants' Exchange Bldg., 465 California St., San Francisco, California; Financial Society, Denver, Colorado; Architects, 160 N. La Salle St., Chicago, Ill.; Chamber of Commerce, Los Angeles, California; Chamber of Commerce, San Diego, California, and Chamber of Commerce, Boulder, Colorado. Instructions to bidders and blank proposals can be had upon application to Colonel C. W. Wadsworth, General Treasurer, National Military Home, Dayton, Ohio; Supervising Architect, Treasury Department, Washington, D. C., and Governor, Pacific Branch, N. H. D. V. S., Soldiers' Home, California. (Signed) C. W. WADSWORTH, General Treasurer.

NOTICE TO CONTRACTORS

(Monterey School District)

NOTICE IS HEREBY GIVEN that the Board of Trustees of the Monterey School District of Monterey County, California, will receive bids for the erection and completion of a one-story, four-room reinforced concrete school Building located on property owned by said School District at the Oak Grove School site, southeast corner of First and Park Streets, Monterey, California. Bids are to be taken on the work as follows:

1. General Contract Work (including plumbing and heating).

Program Clock Work. Each bid is to be in accordance with plans and specifications prepared by Arthur W. Angel, Architect, now on file with A. G. Winston, 412-218 Main Street, Monterey, California.

Material men may see plans for the purpose of reference at the office of Paul V. Tuttle, 363 Seventeenth Street, Oakland, California.

Each contract will be required to deposit \$10 on plans taken which deposit will be refunded when plans are returned in good condition.

Each bid shall be made out on letterhead similar to a form enclosed in the specifications and must be accompanied by a certified or cashier's check or bidder's bond (issued by a surety company), accredited by said Board of Trustees for five per cent of the amount of the bid made payable to A. G. Winston, Clerk of said Board of Trustees, shall be sealed and filed with said Board on or before December 18th, 1925, at 7 o'clock P. M. and will be opened in public soon after that hour at the Monterey Grammar School, 642 Pacific St., Monterey, California.

The above-named check or bidder's bond shall be given as evidence that the bidder will enter into contract, if awarded the work, and will be declared forfeited if the successful bidder refuses to enter into contract after being requested so to do by the said Board of Trustees.

The successful bidder will be required to furnish bonds or a Surety Company satisfactory to the Board of Trustees covering an amount equal to 75 per cent of the contract price. Said bonds to be delivered within three days after having been awarded the work by the said Board of Trustees.

The Board reserves the right to reject any and all bids.

By order of the Board of Trustees of the Monterey School District, Monterey County, California.

A. G. WINSTON, Clerk.

Date Nov. 24, 1925.

Port. cem. conc. pavement; cem. curbs and walks; corr. metal and conc. culverts; conc. catchbasins; comb. conc. catchbasins and storm water manholes; vit. clay sewer pipes. Bids were: Thompson Bros., Fresno, \$22,905; Granite Const. Co., Watsonville, \$23,044. Jas. K. James, city eng.

California Palace of the Legion of Honor. Construction of reinforced concrete with Portland Cement Stucco. Gift of Mrs. A. B. Spreckels to the City of San Francisco. Architect, George A. Applegarth.

Beauty with Permanence

When architect and engineer unite in the use of concrete, as on the California Palace of the Legion of Honor, the result is *beauty with permanence*. Construction of this Memorial is reinforced concrete with Portland Cement Stucco. All ornaments, including column caps, bracket moulds, statuary and inserts, are of precast concrete. For illustrated literature regarding concrete's wide range of adaptability, with and without stucco, write the nearest office listed below. Ask for "Portland Cement Stucco Textures" and "A Manual of Concrete Masonry."

ADVERTISING FOR PROFESSIONAL ENGINEERING SERVICES

The Board of Direction of the American Society of Civil Engineers at its meeting held in Salt Lake City, July 6, 1925, adopted a resolution relating to the practice which is observed by some public authorities of asking engineers to submit in competition their terms for preparing plans for engineering projects. The resolution follows:

"WHEREAS, The Board of Direction of the American Society of Civil Engineers has had brought to its attention the fact that on occasions, Public Authorities ask Engineers through advertisements to submit in competition their terms for preparing plans for engineering projects, frequently requesting that such tenders be accompanied by an estimate of the cost of the proposed project, and

"WHEREAS, Such procedure is not in the public interest, it being contrary to recognized practice in engaging professional services, thereby asking of engineers a form of competition inconsistent with professional ethics, and consequently tending to eliminate the services of qualified engineers of high professional character, therefore be it

"RESOLVED, That the Board of Direction of the American Society of Civil Engineers emphatically records its disapproval of such procedure, and recommends that Public Authorities and others desiring to secure professional engineering services select an engineer, from those available, on the basis of his qualifications, experience and professional reputation for work of the size and character under consideration, determining by inquiry of recognized professional authority, the appropriate basis of compensation for such services."

Progress Reported On Proposed Uniform Building Code For Coast

A uniform building code for all Pacific Coast cities has been tentatively prepared and within a short time a final draft will be published, providing that the interested cities co-operate with the Pacific Coast Building Officials' Conference in supplying funds necessary for its publication, according to Building Inspector A. C. Horner, of Stockton, who is secretary of the Building officials' organization.

The building officials' association is a non-profit organization which, when formed a few years ago, undertook as its major function the eventual adoption of a uniform code. Until this time all costs of the work toward this code have been borne by the organization.

Copies of the tentative draft are now in the hands of the official members of the organization. These are being perused, criticisms noted and, about December 15, three district conferences will be held for the purpose of re-assembling the data. These conferences will likely be held in Berkeley, Portland and Los Angeles, according to Horner. Following the conferences, the three district chairmen will meet to make arrangements for publishing the final draft.

In the interim, the various cities interested are to be asked for donations toward the final draft of the code.

The code when finally adopted will be made available to all cities on the Pacific Coast and will, according to Horner, be a great advantage over the present system of many conflicting codes.

Contractors, architects and others interested in building construction will find the code an advantage, especially in cases where jobs in other

cities are being estimated, according to Horner.

Horner further points out that the uniform code will stabilize building materials in that the standards of materials will be the same in every city. Manufacturers will no longer be required to make various standards to conform with the many regulations now in effect in the different cities. It will act as a stabilizer from a banking standpoint, also, says Horner. Values of typical building will be more easily arrived at. Dozens of cities now having no building regulations will be afforded the opportunity of adopting the already prepared code when they have reached a size where adoption of a building code is necessary.

There are a number of cities with antiquated building codes at the present time, says Horner, that are awaiting the uniform code before making revisions. Among these cities are Sacramento, Stockton, Fresno, Long Beach, San Jose, Glendale, Richmond, Alhambra and Phoenix, Ariz.

The American Indemnity Company has filed suit in the district court of Washoe County, Nevada, for \$3974 against Harry F. Davis, D. E. Hill and M. R. Shick as directors of the Northern California Construction Company. The complaint sets forth that the defendant company contracted to build a highway in Tuolumne County, Cal., for \$129,250, but became involved in financial difficulties. The plaintiff acted as bondsmen for the defendants, and charges Davis and associates failed to comply with original terms of the agreement.

THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

KOEHRING DANDIE

Light Mixer

**Four-cylinder
Gasoline
Engine**

FAST! Fast! Fast! Here is a light mixer with a speedy charging skip, liberal drum dimensions and a high speed discharge that will break all your records of putting concrete where it pays you profits!

Just the balanced light weight to haul behind your truck on its rubber tired disc wheels and get from job to job in a big hurry.

Four cylinder, radiator cooled, gasoline engine. Transmission from engine to drum enclosed in oil bath! Double gear drum drive, chilled, beveled gears! Drum rollers fixed to shafts revolving in big bearings!

It's useless to try to give you the smallest idea of what this Dandie represents in superior speed and construction details—but it's *strong, rugged*—it will stand-up for all the punishment you can give it, and *work and work, and work!*

And you have a chance to buy at a price that gives you all the benefit of the economies the Koehring Company effect by big, standardized production! If you had half an idea of what this mixer means in the way of actual value, you would send back the coupon for full detail by next mail!

Koehring Dandie — 7 cu. ft. capacity mixed concrete. High speed charging skip, or low charging hopper with hinged steel framed platform which may be folded against mixer for hauling. Discharged from either side of mixer.

4 cylinder gas engine, radiator cooled, or optional two cylinder engine, hopper cooled. Drum drive transmission in oil bath. Maybe equipped with *automatic water measuring tank*, and *Light Duty Hoist*.

S. F. INTERESTS PURCHASE SUPERIOR CEMENT PLANT

Constituting one of the largest commercial transactions in the history of the State, purchase of the property of the Superior Portland Cement Company at a figure between five and six million dollars is reported as near completion.

Members of the investment firm of Bond & Goodwin & Tucker, Inc., with offices in San Francisco, Seattle and Los Angeles, made the announcement stating they were prospective purchasers.

For several weeks Nion R. Tucker of San Francisco, president of the firm, and Cary S. Hill, a member, have been in Seattle supervising the work of engineers and auditors brought from New York to make a physical examination of the Superior Portland Cement Company and to audit its financial affairs.

An option given the investment firm approximately a month ago is to be exercised, they said.

Properties of the cement company include a six-kiln plant near Concrete, Skagit county, Washington, to which lime rock from the company's deposits are delivered by an aerial tramway 6600 feet in length. The plant has a capacity of 5000 barrels per day and the company produces 56 per cent of the cement shipped in the State. In addition the company has its own hydro-electric plant to supply over 60 per cent of the power used at the plant.

The company is reported to do an annual business far in excess of \$3,000,000.

\$3,478,843 IS SAN FRANCISCO CONSTRUCTION TOTAL FOR NOVEMBER

Building operations undertaken in San Francisco during the month of November, 1925, represent an expenditure of \$3,478,843, according to figures compiled by Chief Inspector of Buildings John P. Horgan of the Department of Public Works. During the month 863 permits were issued.

The total of the past month shows a loss of \$2,879,886 as compared with those of November, 1924, and a loss of \$872,106 as compared with those of October, 1925. In November, 1924, the building bureau issued 797 permits for improvements representing an expenditure of \$6,358,729 and during October, 1925, a total of 1657 permits. Improvements undertaken during October totaled \$4,351,249.

Of the total expenditures during the past month, only \$10,683 is included for public improvements, the balance of the operations being for private construction.

The following is a complete and segregated report of the November activities, classified according to construction, as compiled by Chief Inspector Horgan:

Class	No. of Permits	Est. Cost
A	3	\$ 295,000
C	25	684,446
Frames	454	2,226,005
Alterations	379	258,709
Public Bldgs.	1	4,683
State Bldgs.	1	10,000
Total	863	\$3,478,843

WHY THERE ARE SO FEW LADY ENGINEERS

"Permission was granted a young woman, Helen Fursman, of Bromide, Okla., to enter the civil engineering department of the University of Texas this year. This is the first time in 29 years a woman has been accepted by the University in that department.

"There were two main reasons for this. First, the clothing worn by the young ladies, and, second, the bashfulness of the instructors. To explain in more detail: In 1905 two girls were enrolled in the department. They took a hiking trip with the instruments, but somehow the instruments would not work correctly when the girls were about. The instructor said he had often heard girls had magnetism, but he never knew they had enough to affect the compass needle. They claimed it was not them at all, but when they would withdraw far enough the instruments were again reliable.

"Further investigation caused the instructor, blushing, to inform the girls that their corset stays were causing the trouble.

"The girls of 1925 don't have any effect on a compass,"—St. Louis Post-Dispatch.

ELASTICITY OF LOS ANGELES BUILDING ORDINANCE

The Board of Building and Safety Commissioners of Los Angeles is granted power by the city charter to make slight modifications for individual cases in the provisions of the building ordinances, provided the board shall first find that a special individual reason makes the strict letter of the ordinance impractical, and that the modification is in conformity with the spirit and purposes of the ordinance involved.

This unusual practice to give administrative officials powers ordinarily confined to legislative bodies facilitates the work of the building department and saves delays where amendments to the ordinance otherwise would become necessary. The city charter also provides that by ordinance the powers granted to the Building and Safety Commission may be restricted or abolished. In the latter event the City Council would determine whether proposed departures from the letter of the building code justified enactment of amendatory ordinances.—The Inspector.

TO EXPEND \$3,000,000 ON TWO POWER PROJECTS

An expenditure of \$3,000,000 is proposed to develop two hydro-electric sites, according to applications filed with the state supervisor of hydraulics by R. E. Metcalf, Portland, for the Spirit Lake, Halway & Fowler company at Olympia. Permission is requested to divert 10,000 second feet on Hoffstadt creek and Green river, Cowlitz county, to a total of 34,600 horsepower for manufacturing and other purposes. The second application asks a permit to develop 15,000 horsepower on the Toutle river. Each of the two projects calls for an expenditure of \$1,500,000. The applications filed in connection with a reservoir application granted last July.

Proposed developments at Green river call for a dam 75 feet high, 140 feet long at the top and 80 feet at the bottom. Hoffstadt creek requires a dam 40 feet high, 110 feet long at top and 50 feet at the bottom, both streams are tributaries of the Toutle river. The Toutle river project calls for a dam eight feet high, 250 feet long at the top and 125 feet at the bottom. The Toutle river is a tributary of the Cowlitz river.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

ALONG THE LINE

The American institute of Architects, desiring to eradicate all possible differences now existing between architects, contractors, appraisal organizations, bonding companies and others on the question of determining the cubical contents of any structure, has appointed a committee of three to make a thorough analysis covering the situation and to prepare a report for presentation to the scientific research department of the Institute. The committee is composed of D. Knickerbocker Boyd, chairman, Dr. Warren F. Laird of Philadelphia, and Dalton J. Snyder of Detroit.

Des Moines lumbermen have completed the purchase of 27,000 acres of redwood forest in Mendocino county, Calif., and four steel freighters from the Shipping Board. The men, W. O. and E. C. Finkbine and W. E. Guild, have for some time held large yellow pine forests in Mississippi; the principal plants being at D. Lo and Wiggins, Miss. The California purchase, including the cost of the boats, is reported to have cost between five and ten million dollars. First financing of the project was through a \$2,250,000 issue of first mortgage serial gold bonds which were privately sold.

At a conference of building interests, technical representatives and manufacturers of glass sidewalk and roof lights, held under the auspices of the Division of Simplified Practice, Department of Commerce, action was taken to have six sizes, two shapes and five styles replace 80 styles, 120 sizes and 10 shapes previously made in this commodity. The action will become effective March 1, 1926, but in the meantime various makers of these commodities will put the program into effect as rapidly as possible.

Election will be held Jan. 26 in Placer Union High School District, Auburn, to vote bonds of \$250,000 to finance erection of new high school. Should the issue carry, plans for the proposed structure will be prepared by W. H. Weeks, San Francisco architect.

The Department of Commerce figures out that 666,557,000 ft. of Douglas fir was exported during the first nine months of 1925, which is less than for the same period of 1924, and better than 1923. Over half of this year's movement went to Japan.

The Western Pine Manufacturer's Assn. has been given a clean bill of health by Judge W. P. Booth in the Federal court at Minneapolis. The Association was charged with violation of the Sherman anti-trust law.

San Francisco Board of Supervisors has passed ordinance to print amending the building law in respect to the use of buildings erected for theatres and to alterations to be made in mill construction.

An ordinance read for passage in Ontario, California, provides that all buildings hereafter reared in the fire limits must have masonry walls and incombustible roofings.

Experimental planting and development of a nursery owned by the Long-Bell Lumber Company and situated near Ryderwood, seat of logging operations, 30 miles north of Longview, Wash., has been started and is the first step in the reforestation program which the company has outlined for the winter of 1925-26. California redwoods, white pine and Port Orford cedars will be experimented with and in addition the native fir, cedar and hemlock will be planted. The entire program contemplates reforestation at the same rate as logging, or between two and three thousand acres per year.

The Department of Commerce announces sales of fabricated structural steel for October as 88 per cent of capacity, based on total bookings of 21,486 tons reported by fabricators with a capacity of 24,915 tons per month, as against September bookings of 80 per cent of capacity. Shipments of fabricated structural steel in October represented 91 per cent of the capacity of firms reporting this item, as against 82 per cent in September and 76 per cent a year ago.

Building inspectors in Central California cities will hold a conference in Berkeley on December 15 to take up a uniform building code for the entire Pacific Coast. Similar conferences will be held in Portland and Los Angeles. A tentative draft of a universal building code has been prepared by the Pacific Coast Building Officials Conference, composed of chief building inspectors of the leading cities from British Columbia to San Diego.

So far as reports now available for this year indicate, it appears that the 1925 total world lumber trade will exceed that of 1924, which in turn much exceeded that of 1923, according to the lumber division of the department of commerce. Finland and Sweden report larger exports for the first nine months of 1925 and Russian and Central European exports are larger for the part of the year for which data have been issued.

In the process of tearing down the old Hotel Grosvenor at New York City, a ten-story building with brick bearing walls, 81x100 ft., in 17 working days, 4000 yd. of rubbish, brick and timber were taken out, or an average of 5 cu. yds. per man per day.

Chas. Lock, operating the Lock Planing Mill in Berkeley, is completing arrangements to form an orchestra comprising members of the Berkeley Builders' Exchange. Lock reports the strains of music will soon close all future meetings of the organization.

All brick made by prison labor at any plant in Ohio must be labelled "Prison Made," according to a decision rendered in Common Pleas Court, Columbus, by Judge Tarbell.

Architects Baumann & Jose have dissolved partnership. Mr. Baumann will continue to practice architecture at 251 Kearny street, San Francisco.

Shirley T. Corfield, for several years assistant division engineer for the State Highway Commission at Fresno, has resigned, effective Dec. 2, to accept a position with the contracting firm of H. H. Peterson in Ventura county, where the company has a 13-mile paving contract. William Wright, assistant engineer in the offices of the commission at Sacramento, will succeed Corfield at Fresno.

Returning from a New York conference with high officials of the Western Power Corporation and the North American Company, General Manager Emory Wishon of the San Joaquin Light & Power Corporation, announced the approval of a budget calling for an expenditure during 1926 of \$12,372,000.

H. H. Jones has been selected manager of the Western States Gas and Electric Company, succeeding Samuel Hahn, who was recently appointed vice-president of the Market Street Railway Company of San Francisco. Jones is also vice-president of the California-Oregon Power Company. He will maintain headquarters in Stockton.

W. M. Gardner has been named chairman of the Santa Cruz City planning Commission, Mrs. W. L. Moore, vice-president and Miss Lella Waterman, secretary. Other members of the commission are: C. E. Brenner, Mrs. Carrie Winnie, Mrs. Alice Dixon, Mrs. H. E. Piper, C. R. Look, Allan Rennie and T. W. Thomson.

Walter E. Church, 3008 Benvenue Avenue, Berkeley, has been granted a certificate to practice architecture in California. The certificate was granted at a meeting of the California State Board of Architecture, Northern District, on Nov. 24.

A San Francisco charter amendment, providing that employees on all building construction paid for with public funds of the city, must be "qualified voters," is being prepared for submission to San Francisco voters.

August Schoor, retired contractor of Redwood City, died at his home there, Nov. 20, following a lengthy illness. He was 74 years old and a native of Germany. A widow and three children survive.

By a vote of 321 to 318 the electors of Oregon City, Ore., voted to continue the commission-manager form of government instead of returning to the councilmanic forms.

Neal D. Barker, aged 60, retired architect, was killed in an automobile accident, six miles north of Bakersfield, Nov. 28.

ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

PROGRESS REPORTED ON REVISION OF S. F. BUILDING CODE

A committee composed of William Mooser, Albert Evers and John Reid, Jr., from the San Francisco Chapter of the American Institute of Architects; M. Couchot, Henry Dewell, J. B. Leonard, L. H. Nishkian and H. J. Brunner of the American Society of Civil Engineers; George Applegarth and Paul Ellet of the Industrial Association of San Francisco, and William H. George, E. T. Thurston and D. B. Farquharson representing the Builders' Exchange, are drafting a resolution for presentation to the Board of Supervisors recommending certain changes in the building code and more intensive inspection of buildings while in process of construction.

GRASSI COMPANY TO ENTERTAIN ARCHITECTURAL CLUB

Members of the San Francisco Architectural Club will be guests of P. Grassi & Company, 1945 San Bruno avenue, on Saturday afternoon, December 12, where an Italian dinner will be served following an inspection of the company's plant. Attendants at the plant will explain to the members the various processes of manufacturing and finishing Travertine marble and Travertine stone. The plant will be in full operation, giving the architects and draftsmen an opportunity to see the steps and processes necessary to carry out their designs in these materials.

SACRAMENTO BUILDING

New construction undertaken in Sacramento during the month of November totaled \$1,551,360, the largest permit covering the erection of a municipal auditorium at a cost of \$748,533. The past month's total establishes a new record and means that the yearly total will probably exceed \$11,000,000. The total valuation of building authorized this year to date amounts to \$10,421,682.20, as compared with \$7,214,407.83 authorized last year at this date.

SEEK MEMBERSHIP

The following applications have been received by the Builders' Institute of Sacramento with headquarters at 1505 J Street, that city: Industrial Construction Co. and W. L. Chatterton, general contractors; Western Building Materials Co., manufacturers and distributors of building materials; Alderson Sheet Metal Works, sheet metal; G. Pilliken, painting contractor; G. M. Christian, plastering contractor.

SACRAMENTO CONTRACTOR URGES OLD HOME REMODELING

Howard K. Johnson, president of the Builders' Institute of Sacramento, urges owners of old homes to remodel them wherever possible. At a moderate cost, Johnson says, old structures can be made new with slight rearrangements of interior and a stucco, shingle, brick or other finish on the exterior.

American Plan Is Favored By Newly Organized Berkeley Exchange

The Berkeley Builders' Exchange approved and endorsed the American plan of dealing with the labor situation at the regular weekly meeting of the Exchange at Pex Blue balcony.

C. H. Fox of Fox Brothers, building contractors, introduced the resolution which was seconded by Arthur Sayers, plastering contractor. The vote was unanimous.

A discussion of the plastering situation followed. Most of the members spoke in favor of having the City of Berkeley adopt a special ordinance similar to Oakland, licensing plasterers and requiring them to place with the city a \$250 bond to back up their workmanship. President E. A. Mitchell of the Exchange was instructed to name a committee to confer with City Attorney Earl J. Sinclair and Chief Building Inspector Stanley P. Koch, looking to the drafting of a plastering ordinance.

President John Driver of the Chamber of Commerce addressed the Exchange, congratulating the builders and other contractors in getting to-

gether. Driver became a bit reminiscent and told of Berkeley of 20 years ago, pointing out the great growth in building since then.

Hollis R. Thompson, manager of the new business bureau of the First National Bank, brought to the association the best wishes of success from local banking interests. He told of the close relationship of building contractors with the banks in the development of a community. "This is an age of co-operation," he said. "Our self-interest lies in the self-interest of the other fellow as his does in ours. I believe that an organization of contractors will raise business standards and carry a guarantee in the name of the Exchange which will cover all its membership."

During the special 11 o'clock lunch an enjoyable musical program was furnished under the direction of Arthur Sayers. It included songs by Glenn Gibbs with C. E. Kennedy at the piano; Paul L. Sampson, soloist, with Mrs. Darley Pollard at the piano, and Miss Cynthia Bennett in Spanish dances with Mrs. W. Cottle, pianist.

PLASTERERS' LICENSE FAVORED BY BERKELEY BUILDERS

The Berkeley Builders' Exchange voted unanimously in favor of licensing plasterers and having a rigid inspection of plastering. Plastering contractors themselves brought the matter up. The City Council will be asked to include in the revised building code a plastering ordinance which will call for a \$25 yearly license and make every plastering contractor post a bond of \$250 to back up his work. Rigid inspection under the direction of the city's building department will be urged.

TERM "ENGINEER" DEFINED

Many engineering societies are making efforts to establish the custom of using the term "engineer" only to designate the professional engineers, as the architects do to designate the registered architect.

In taking cognizance of these efforts, the Northwest branch of the Associated General Contractors, at a recent meeting, initiated the following action:

"That this association request its members to take steps in their business organization to establish the use of the terms 'engineman,' 'runner,' or 'operator' to designate the vocation of those who operate, maintain or repair stationary or moving engines, and limit use of the term 'engineer' to those engaged in professional engineering.

"That this branch suggest to the national officers of the Associated General Contractors of America that they recommend similar action for all other branches or chapters."

WOODEN FOUNDATIONS

The prosperity of California and other Pacific Coast states is founded, in large part, on their great timber industries. Our "success structure" here truly rests on a wooden foundation,—products of our magnificent forests. No substitute can fully take its place. Weaken the foundation, and the whole structure becomes insecure.

In a very real sense, too, the forests are an important part of the foundation of our national greatness. Our hitherto unlimited supplies of forest products have contributed largely to our wealth and civilization. Building, manufacturing, mining, transportation, shipping, and agriculture all must have a plentiful supply of wood. The wood chemical industries are of growing importance. Wood furnishes 90 per cent of our paper, the raw material of advertising, publishing, journalism; and so on down the list, indefinitely. We may be said to be still living in an Age of Wood.

In peace or in war America must have a continuous and plentiful supply of forest products.

"Forestry" is the scientific and business-like management of the forests so that they will produce a continuous yield of wood crops.

SEEK CITY MANAGER

A petition has been presented to the city trustees of Mt. Shasta, Siskiyou County, seeking the appointment of a city manager. The Lions Club backs the movement.

TRADE NOTES

Malott & Peterson, doing business in San Francisco for the past fifteen years, have just moved from their old location at 2412 Harrison St. to a new reinforced concrete building around the corner on Twentieth St. The new structure is three stories in height and adjoins their old building and yards in the rear. This arrangement gives them not only great additional warehouse space but enables them to use both the old and new storage rooms with trucking facilities on both street frontages. In the new building ample room is provided for carrying a large and complete stock of both Goodyear Rubber tile and all types of ceramic tile and fixtures. The entire top floor of the new building is devoted to offices and display room. All department offices are completely equipped with the most up-to-date systems of ventilation and lighting. The display room when completed will permit clients to visualize the various products, especially ceramic tiling, in complete installation, besides providing comfort and convenience in making their selections. Malott & Peterson handle all composition roofing work and repairs, all kinds of ceramic and faience tile work and Kompolith flooring, Linolith, mastic and hot Elasco mastic flooring.

The company is also direct factory distributors for Goodyear Rubber tiling, manufactured by the Goodyear Tire & Rubber Co., Akron, Ohio.

Sawmill of W. D. Thomas, Sacramento wholesale lumber dealer, at Spring Garden, Plumas county, was destroyed by fire of an unknown origin, Nov. 28. The plant had a capacity of 60,000 feet a day. No lumber was destroyed.

Colfax Metallic Paint Company of Colfax, Calif., have filed articles of incorporation with the Secretary of State. The company is capitalized at \$100,000 and will engage in mining and smelting ores in connection with the production of metallic paint.

J. O. Gaumer, 145 North Fifteenth St., San Jose, and T. C. Gaumer, 196 North Fifteenth street, San Jose, will operate from 644 Stockton Ave., San Jose, under the trade name of San Jose Sand & Gravel Company.

Mr. J. G. Elmer of San Francisco, for many years identified with the lumber commission business, has been appointed sales manager of the Struble Hardwood Company, Oakland.

Chas. O. Carlson will operate in the Santa Clara Valley district under the trade name of Palo Alto Plumbing company with shop and office at 318 High street, Palo Alto.

PUMP CONCERN TO DISSOLVE

Voluntary dissolution of the Sacramento Pump Manufacturing Company, of Sacramento, has been voted by stockholders of the corporation, it was disclosed when a petition for legal sanction was filed in superior court. The concern is the outgrowth of the Rogers and d'Artenay Manufacturing company, which was incorporated in 1908. Its directors are H. J. Humbert, R. McElwaine, J. Lindley, J. H. Peterson and Henry Heilbron.

Nation-Wide Study on Forest Taxation Started by Government

A nation-wide study of the forest tax problem in relation to reforestation is being launched by the Forest Service, United States Department of Agriculture which has just announced the appointment of Prof. Fred R. Fairchild of Yale University as director of the investigation.

A detailed study of forest tax problems will be made in principal forest regions of the United States to determine the effect of present tax laws on reforestation and timber holding, and the conditions that must be met in any effort to readjust present tax laws so as to be fair both to the land owner and the country.

Study Authorized by Congress

The study is the outgrowth of a country-wide investigation of reforestation conducted by a special committee of the United States Senate in 1923-24. This committee came to the conclusion that timber growing would be greatly stimulated by giving land owners security against unjust and burdensome taxation. Provision for the study is embodied in the Clarke-McNary Forestry Act, passed by the past Congress.

Prof. Fairchild, who will take active charge of the work about the middle of this month, is an authority on general tax problems, and on forest taxation in particular. He has written much on general taxation problems and has frequently acted in the capacity of consulting tax expert to municipalities and States.

Since 1904 he has been connected with the Department of Economics of Yale University, acting for the past six years as chairman of that department. In 1918 he served the military government of San Domingo, and in 1923 the Republic of Colombia, as tax expert, assisting these governments to plan national revenue systems. For several years he has served as a member of the advisory committee of the financial department of the Chamber of Commerce of the United States, and also of the National Commission on Federal and State Inheritance Taxation.

Timber Crops Very Important

Commenting on the appointment of Prof. Fairchild, Chief Forester William E. Greeley stressed the importance to the country of the proposed investigation.

"Timber growing as a private business is of the utmost importance to the welfare of this country," said Col. Greeley. "This activity will be hampered by the uncertainties of forest taxation, and it is necessary to devise systems of forest taxation that will not tax growing forests over and over again before they reach merchantable size."

"The tax investigation provisions of the Clarke-McNary law are aimed directly at getting the facts on which to base forest tax reform so that State tax legislation will encourage rather than hinder the cause of reforestation. As the result of this legislation it is expected that the Federal Government will be able to help the States in a national reform of forest taxation."

"I regard this tax study as one of the most important steps of recent years in forest conservation, and the Forest Service is fortunate in securing Prof. Fairchild to conduct the work."

Aim for Practical Results

The purpose of the section of the Clarke-McNary law providing for the

forest tax investigations is clearly interpreted by Secretary of Agriculture Jardine as aiming for practical results rather than merely theoretical study of the taxation of forest land. Prof. Fairchild's staff will study actual conditions both of present-day forest taxation and its effects, and the effects of proposed changes in the tax systems on State and county revenues.

The field of information which the Department of Agriculture wishes to cover in this investigation is extensive, ranging from the constitutional, legislative, and traditional basis for taxation in different States to the practical matters of levying assessments and collecting taxes. Intensive studies will be made in typical counties, of the character and age of timberlands and what taxes they have paid over a series of years, how these taxes compare with those paid on other kinds of property, and just how important forest lands are now and will be in future years in the general scheme of local revenue.

Forest Taxation Little Understood

The effect of the existing tax situation on timber growing and reforestation is little known at present, save in a few specified instances. The study will go into the land policy of timberland owners, the purchase and blocking up of forest land units, the relinquishment of forest land for delinquent taxes, the policy of owners with regard to maintaining continuous production of timber on their lands, and the efforts at reforestation on the part of owners of cut-over land.

A third group of facts, at present lacking, will tend to show how modified systems of taxation may be worked out, which would cause the minimum disturbance to local finances and at the same time bring relief to owners of growing timber from the danger of excessive taxation. It is probable that at the same time information will be collected regarding systems of forest taxation in foreign countries.

Will Concentrate Tax Study

The investigative work on forest taxes, as planned tentatively will be concentrated at first in a single State or region until methods of study are worked out, whereupon the study will probably be carried on simultaneously in three forest regions, such as the Northeast, the South, and the West.

The technical personnel that will assist Prof. Fairchild will consist of a carefully selected group of foresters and economists. This staff of experts will cooperate in every possible manner with local agencies, such as State tax commissioners, State forestry organizations, local county and township officials, and private interests, as well as with the several Federal bureaus interested.

It is expected that this exhaustive investigation will result in practical suggestions for State legislation that will take into consideration local financial needs and administrative limitations quite as concretely as the interests of forest land owners.

STOCKTON BUILDING

Stockton building permits for November registered \$163,347 as compared with \$233,325 for the month of October. November, 1924, activities totaled \$242,285.

GRADING RULES FOR VITRIFIED SANITARY WARE ARE NOW IN EFFECT

Important changes in the manufacture and grading rules of vitrified sanitary ware became effective on November 13 as the result of a Conference of manufacturers and distributors with government representatives at the Bureau of Standards. It is announced by the Bureau of Standards which has acted as a clearing house for the development of the program. The grading rules do away with Grades A and B, substituting the classifications of "regular selection" and "culls." They also provide for accurate definitions which will facilitate the grading, so that the quality can be determined readily.

The Conference brought together the representatives of 27 companies. The discussion of the grading rules brought to light a sentiment that any run of kiln which fell below "regular selection" should be sold as "off grade" or scrapped. It was pointed out that each piece of ware put through the kiln costs the same to manufacture; and that the proposal would prevent any unscrupulous distributors from selling Grade B as a Grade A, and leaving an impression in the mind of the purchaser that he was getting a Grade A at a low price. It was further indicated that the proposed classification would be the same as that followed in grading porcelain ware. The change was adopted by each individual present.

The Conference voted to recommend that the United States Government specifications for plumbing fixtures be held up pending the extension of the program and the following through of the regular procedure of the Division of Simplified Practice. This will not be done until the simplification committee of the industry has compiled results of a questionnaire which will deal with dimensional standards.

As a protection to the buyer, the meeting voted that each manufacturer will mark each crate in which "cull" ware is to be shipped with two splashes of red. This will be applied to the small end of such crates, so that they will be visible readily and will indicate to the distributor, or to the user the grade he is getting.

As a further step toward elimination of waste in this industry, steps were taken to survey the variety of items and the demand of each produced by each manufacturer. This will serve as the basis for possible eliminations of obsolete varieties or of those seldom in demand; and will pave the way for a more compact list which will meet all needs.

Because the change of grading rules will involve a complete change of labels by all manufacturers, a subcommittee of manufacturers was appointed comprising H. S. Maddock of Thomas Maddock's Sons Co., Trenton, N. J., George E. Hoffman, of the Trenton Pottery Co., and W. C. Chamberlain of the Standard Sanitary Manufacturing Co., of Pittsburgh, Pa.

The conferees took immediate steps to notify all distribution centers of the changes in grading, and in grading rules; and to cause the preparation of 100,000 copies of the new rules, which are to be put into the hands of the plumbing trade, architects, contractors and others who have an immediate and direct interest in the action taken.

Record Attendance At Annual Meet of Portland Cement Assn.

All records of attendance at Portland Cement Association meetings were broken by the attendance at the annual meeting held at the Drake Hotel, Chicago, November 16 to 18 inclusive. More than 365 individuals representing 75 companies registered.

As usual, the first day's sessions were given over to the preparation of reports of Standing Committees for presentation at the general business session on Wednesday.

Tuesday was devoted to sessions for discussion of technical problems and mill practice relative to the manufacturing of cement. The cement industry, as typified by the membership of the Portland Cement Association, has for a number of years been making notable records in the way of accident prevention. In June of this year, practically all of the member plants conducted a "No Accident" campaign, with the result that 72 of the 125 plants which entered the contest went through the month without a single time-lost accident. Certificates of merit were awarded to the plants having a clear record.

The regular business session and election of officers was held Wednesday, November 18. The following officers were re-elected: President, Blaine S. Smith, General Sales Manager, Universal Portland Cement Co.; First Vice President, Lowell R. Burch, Vice President, Atlas Portland Cement Co.; Second Vice President, C. A. Irvin, Vice President, Alpha Portland Cement Co.; Treasurer, John W. Boardman, Vice President, Huron and Wyandotte Portland Cement Companies.

In addition, the following were elected to the Board of Directors: John Treanor, H. Struckmann, L. C. Morton, H. F. Jennings, Charles Bootcher and William S. Speed.

In addressing the membership at the business session, President Smith called attention to the favorable outlook for the construction industry and presented a brief summary of construction in 1925.

Mr. Smith said: "Many cities have lagged behind in necessary facilities for sewage disposal, water filtration plants and other municipal and civic improvements having important connection with community health and welfare.

"With the financial recovery of the farmer an established fact, with general business conditions good, and with the need for municipal improvements and industrial enlargements, 1926 presents a favorable outlook for the construction industry.

"Awards for the first ten months of this year for concrete pavements are greater than for any twelve months on record. The equivalent of 5752 miles of 18-foot road were completed and placed under traffic from January 1 to October 31, 1925.

"Only three years ago the Lincoln Highway Association completed a strip of pavement 40 feet wide near

Dyer, Ind., which was heralded as the 'Ideal Section.' Many said that a 40-foot width of concrete would never be needed on our highways. Yet there will be completed this year a highway from Detroit to Pontiac, Mich., which, for its sixteen miles, has a total concrete paved width of 88 feet consisting of two separate lanes each 44 feet wide, one for northbound and one for southbound traffic. Again, Wayne County (Detroit), Mich., has established as its fixed policy an ultimate minimum width of 40 feet of concrete on its entire 440-mile system of County roads.

"The need for more roads and wider roads is indicated by the fact that over 17,000,000 of the 19,500,000 cars in the world are in the United States. Estimating 1925 U. S. production of new vehicles at 3,800,000, the space needed merely to store these cars would require 4318 miles of 18-foot road. To keep them moving requires much more, so that the 5752 miles of concrete roads built in 1925 are not nearly sufficient to accommodate the growing motor traffic.

"In the cement industry, the year has been marked as one of ample supply of cement.

"Although shipments for 1925 will doubtless exceed those of last year, stocks have consistently been higher than in 1924. The explanation lies in the large increase in cement manufacturing capacity made during recent years, which have brought productive capacity up to an estimated total of more than 185,000,000 barrels a year, or some 25 per cent in excess of the largest year's demand."

At the conclusion of the business session about 250 of those in attendance took busses from the Drake to the site of the Association's new building, Grand Avenue and Dearborn Sts., to participate in the cornerstone laying ceremony.

The principal address was by Robert W. Lesley, of Philadelphia. Mr. Lesley was one of the organizers of the Portland Cement Association, and its first President. He is now an honorary member of the Association.

Other addresses were made by Blaine S. Smith, President of the Association, and E. F. Afflick, President, Universal Portland Cement Co., and Chairman of the Association's Building Committee.

A banquet winding up the three-days' sessions was held at the Drake Wednesday evening. One of the speakers was United States Senator Arthur Capper, nationally known also as a publisher of many farm papers and the Topeka Capital. Senator Capper spoke on "The Farmer's Yesterday and Tomorrow."

Another speaker was John J. Earley, well known architectural sculptor of Washington, D. C. Mr. Earley's talk was on "The Concrete of the Artist and of the Architect."

NEW BOOKLET

The Low Cost of Dignity And Beauty is the title of a booklet just published by the Plate Glass Manufacturers of America, showing by means of photographs and text the added architectural distinction achieved by the use of plate glass in the glazing of residences

and the comparative cost of glazing with plate and ordinary window glass. An added feature of interest to all architects and builders is a glossary of terms used in specifications for plate glass. Copies may be obtained from the executive offices of the Plate Glass Manufacturers of America, First National Bank Bldg., Pittsburgh, Pa.

Plastering contractors in Los Angeles are discussing the advisability of proposing an ordinance to regulate plaster work.

Lumber and Better Building

An Address by Dudley F. Holtzman, Construction Engineer, National Lumber Mfrs. Ass'n., Before The American Construction Council, Chicago, Nov. 18, 1925

Poor construction is a national economic loss. No group suffers more from its effects than the material producers; and of these, the lumber industry has probably suffered most. It is the penalty we pay for lumber's popularity. Wood has been familiarly used from the beginning for shelters, tools, utensils, and arms. The most unskilled feel familiar with its proper use in building. Its correct utilization simply is taken for granted by everyone. As a consequence, lumber is frequently and flagrantly misused. Poor construction results. The lumber industry, therefore, naturally stands wholeheartedly committed to foster, and aid in the development of, a better understanding of the proper utilization of lumber in building construction.

As evidence of its interest in better building the industry, of its own accord and with the co-operation of all interests, has succeeded during the past four years in developing a set of national standards for every form of softwood lumber. American Lumber Standards in themselves are a most potent influence for better building. More than any single instrument ever placed in the hands of the lumber using public do they make possible a more intelligent, a more logical and, therefore, a more nearly perfect utilization of lumber in building construction. Copies of these standards (which should be in the hands of all persons associated with building) may be procured by addressing the Central Committee on Lumber Standards at Washington.

The dwellings of any people are the surest indication of their strength. Our highest civic ideals spring from sources which have their origin in happy, thriving communities. And, since the enlightened community offers the best field for the merchandizing of lumber, the interest of the lumber industry in improving small house architecture in America might result from no motive other than the seeking for commercial gain. The motive, however, lies deeper than this.

It is a common sight in industrial sections of our cities to see unsightly rows of houses of the type that are built by the mile and sold by the foot. They are identical in design, plan and setting. If careful attention had been given to the fundamental principles of good planning and designing these same dwellings could have been built with far more pleasing results and at no greater expense. Those who build attractively and economically, but also small houses become responsible not only for creating the desire to build for preserving the ideals which lead people to build beautiful homes with loving hearts and eager hands.

Good Planning, Good Designing.

Good planning and good designing are so closely dependent upon good construction that it is impossible to use lumber economically without calling attention to certain principles of architectural design. To justify investment in small houses, good architecture should never be separated from good construction. Either without the other means dollar waste and the sacrifice of personal comfort and convenience.

The small house is typically American. Thousands are being built every year, many of them on the supposition that the art of small house architecture is independent of its materials. A campaign for better planning and designing of small houses would be a distinct step forward in community development.

Small houses often become old fashioned long before they wear out, a result usually of poor, illogical design. Good planning and designing survive changing customs and from generation to generation produce the homes that never go out of style. There is no surer way to spread an appreciation of good planning and designing than by practicing it. Good planning is most essential in the small house because strict economy in plan and material is necessary to bring the small house within the financial reach of the prospective owner.

Proper Appreciation of Architecture

The lumber industry feels that an appreciation of good architecture in small house buildings is necessary for the development of congenial American community life. It has come to be recognized that a community has a right to require that no building be erected that is unsafe or dangerous to health. But there is not the same concern that no building be erected that mars the surrounding landscape. In a very real sense every house is an integral part of community life even though the law is not invoked to compel all builders to follow sound architectural practices.

Community spirit manifesting itself in the desire for home ownership has been more effective than any law could be in bringing about a demand for good architecture. We have come to know that the highest levels of our community life today are the sound guarantee against the erection of unsightly dwellings.

The characteristics of good architecture are simplicity, straight forwardness, and truth. Fashions and fads are avoided. Good architecture is preeminently practical. In small houses the practical can be accomplished at small cost. The most humble dwelling may have all the elements that make a perfect architectural unit.

Consideration must be given to a study of the most suitable style of house for the location considering the requirements of the family, the climatic conditions, the availability and suitability of building materials, the comparative costs in terms of service, and the limits of the purse.

Good Architecture Is Common Sense

Unessentials and wasteful features wherever used produce complicated construction, inappropriate use of materials, and dollar waste.

Good architecture for small houses is largely common sense so applied as to make the difference between a house which is a mere shelter from the elements, and a home which is beautiful, comfortable, and durable.

Many of the new houses shown in current architectural magazines are almost exact replicas of the buildings of two hundred years ago. The designers of the old colonial buildings

invariably followed the dictates of good design and common sense.

The natural conditions of the lot must be taken into consideration before determining the plan and style of the house. Grade, permanent trees, exposure to the sun and wind, street frontage, and the type of homes in the neighborhood are important factors. The house plan should be adapted to the size and shape of the lot. Broad lots should have a type of plan in which the broad side of the house faces the street. When shallow lots force the placing of the house near the street, the use of hedges, gateways, and enclosed porches will partially offset this disadvantage.

The elevation should be studied with the plan in order to produce a good design. For appearance, as well as for good drainage, the ground should slope away from a building in order that the building may not seem to be standing in a hollow.

A good plan must grow from the foundation up. Each part of the building must have its function, and each subdivision of the plan must be studied with respect to the other parts. But plan should govern the details of design.

Unsymmetrical Tendency

With the exception of the Colonial type, small houses usually assume an unsymmetrical form. The units of all forms are the square or the rectangle.

Geometry plays an important part in the planning of small houses. The various geometrical units usually are arranged around a center line or axis or around a number of such lines or axes, and the dominant unit ordinarily is placed first. Other units are added to it in pleasing and interesting combination.

The outstanding characteristic of the modern plan is compactness—elimination of useless rooms. Rooms are fewer in number than formerly and the rooms most frequently used are larger. The "back parlor," the small den, the sewing room, and intricate hallways are not included in a well-planned small house of today.

There is not much danger in small house design that the exterior of the house will fail to indicate the nature of the structure. Nevertheless, truthfulness in design cannot be emphasized too strongly. In order to have a good design grown logically out of a sound plan, it is necessary to consider the various characteristics of the materials used.

Pretentiousness is out of place in small house design. Features which are solely ornamental are unsuitable whenever the requirements are strictly utilitarian. To avoid extravagance, therefore, every effort should be made to strengthen the principle of small house design. This principle is simplicity.

Design Worth Money

The builder of a small house should know that it is the permanence of the architectural design which in the end will determine whether he can resell to advantage if he must. Buyers are satisfied with paint and repairs if the design is attractive, but the ugly house

of impractical design is a drug on the market, no matter what its construction.

The architectural profession, through the American Institute of Architects, recognizing the need for better small house architecture, has established The Architects' Small House Service Bureau of the United States, Inc., with National Headquarters at Minneapolis, Minnesota, and with Regional Bureaus located in Denver, Milwaukee, New York, Portland, Indianapolis, and Pittsburgh. For the first time there is a national professional source from which the small home builder may obtain accurate working drawings, specifications, and material schedules for well-designed houses at low cost. Lumber associations and many individual lumber firms are offering plan service of a type that ought to be used by prospective home builders. The local retail lumber dealer, if he is an up-to-date merchant with plan services such as are readily available at small expense, will be able to serve the interests of the prospective builder to the best advantage, and save money for the buyer while he is doing it. If he does not himself give plan service he will know of reliable associations representative of a high standard of building practice within the lumber industry from which such service is readily available to his office.

Home Owner's Institute

The Home Owner's Service Institute of New York City is doing a splendid service. With the co-operation of the producers of materials and the National Association of Real Estate Boards, this organization is building demonstration model homes at centers of population in the various geographical divisions of the United States. I understand that the plans for next year contemplate the erection of six demonstration model homes in each of the geographical divisions of the country each month. These homes are to be opened simultaneously and each model house will be one in a group of ten houses. That is, in the course of the year, through the efforts of this organization 360 or more model houses will be built. The advertising and educational publicity that is being planned in connection with this campaign should have a wholesome influence upon the consciousness of the building public of America. It should contribute toward a better popular understanding and appreciation of good architecture and good building, and tend to promote a better utilization of building material.

Better building is an economic asset. It is indeed an encouraging omen to have the American Construction Council lend its support to this national need. There never was a time when it was so necessary as now for leaders in the construction industry to visualize correctly the future of building in America. For upon "Better Building" depends the continued future prosperity of the building industries. A quaint old proverb says "one cannot have an omelet without breaking eggs." No one ever did anything of great value to others without cost, and without sacrifice no permanent good thing has ever been attained. The sacrifice of time and energy which the members of this industry are so unselfishly devoting to the cause of better building deserves to be repaid by a universal appreciation by the people of America of the high ideals and the constructive purposes of those who are associated in the activities of the American Construction Council.

No Change Due in Building Labor Costs—Bankers Declare

Little hope of any immediate substantial lowering of general labor costs in the building industry is found in statistics made public by the building research bureau of G. L. Miller & Co., national known investment banking house specializing in building construction.

Figures compiled by the research bureau from official reports of the average paid-up membership in the seventeen building trade unions in the United States showed that they now have a membership of more than 864,000. This represents a gain in the last two years of approximately 44,617 new members, an increase of 5 per cent over their former membership.

"This membership gain," said the research bureau's report, "has placed labor in a more favorable position than ever before to oppose any attempt to deflate seriously the improved standards of living it has recently achieved."

"Although the unions only actually control between 38 and 40 per cent of the 2,250,000 wage earners in the construction industry, the wages and working conditions attained by the organized crafts are generally accepted as the basis of compensation for all building workers."

Predict No Oversupply

"Another important factor in the wage situation is that there is no perceptible indication that the building labor supply will greatly exceed the demand. The apprenticeship system has failed to perform its function and native American workers have not been attracted to the industry in large numbers. Limitation of immigration, first by the war and later by legislation, together with strict laws against contract labor, and the condition of employment in some European countries, have also greatly reduced the supply of skilled and unskilled labor recruited from abroad, especially from northwestern Europe. Therefore, the probability is that under normal building conditions there will be a utilization of the available force practically to capacity for some time."

Unprecedented Activity

Unprecedented building activity of the last two years, the acceptance of apprentices and the normal organization efforts of the various unions, was credited by the research bureau with being largely responsible for the increased union membership. If the unions continue their present rate of growth it is expected that they will report the largest membership in history in 1926, even exceeding the record-breaking enrollment of 869,000 in 1921.

Labor officials said that the increased membership gave assurance that the supply of union labor was being sustained and would be ample to meet the requirements of the industry. They asserted that any large slackening in building activity at this time might result in a surplus of both skilled and unskilled craftsmen.

Building interests, on the other hand, declared that unless the training of apprentices was speeded up and the immigration laws modified, there was a possibility of some future shortage of both skilled and unskilled mechanics. They pointed out that the 2 per cent immigration law had reduced by more than half the number of workers avail-

able from Europe. There have also been numerous departures of unskilled labor during the year. Canada and Mexico are now looked to as the chief sources of the common labor supply.

Trades Well Organized

Using as a basis of comparison figures compiled from reports of the United States census for 1920, statistics were cited by the research bureau showing that the union organization of the skilled trades was the most highly developed and that approximately 50 per cent of all the skilled workers in the industry were unionized. The Plasterers' union was shown to be the strongest organized craft, having a membership equal to 70 per cent of all the workers engaged in that trade. Other well organized crafts were the bricklayers, electricians, carpenters, structural iron workers and painters. Common labor has a very small union representation, less than 10 per cent of the 623,293 workers in the industry being organized.

The Bricklayers' union reported a membership of only 70,000 to the American Federation of Labor, but it claims a membership of approximately 120,000 journeymen and apprentices. If the latter figure is accepted, the bricklayers would be the strongest organized craft, being about 85 per cent unionized.

Labor officials explained that the figures did not include members involved in strikes, lockouts or those unemployed during the year. Therefore, the memberships of several unions, including the bricklayers and the carpenters, were probably considerably larger than reported.

FRAME BUILDINGS HAVE FEWER FIRES

In 45 cities of the United States having population in excess of 20,000, some 75 per cent of the buildings are of frame construction, yet there were fewer fires last year in such structures than in those of the other types, according to Robert Beck, president of the Longacre Engineering & Construction Co., New York, which has just completed a country-wide survey of existing conditions.

Commenting upon the report, Mr. Beck says: "Washington, Boston, Fall River, Oklahoma City, Berkeley (California), Topeka, Wilkes-Barre, Salt Lake City and Milwaukee are among the cities surveyed, where there were 851,984 frame buildings out of a total of 1,128,002 of all kinds."

"It was found that although this large number, comprising 75 per cent of the aggregate, were structures of frame construction, only 1.4 per cent did fires occur, whereas in 6.1 per cent of the buildings of brick, cement and other less combustible materials blazes originated and caused varying damage. Of the combined structures, 2.6 per cent were visited by fire."

OAKLAND BUILDING

A. S. Holmes, city building inspector of Oakland, reports the issuance of 1016 permits during the month of November for improvements aggregating an expenditure of \$2,371,056. For new construction 856 permits were issued, the improvements costing \$2,168,601 and 160 permits for alterations and repairs valued at \$102,455.

APARTMENTS

To Be Done By Day's Work
APARTMENTS Cost, \$15,000
ALAMEDA, Alameda Co., Cal. No. 600
 Central Ave.
 Three-story frame and stucco apartment building.
 Owner—R. C. Strehlow, 711 Taylor St., Alameda.
 Architect—Willis C. Lowe, 354 Hobart St., Oakland.

Plans To Be Called In A Week.
APARTMENTS Cost, \$15,900
SAN FRANCISCO, 48th Ave. near Irving.
 Two-story and basement frame and stucco apartment 4 apts. (2nd floor to be occupied as residence by owner).
 Owner—A. Steele.
 Architect—Walter Falch, Hearst Bldg., San Francisco.

Plans Being Figured.
APTS., STORE Cost, \$16,000
SAN FRANCISCO, 15th St. near Guerrero.
 Two-story frame and stucco apartment and store bldg. 2 4-room and 2 2-room apts., 2 stores.
 Owner—A. Schenwald, San Francisco.
 Architect—Walter Falch, Hearst Bldg., San Francisco.

Contract Awarded.
STORES, APTS. Cost, \$25,500
OAKLAND, Alameda Co., Cal. SE
 Vernon St. and Bay Place.
 Two-story 16-room frame and stucco apartments.
 Owner—H. Brobst, 1636 Franklin St., Oakland.
 Designer and contractor—California Builders, Inc., 1636 Franklin St., Oakland.

Plans To Be Prepared.
APARTMENTS Cost, \$75,000
SAN FRANCISCO, E. S. Leavenworth & Ellis.
 Six-story and basement reinforced concrete apartment house 12 3-room apartments.
 Owner—E. V. Lacey, Hearst Bldg., S. F.
 Architect—J. C. Hladik, Monadnock Bldg., S. F.

To Be Done By Day's Work
APARTMENTS Cost, \$12,000
BERKELEY, 2526 Le Conte Ave.
 Two-story frame and stucco (6) apartments.
 Owner—Gray & Roberts, 2535 Telegraph Ave., Berkeley.
 Architect—A. W. Swanson, 2535 Franklin Ave., Berkeley.

To Be Done By Day's Work.
APARTMENTS Cost, \$25,000
OAKLAND, Alameda Co., Cal. N 8th
 St. 50 W. Castro St.
 Two-story concrete and tile apartment house.
 Owner—Marshall & Burks, 1725 Webster St., Oakland.

November 30, 1925

Contract Awarded
APARTMENTS Cost, \$17,500
BERKELEY, 1615 Oxford St.
 Two-story frame (8) apartments.
 Owner—H. Gede, Jr., 624 Arlington Ave., Berkeley.

To Be Done By Day's Work.
APARTMENTS Cost, \$14,000
OAKLAND, Alameda Co., Cal. S 40th
 St. 100 W. Webster St.
 Two-story frame and stucco, 16 rooms apartments.
 Owner and Contractor—Fred J. Westlund, 354 Hobart St., Oakland.
 Architect—None.

Steel Contract Awarded
APARTMENTS Cost, \$45,000
SAN FRANCISCO, NW Jackson and Trenton Sts.
 Four-story steel frame apartments (18 apts.).
 Owner—Zellerbach-Levison Co., 1540 California St., San Francisco.
 Architect—M. G. Bugbee, 619 Washington St., San Francisco.
 Contractor—Theo. S. Hoin, 1802 Cabrillo St., San Francisco.
Structural Steel—Central Iron Works, 2050 Bryant St., San Francisco.

To Be Done By Day's Work.
APARTMENTS Cost, \$22,600
SAN FRANCISCO, SW Cor. Bay and Octavia Sts.
 Three-story and basement frame (12) apartments.
 Owner—Stock, Maas & Sauer, 251 Kearny St., S. F.
 Architect—H. C. Laumann, 251 Kearny St., S. F.

LOS ANGELES, Cal.—Samuel F. Bard & Co., Chamber of Commerce Bldg., have contract and are taking sub-bids for 4-story and basement Class C apartments at the southwest corner of 7th St. and Gramercy Pl. for Albert J. Eyraud; plans by L. A. Smith, Film Exchange Bldg., Vermont Ave. and Washington St.; 50 single apartments and 21 bachelor apartments, large dance hall; brick walls, plaster exterior, structural steel, tile and composition roof, tile baths and showers, tiled drainboards, gum and pine trim; tile and marble work, radio connections, electric refrigerating system; \$245,000.

BONDS

SAN BRUNO, San Mateo Co., Cal.—Bonds of \$42,000 voted to finance additions to North Brae school and construction of first unit of new Edgemount school in Huntington Park.

ATBURN, Placer Co., Cal.—Election date will be set shortly to vote bonds of \$250,000 to finance erection of group of fireproof high school buildings.

SAN ANDREAS, Calaveras Co., Cal.—January 4 is date set in San Andreas Union High School District to vote bonds of \$125,000 to finance erection of union high school.

NEAR HAWTHORNE, Los Angeles Co., Cal.—Wiseburn School District will hold bond election on Dec. 18, at which time it is proposed to vote \$50,000 with which to complete school building now under construction and to provide funds for additional school facilities. Violet Z. King, Rte. 1, Box 659, Inglewood, is one of the trustees.

ROBLA, Sacramento Co., Cal.—Election will be called shortly to vote bonds to finance erection of community auditorium.

YUBA CITY, Sutter Co., Cal.—Until Dec. 8, bids will be received by county supervisors for purchase of \$1500 bond issue of Wilson School District; proceeds to finance erection of 1-classroom addition to present school.

CHURCHES

LOS ANGELES, Cal.—Roman Catholic Bishop of Monterey and Fresno has purchased a four-acre tract on Wilshire Blvd. west of Rimpau Blvd. for the Cathedral of St. Vibiana. It is presumed that the site will be used for erection of a large cathedral which has been contemplated for some years.

FACTORIES & WAREHOUSES

Steel Blds Being Taken.
WAREHOUSE Cost, \$15,000
SAN FRANCISCO, W Indiana 72 S 20th St.
 One-story steel warehouse bldg.
 Owner—A. M. Castle & Co., 1045 17th Street.
 Designer and contractor—H. P. Hoyt, 45 2nd St., S. F.

Steel Bldg. Wanted.
PACKING PLANT Cost, \$1,000,000
ISLAND OF MAUI, Hawaii.
 One and two-story steel, corrugated iron and concrete packing plant bldgs.
 Owner—California Packing Corp., 101 California St.
 Architect—Philip L. Eush, 101 California St., S. F.

Contract Awarded.
WAREHOUSE Cost, \$11,000
SAN LEANDRO, Park and Parrott Sts.
 One-story warehouse building.
 Owner—Carl Hyrup.
 Architect—E. J. Whitman, 192 Main Street, San Francisco.
 Contractor—Geo. Peterson, San Leandro, Calif.

Considerable sheet metal and galvanized iron will be used. Building will have metal frame, rolling tractor doors and concrete foundation.

Contract Awarded.
CONCRETE WAREHOUSE Cost \$14,000
SAN JOSE, Santa Clara Co., Cal. Orchard St.
 One-story reinforced concrete warehouse.
 Owner—John P. Dorrance.
 Architect—Wolfe & Higgins, Auzeais Bldg., San Jose.
 Contractor—Richard Sherman, San Jose, Calif.

HAYWARD, Alameda Co., Cal.—Co-Operative Creamery Co. plans to erect \$20,000 creamery plant on site yet to be purchased. Andy Mortensen is manager of the company.

Sub-Contracts Awarded.
WAREHOUSE Cost, \$40,850
SAN FRANCISCO, SW First and Tehama Streets.
 Three-story and basement steel frame and brick warehouse.
 Owner—Bothin Real Estate Co., 604 Mission St., San Francisco.
 Architect—Lionel Pries, 57 Post St., San Francisco.
 Contractor—Mattock & Feasey, 210 Clara St., San Francisco.
Steel to Judson Mfg. Co., 604 Mission St., San Francisco.
Grading—E. Rosenberg, 58 Merlin St., San Francisco.
Brick Work—W. A. Rainey & Son, 323 Clementina St., San Francisco.

C.—Bids are being received by Bureau of Supplies & Accounts, Navy Department, to fur. and del. materials to Navy Yards and Station, the date for opening bids as noted at close of each paragraph: (Further information regarding the Schedules may be obtained from Navy Purchasing Office, 310 California St., San Francisco.)

Sched. 4713, various yards, sheet and strip rubber packing and molded rubber gaskets, Dec. 15.

Sched. 4714, Mare Island, 1700 lbs. brass, 4500 lbs. do, 100 lbs. copper and 2700 lbs. do, Dec. 15.

Sched. 4722, Mare Island, 390 gals. insulating varnish, Dec. 15.

Sched. 4723, various yards, 22,900 dry

batteries, 14,500 do, 75,800 flashlight batteries and 33,500 do, Dec. 15.

Sched. 4728, Mare Island, machine and wood screws.

Sched. 4729, various yards, 12 motor generators and spares, Dec. 15.

Sched. 4736, various yards, 3632 charges for fire extinguishers, Dec. 15.

Sched. 4737, various yards, mahogany Dec. 15.

Sched. 4739, Mare Island, motion picture machinery, spare parts and accessories, Dec. 15.

Sched. 4746, Mare Island, 800 lbs. condenser tube packing, Dec. 15.

HALLS AND SOCIETY BUILDINGS

Sub-Contracts Awarded.
ADDITION. Cost, \$124,147.
SAN JOSE, Santa Clara Co., Cal. Second and San Antonio Sts.
Four-story reinforced concrete addition to present structure.

Owner—Y. W. C. A.
Architect—Binder & Curtis, 35 W San Francisco St., San Jose.

Contractor—O. O. Summers, 17 N 1st St., San Jose.

"Bing"—Benner Foundation Co., 628 Montez St., San Francisco.

Reinforcing Steel—W. S. Vetschall, 17th and Wisconsin Sts., S. F.

Clumbing—Wm. Serpa, 497 West 13th St., San Jose.

Sheet Metal—Garden City Metal Wks., 117 Martha St., San Jose.

Electrical Work—Roy Butcher, 63 S Willard St., San Jose.

Structural Steel—R. Hellwig Iron Wks, 27 Orchard St., San Jose.

Placing Reinforcing Steel—A. A. Fontaine, San Jose.

Roofing—W. J. Porter, 1229 Stevens Creek, San Jose.

Ornamental Iron & Miscellaneous Iron—H. Hellwig, San Jose.

Painting—Wm. Herman, 18 Henry St., San Jose.

Glass & Glazing—Crowe Glass Co., 574 Eddy St., San Francisco.

Plastering—J. J. Crocenzano, 69 N Willard St., San Jose.

Mill Work—Pacific Manufacturing Co.

Masonry—Baker & Son, 256 South 1st St., San Jose.

Composition Flooring—Thos. H. Price Company.

Finish Hardware—San Jose Hardware Co., 62 W San Fernando Street, San Jose.

Plans Being Prepared
FRAT. HOUSE. Cost, \$30,000.

STOCKTON North side of Campus of the College of the Pacific.

Three-story brick English type fraternity house with artificial stone trim and slate roof.

Owner—Alpha Lambda Sigma (Archania).

Architect—J. U. Clowdsley, Exchange Bldg., Stockton.

On the ground floor a large living room extends across the front of the house. At the right end the living room into the dining room. A library, billiard room, kitchen and cook's suite are also provided on the first floor.

Second and third floors will provide sleeping quarters for thirty, also to have sleeping porches to accommodate all.

Contractors Attention!

I am selling lumber from mill to you in car lots at wholesale prices. Can furnish dimension all lengths, also mixed cars including uppers.

How about bids wanted?

Are you satisfied with the bids you received on that last job?

Did you have competition—and plenty of it?
If not—why not?

Without charge the BUILDING & ENGINEERING NEWS will place your job before the construction interests of the Pacific Coast. That means competition and—competition means the lowest possible bid.

If you want competition send particulars of your job to BUILDING & ENGINEERING NEWS—also a set of plans and specifications.

Reach the *Independent Bidder* through the columns
of BUILDING & ENGINEERING NEWS

The combined news services of BUILDING & ENGINEERING NEWS have a circulation of

3340

—reaching the Engineer, Contractor and Material Dealer.

Can you reach one quarter the amount of interested people through any other news service published in this section? We think not—in fact, we know you cannot.

If you want *competition*—if you want *independent* contractors to figure your job—if you want the *lowest possible bid*—send particulars of your project to

Building & Engineering News

Sub-Contracts Awarded.

A permit for the first 200 feet of piling has been issued; \$1,500,000.

HAMMOND, Tulare Co., Cal.—State Fish & Game Comm. I. Zellerbach announces that \$16,000 has been appropriated by commission for enlargement of present fish hatchery at Hammond on Kaweah River.

BUSINESS OPPORTUNITIES

SAN FRANCISCO—Further information regarding these opportunities may be obtained from the office of Larsen Advance Construction Reports, 818 Mission Street, San Francisco, either by phone, letter or personal call. Requests for additional information should be made to the Business Opportunities Department. Such requests must be accompanied by the Index Number of each opportunity.
 9738—San Francisco, Cal. Gentleman wishes to communicate with San Francisco importers or wholesale

dealers handling German-made tools; is particularly interested in tin shears or "snips."

9741—Calcutta, India. Exporters of shellac, stielac, buttonlac, tounguelac, mirzapur, carpets and rugs, myrobolams, kapok and hemp, wish to establish connections with San Francisco importers of these articles.

6746—Vienna, Austria. Manufacturers of brocades and furniture coverings desire to be placed in touch with San Francisco wholesale importers or distributors of these materials.

9647 — Brussels, Belgium. Belgian producers of marble wish to appoint an agent in San Francisco to work on a commission basis for the sale of their marble on the Pacific Coast.

9748—Bordeaux, France—Established firm with large offices and warehouses centrally located in Bordeaux offer their services to San Francisco firms wishing to establish a branch office in that city.

D-1869—South Pasadena, Cal. Party is in a position to furnish large quantity of real colloidal bentonite clay crude and ground to 10 and 100 mesh.

D-1874—Boulder Creek, Cal. Firm has a small hardwood article to be automatically turned from maple or birch wood. Desires to communicate with San Francisco firms specializing in wood turning.

D-1875—Phoenix, Arizona. Party in a position to supply fine cutting stone, an excellent bead material, desires to get in touch with interested manufacturers or cutters of fancy beads.

D-1876—New York, N. Y. Dealers in surgical instruments and complete hospital equipment wish to appoint a San Francisco representative to call on the physicians, surgeons, hospitals and clinics in this territory.

D-1881—San Francisco, Cal. Official representing Eastern sales organization offers opportunity for Pacific Coast manufacturers to develop the Eastern market through his established contacts. He will be available for interview until December 1st.

ARCHITECTURAL CLASSES AT SAN JOSE SCHOOL GROWING

The class in architectural drawing, conducted by E. W. Spaulding at the San Jose evening school in San Jose, shows a 50 per cent increase in enrollment over that of last year. The class is composed largely of carpenters, who are most regular in attendance and eager to learn how to draw their own plans. After taking the two-year course, the students are able to compete with those who specialize in this line.

Magnesite in California

California was for many years the sole domestic source of magnesite production in the United States, and still leads, although now joined in commercial output by the state of Washington. During the period of the World War, 1914-1918, and subsequently, the availability of American supplies became of vital importance; and California was not found wanting in doing her bit.

As far back as 1886 the then State Mineralogist, Mr. H. G. Hanks, noted the occurrence of magnesite in California, and in listing the potential mineral resources of the state commented as follows regarding the presence of magnesite: "The California mineral will be turned to account at some future time, when it will be interesting and important to know where it may be found." Our magnesite industry today witnesses the fulfillment of that prophecy.

Transportation, the world markets, and other conditions governing the production and consumption of domestic magnesite were such that for a number of years there was comparatively little actual realization from these valuable natural assets until changes brought on by the European war made it possible to develop and exploit California's resources in this important mineral.

The commercial uses for magnesite are expanding and daily increasing in importance. The two main avenues in industry demanding this material are: refractory linings for metallurgical (steel and copper) furnaces, and oxychloride or Sorel cement work (flooring and stucco). For the former it is practically indispensable, and in the latter it possesses advantages over portland cement.

Before the war, nearly all magnesite used for refractory purposes in the United States was imported. It was used as linings for basic steel furnaces and converters, and in other melting and heating furnaces in metallurgical works. The principal market for refractories was (and still is) in the eastern steel centers; and cheap foreign labor and low ocean freight rates gave foreign magnesite a commercial advantage over that produced in the west.

Because of the present, increasing importance of the domestic magnesite industry and the active demand for data and information on California's resources, the State Mining Bureau, under direction of Lloyd L. Root, state mineralogist, has just issued a comprehensive and detailed report, en-bulletin No. 79, with Walter W. Brady, deputy state mineralogist, as the author.

In addition to descriptions of the mines and plants, detailed information is given on properties, varieties, and uses of magnesite and its products; also specifications and testing for oxychloride cement mixtures.

Bulletin No. 79 is cloth bound, contains 147 pages, and is profusely illustrated with 62 half-tone plates and 11 line-cut drawings (including maps). It may be obtained for \$1.00, postpaid, from the State Mining Bureau, Ferry Building, San Francisco, or from the following branch offices of the Bureau: Chamber of Commerce Building (mail address, P. O. Box 1208), Sacramento; Pacific Finance Building (after January 1, 1926, Sun Finance Building), Los Angeles; Coalinga; Taft; Bakersfield; Santa Maria; Santa Paula.

COMPLETING CEMENT RAILROAD

The new twelve-mile railroad of the Calaveras Cement Company in Calaveras County is rapidly nearing completion and is scheduled to be ready for trains by December 15. The line connects the vast limestone and shale deposits four miles east of San Andreas with the Valley Springs line of the Southern Pacific. The company is erecting a huge plant, including grinders and kilns, and energetically developing the quarries. The project represents an approximate investment of \$3,000,000. The complete plant will be among the largest and most modern in the world.

San Jose building for November totaled \$222,210, according to City Building Inspector M. C. Woodruff. During the month 102 permits were granted, of these, 43 being for new homes costing \$137,815. Alterations during the month totaled \$38,150.

Official Proposals

NOTICE TO CONTRACTORS

(Elmhurst School Annex—Oakland)

Office of the Secretary of the Board of Education of the City of Oakland. Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of the said Board, Room 211, City Hall, Oakland, California, until Tuesday, the 15th day of December, 1925, at 9:45 A. M., at which time said bids will be opened for the erection and completion of the Elmhurst Annex School Building, of the Oakland School District, located on the north side of Sunnyside Street, 225 feet east of 98th Avenue, in the City of Oakland, County of Alameda, State of California. These bids shall be presented in accordance with plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

Separate bids will be received for:

- (1) General Work.
- (2) Brick Work.
- (3) Plumbing Work.
- (4) Painting Work.
- (5) Lathing and Plastering Work.
- (6) Electrical Work.
- (7) Heating and Ventilating Work.

On a deposit of twenty-five (\$25.00) dollars, complete sets of plans and specifications may be had by any bidder on application to the Superintendent of Buildings at his office hereinbefore mentioned, and in each case shall be returned within five (5) days after securing same, to the Superintendent of Buildings. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the said School District, as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided however, that in no case shall said check be required to be in excess of Five Thousand (\$5,000.00) Dollars. Each bidder shall execute and affix to the accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 15th day of December, 1925, at 9:45 A. M., in the Board Room, 211 Second Floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDMOND, Secretary of the Board of Education of Oakland, California.

NOTICE TO CONTRACTORS

(Sewerage and Outfall Works—Watsonville)

Sealed proposals for constructing sewerage and outfall works for the City of Watsonville, California, endorsed

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

"Proposals for Constructing Sewerage and Outfall Works, City of Watsonville, California, Contract No. 1," addressed to the City Clerk, will be received at the office of the City Clerk, City Hall, Watsonville, California, until 8:30 P. M., Pacific Standard Time, on the 22nd day of December, 1925, at which time they will be publicly opened and read. The sewerage and outfall work comprises:

- (1) about 14,350 feet of 6-in., 8-inch and 10-inch vitrified clay sewers with 39 manholes and other appurtenances, all within the city limits, to primarily serve certain newly annexed territory;
- (2) a screening-pumping plant with connections and appurtenances on the north bank of Pajaro River approximately 2.5 miles in air line distance from the City Hall and about 1550 feet southeast of the Beach Road, consisting of a reinforced concrete sub-structure and super-structure housing motor driven centrifugal pumping and rotary screen equipment and appurtenances having a general capacity of about 6 million gallons a day;
- (3) a 21-inch and 20-inch outfall sewer line, with appurtenances, about 14,750 feet to the shore of Monterey Bay just north of the mouth of Pajaro River;
- (4) a 12-inch or 16-inch wrought iron pipe line 1500 feet long into Monterey Bay to a depth of about 19 feet at mean lower low water.

The above statement is presented merely for the purpose of giving a general impression of the nature and scope of the work to be done and is not to be considered as exact or complete. Each proposal must be accompanied by a certified check made payable to the order of the City Treasurer, City of Watsonville, California, in the sum of ten (10%) per cent of the minimum aggregate of the proposal.

A faithful performance bond, amounting to fifty (50%) per cent of the contract price, and a material and labor bond in the same amount, will be required of the successful bidder, in accordance with the provisions of the City Charter and ordinances and of State Laws.

Prior to the acceptance of the completed work a defective workmanship bond amounting to five (5%) per cent

of the amount of the contract must be furnished.

The complete contract documents may be examined at the offices of the City Clerk and City Engineer, and copies thereof, including blue prints of the contracts drawings, will be furnished to intending bidders on request and upon the payment of a deposit of fifteen dollars (\$15.00). All such deposits will be refunded upon the return of the Contract Documents in good condition, or in case they are used in filing a proposal.

No informal or irregular proposals or propositions for doing the work will be considered by the City at this time. It is the desire and purpose of the Board of Aldermen to let the Contract for the work as a whole. The City reserves the right to reject any or all proposals and to increase or decrease within stated limits the amount of any class or portion of the work.

M. M. SWISHER,
City Clerk.

STATE OF CALIFORNIA

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock p. m. on December 21, 1925 at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made of portions of State Highway, as follows:

Imperial County, across the Sand Hills (VIII-imp-27-B), about six (6.0) miles in length, to be graded and paved with Portland cement concrete or with asphalt concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for job field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

HARVEY M. TOY,
LOUIS EVERDING,
N. T. EDWARDS,
California Highway Commission.
R. M. MORTON,
State Highway Engineer
W. F. MIXON, Secretary.
Dated: November 23, 1925.

SAN MARINO, Cal.—A. C. Rice, 1957 Santee St., L. A., awarded cont. by city at \$2229 for orn. lights in Euclid Ave., bet. Mission St. and Monterey ave.; 1911 act. Posts to be Marbelite.

EL SEGUNDO, Cal.—Until 7: 30 P. M. Dec. 4, bids will be rec. for orn. lights in Grand Ave., bet. Main and Concord Sts. Work involv. Marbelite posts; 1911 and 1915 acts. Victor D. McCutby, city clerk.

LOS ANGELES, Cal.—City plans ornamental light system in:

La Jolla Ave., bet. Willoughby and Melrose Aves.; concr. posts.
Granddle Blvd., bet. Edie St. and Sunset Blvd.; pressed steel posts.

Dohney Dr., bet. Cordern Dr. and S. city limits; concr. posts.

LOS ANGELES, Cal.—Awards by county for orn. lights are:
Graham Lighting Dist., involv. 66 additional lights, to A. C. Rice, 1957 Santee St., at \$967.

Miramonte-Horrence Lighting Dist., involv. 41 additional lights, to Walker & Martin, 402 W. Wilshire, Fullerton, at \$1120.

LA MESA, Cal.—See "Sewer and Street Work," this issue.

DELANO, Kern Co., Cal.—Kern Valley Electrical Co., Bakersfield, at \$15,400 awarded a contract by city to install electric-rail system in business district.

MACHINERY & EQUIPMENT

LOS ANGELES, Cal.—Bids rec. by city purch. agent Nov. 25, for road rollers under spec. 1229, incl. item (1) 12-ton roller and (2) 8-ton roller, are:
C. M. Railblack—(1) \$5200 with differential and brake, deduct \$250 without; (2) \$3725; for both, \$8725. On item (1) add \$100 for air pressure scarifier.

Austin Western Road Mch. Co.—(1) \$1735, (2) \$4250; alt. same as (2) except 4-cyl. P. T. U. at \$4335.

C. W. Powell—(1) \$5200, (2) \$4150; alternate to item (1) \$5150. For both, deduct \$100.

STOCKTON, San Joaquin Co., Cal.—Colberg Boat Works at \$2650 awarded contract by county to const. ferry boat to operate bet. B. Aldin and Andrus Islands; will be equipped with 3-h.p. engine. A. W. de Young Boat and Ship Co., bid \$3743.50 with 3-h.p. engine.

OAKLAND, Cal.—Until Dec. 10, 12 noon, bids will be rec. by E. K. Sturges, city clerk, to fur. 2 motor trucks and 2 automobiles for Dept. of Streets. Spec. obtainable from clerk.

RAILROADS

OAKLAND, Cal.—Key System Trans. Co., has had plans prepared for two street car loops in downtown district; est. cost, \$80,000. Construction will be started within 30 days.

QUINCY, Plumas Co., Cal.—Wm. Watson, resident engineer, for Feather River Power Co., Hobart Bldg., San Francisco, announces work will be started at once on r. r. from Tobin to power company's reservoir at Buck's Ranch. R. C. Storrie Co., Crocker Bldg., San Francisco, has contract.

FIRE ALARM SYSTEMS

PACIFIC GROVE, Monterey Co., Cal.—City rejects proposal to install system of \$11,700 to finance installation of automatic fire alarm system.

SAN LEANDRO, Alameda Co., Cal.—City votes bonds of \$25,000 to finance installation of fire alarm system.

MISCELLANEOUS SUPPLIES

AUBURN, Placer Co., Cal.—Until Dec. 8, 10:30 a. m., bids will be rec. by A. S. Fleming, county clerk, to fur. and del. gasoline and distillate for year commencing Feb. 2, 1926. Further information obtainable from clerk.

ALAMEDA, Alameda Co., Cal.—Until Dec. 15, 8 p. m., bids will be rec. by Wm. G. Paden, clerk, Alameda High School District, Room 9, City Hall, to fur. and del. to high school grounds, Oak St. and Central Ave., 300 cu. yds. more or less, top soil. To be delivered before Jan. 15.

RESERVOIRS AND DAMS

CASA GRANDE, Ariz.—Bids will be rec. by Casa Grande Water Users Water Club about Dec. 12 to enlarge reservoir. The work will require the moving of about 152,000 cu. yds. of earth. The reservoir is about 16 miles out of Casa Grande, but only one mile from the railroad. The work will be done immediately. J. F. Brown, pres. and sec.

NEWPORT BEACH, Cal.—Stroud Bros. & Seabrook, Vista, sub. low bid to city at \$27,498 for 3,000,000-gal. reinforced concrete reservoir in connection with new city water works sys., but were permitted to withdraw their bid. Bowman & Preble, Santa Ana, sub. next bid at \$32,233.

WASHINGTON, D. C.—Southern California Edison Co., Los Angeles, has applied to the Federal Power Commission for a preliminary permit covering the Mohave Canyon site on the Colorado River. It is proposed to construct a concrete dam 168 feet high at a point in the canyon 2½ miles below Topock.

LA MESA, Cal.—H. H. Peterson, 536 Speckels Bldg., San Diego, awarded contract by city at \$2412 for circular reinf. conc. reservoir, 50 ft. in diam., 4-in. c. i. water mains, fire hydrants, centrifugal pumping plant, etc., for renewal and extension of the old water sys. William M. Ramsey, city eng.

PIPE LINES, WELLS, ETC.

SEATTLE, Wash.—Gerrick, Creeman & Gerrick Co., at \$146,775 submitted low bid to city to lay 54-in. lock bar steel pipe in reconstr. portion of Cedar river pipeline No. 1 from Duane Plac to the Beacon Hill reservoir. Other bids: J. L. Smith Co., \$159,395; Interstate Constr. Co., \$170,875. All taken under advisement.

MISCELLANEOUS CONSTRUCTION

PALO ALTO, Santa Clara Co., Cal.—J. F. Byxbee Jr., city engineer, recommends const. of incinerator on the marshes. Proposed to form a district including Palo Alto and extending south to Sunnyvale, each community to share in the expense of constructing and operating the plant; an incinerator with capacity of 50 tons per day, est. to cost \$75,000 is proposed.

WATER WORKS

NEWPORT BEACH, Cal.—Chicago Bridge & Iron Wks., Rialto Bldg., San Francisco, awarded contract by city at \$5275 for 50,000-gal. elevated steel tank and tower compl. in connection with new water works sys. Awards made on other parts of the work are:

Backfill and trench for 18-in. and 24-in. diam. wood-stave pipe and fittings, to Stroud Bros. & Seabrook, Vista, at \$6338.50.

Furnish and lay all wood-stave pipe and fittings to Pacific Tank & Pipe Co., 4320 Santa Fe Ave., at \$61,247.77. Redwood Mfg. Co. bid \$62,934.11.

Furnish and install compl. all cast iron water mains, laterals, fire hydrants, gate valves, fittings, service conn., etc., to Lee R. Weber, Santa Monica, at \$157,545.60.

Low bid on 3,000,000-gal. reinf. conc. reservoir c-mpl. was sub. by Stroud Bros. & Seabrook, Vista, who were

granted permission to withdraw the bid. Other bids: Bowman & Preble, Santa Ana, \$32,323; H. H. Travers, \$32,688; deVaard & Sons, \$34,246; Fluor Constr. Co., \$35,800; Gibbons & Reed Co., \$37,949; Chas. E. Green, \$38,244.06; J. M. Beach Co., \$39,250; John Simpson & Co., \$39,490; Cavanaugh & Twonly, \$39,700. Engr.'s est., \$55,500.

PHOENIX, Ariz.—Pratt-Gilbert Co., Central Ave. and Madison St., Phoenix, awarded contract by city for C. I. pipe as follows: 300 ft. 4-in. class B at \$68.16 ton, 100 ft. 5-in. at \$135.30 ton, 2000 ft. 2-in. joint cast at \$31.77 ton, and 6-in. (balance of car load of 60,000 lbs.) at \$38.40 ton. This was not lowest bid, but other bids did not incl. precast pipe, and above offered immediate delivery. Other bids: Crane Co., 4-in. at \$64, 8-in. at \$60, 2-in. at \$40.35, and 6-in. at \$60; Munson-Dunneag & Co., 4-in. at \$66.50, 8-in. at \$62.50, 2-in. at \$31.50, 6-in. at \$61.50; U. S. C. I. Pipe Co., 4-in. at \$69.33c ft., 8-in. at \$1.425, 2-in. at 29c, and 6-in. at \$1.

REDWOOD CITY, San Mateo Co., Cal.—Formation of proposed Ravenswood Water District is contemplated. Estimates of cost for system installation are being prepared by Geo. A. Kneese, engineer, Courthouse, Redwood City.

WHITTIER, Cal.—City Clerk Paul Gilmore authorized to advertise bids for 300,000-gal. reservoir and for 4-in., 6-in. and 8-in. pipe trenches for distrib. sys. East. cost, bet. \$21,000 and \$22,000. Reservoir and pipe will serve College Hill dist.

SAN DIEGO, Cal.—City plans water sys. in Alta Vista, Homedale, and other adjoining dists.; 18,258 ft. class B C. I. water pipe, tees, crosses, valve boxes, etc., 10 2-way fire hydrants; 1911 act. Protests Dec. 21.

WHITTIER, Cal.—Neptune Metre Co., 701 E. 3rd St., Los Angeles, awarded contract by city at \$370 for water metre testing machine. Other bids: National Metre Co., \$315; Mueller Co., \$571.

WHITTIER, Cal.—City will ask bids at once for distrib. sys. of 4-in., 6-in. and 8-in. pipe for College Hills dist.

SAN FRANCISCO—Bureau of Engineering, Dept. of Public Works, preparing spec. for extensions to high pressure water system for fire protection in Rankin St., from Islais Creek to Fairfax Ave.; Fairfax Ave., from Rankin to Mendell St.; 3rd St. from Islais Creek to Fairfax Ave.; Evans Avenue, from 3rd to Keith St.; Quint St., from Fairfax Ave. to Custer Ave.; Custer Ave., from Quint to Third St.; and Mendell St., from Fairfax Ave. to Evans Ave., with manifold connection at Islais Creek Channel.

EUREKA, Humboldt Co., Cal.—Layne & Bowler Co., 468 West Santa Clara St., San Jose, has submitted proposals to city for permanent water supply system, calling for local wells or supply from Bel River. Three main propositions are:

Prop. 1 (local wells)—This plan calls for the borings and tests to be made by Layne & Bowler Co. If the project is successful it will assure

Telephone SUTTER 3266

supply of 3,000,000 gals. per day, the contract cost to be \$225,000. If 1,500,000 gallons per day, the well supply system will cost \$150,000.

The plan presented to the council points out that Layne & Bowler Co. will furnish a surety bond of \$15,000 as a guarantee that the exploratory work will be carried forward without cost to the city. If the tests prove successful, a contractor's bond of \$50,000 will be furnished. The plan calls for boring at least one hundred test holes.

One of the main points in the well project is that the Eel River supply, known as Project No. 2, may be substituted if the required amount of water cannot be obtained from local well sources at the costs mentioned in Project No. 1.

Project No. 2 (underflow from Eel River). The main features of this plan are: (1) a series of Layne Turbine and Booster Pumps formed into a recovery plant on the Ferndale side of Eel River near Ferndale bridge; (2) a pipe line 3 1/4 miles long to a million gallon reservoir and tank at a point 300 feet up on Table Bluff hill; (3) a gravity pipe line, 11 1/4 miles long, from Table Bluff reservoir to Eureka. This line will be 16-in. pipe, equipped with a system of controls and valves to regulate the pressure of the flow from the high point. This project will cost \$471,000.

Project No. 3.—This is the same as

Project No. 1, using local wells as the source of supply. The difference is that No. 2 is not used as an alternative, and that the contractors will go ahead with a guarantee that the local wells will be developed to furnish a supply sufficient for local needs. The taking away of the alternative increases the total cost, which would be \$275,000 for a three million gallon supply, and \$200,000 for a one and one-half million gallon supply.

VALLEJO, Solano Co., Cal.—Until Dec. 16, bids will be rec. by Alt. E. Edgumbe, city clerk, to fur. 1500 ft. 8-in.; 1456 ft. 6-in. and 2064 ft. 4-in. c. i. water pipe. T. D. Kilkenny, city eng. Spec. on file in office of clerk.

WATSONVILLE, Santa Cruz Co., Cal.—City Eng. H. B. Kitcher, preparing estimates of cost to install larger water mains in Watsonville Heights for fire protection.

SOUTH GATE, Cal.—Until 8 p. m., Dec. 8, bids will be rec. by city to furnish trench and lay 799.5 ft. 4-in., 30 ft. 8-in. and 193 ft. 10-in. C. I. water pipe; also 1391 ft. 4-in. riv. steel pipe and 1794 ft. 2-in. wrt. iron pipe to be removed and reconstr. 1911 and 1915 acts. Pavement to be put in later. Edw. M. Lynch, Central Bldg., Los Angeles, engineer.

LOS ANGELES, Cal.—L. A. Mfg. Co., 2500 E. 23rd St., awarded cont. by water and power comm. for riv. sheet steel pipe under spec. E82, as follows: 1310 ft. 24-in. by 3/4-in. f. o. b. trenchside 31.38 ft., 1 24-in. 30 deg. ell, lump sum \$33.90, fittings 6c lb., total, \$5-791.70. Delivery to commence in 30 days, compl. in 45.

PLAYGROUNDS AND PARKS

ALAMEDA, Alameda Co., Cal.—Until Dec. 15, 8 P. M., bids will be rec. by Wm. C. Paden, clerk, Alameda High School District, Room 9, City Hall, to fur. and del. to high school grounds, Oak St. and Central Ave., 300 cu. yds. more or less, top soil. To be delivered before Jan. 15.

SUNNYVALE, Santa Clara Co., Cal.—Sunnyvale Grammar School District has purchased Hall property, west of grammar school and plans to improve for playground purposes.

SAN LEANDRO, Alameda Co., Cal.—City defeats proposal to issue bonds of \$125,000 for purchase of sites and improve for parks & playgrounds.

SAN MATEO, San Mateo Co., Cal.—San Mateo Grammar School District plans to constr. 2 tennis courts at Central Grammar school fronting on Central Avenue.

SEWERS & STREET WORK

LOS ANGELES, Cal.—Mlagenovitch & Gillespie, 1029 W. 36th St. awarded contract by County Sanitation Dist. Dec. 1 at \$84,729.10 (using cem. pipe) to const. portion of Dist. No. 1 main trunk sewer extending from Arbor Vitae and Walnut Sts. to its junction with the Manchester Ave. pump trunk sewer, involy. 7194 ft. 15-in. pipe at (a) cem. \$13.50 ft. and (b) vit. at \$13.32; (2) 5701 ft. 30-in. at (a) \$5.50 and (b) \$5.90; (3) 3753 ft. 33-in. at (a) \$6.70, (b) —, (4) 1300 ft. 36-in. at (a) \$7.10, (b) —, (5) 28 m. h. at \$100 ea. (6) 31 jet. cham. at \$100 ea. Bid on vit., \$87-723.48.

OAKLAND, Cal.—Council, E. K. Sturgis, clerk, declares inten. to imp. Noy Ave., bet. 73rd and 75th Aves. involy. sewer with lamphole and wye branches. 1911 Act. Protests Dec. 24.

SAN BERNARDINO, Cal.—Until 7:30 p. m., Dec. 14, bids will be rec. by city to imp. under 1911 act: 7th St., bet. Mountain View Ave. and Arrowhead Ave. 4-in. cem. conc. pave. Olive St., bet. Dixon and A Sts.; curbs, walks, 4-in. cem. conc. pave. Plans on file at office of City Clerk J. H. Osborn.

LOS ANGELES, Cal.—Approx quantities for Board Hts. Storm Drain Sys. No. 3, new bids for which will be rec. Dec. 14 (previously noted), are: 315 ft. 6-in., 3220 ft. 8-in., 362 ft. 10-in., 3046 ft. 12-in., 1656 ft. 15-in., 2491 ft. 18-in. cem. pipe, 359 ft. 22-in., 2753 ft. 24-in., 2205 ft. 27-in., 1430 ft. 33-in., 1238 ft. 36-in., 1120 ft. 39-in., 901 ft. 42-in., and 1770 ft. 45-in. reinf. conc. pipe; 988 ft. 60-in., 908 ft. 63-in., 2164 ft. 66-in., 6252 ft. 72-in., 1400 ft. 75-in., 1719 ft. 78-in., and 957 ft. 84-in. conc. storm drain. The conc. storm drain specified may be constr. either as monolithic conc. storm drain or as pre-cast reinf. conc. pipe, at option of contractor. Further quan. are: 2418 ft. reinf. conc. box section 14 ft. wide by 6-ft. high, 2500 ft. same 14 ft. wide by 7 ft. high, 76 m. h. 3 jet. cham., 1 conc. outlet struc., 23 sewer m. h. 120 c. h., 6615 sq. ft. asph. and asph. conc. pave., 2000 sq. ft. grade and oil, 341 sq. ft. conc. gut., 648 lin. ft. conc. curb, 25 sq. ft. cem. walk, 150,000 cu. yds. excav., trench resurf. various types, spec. struc. supporting railroad crossings at cost est. by railroad companies at 19,055. Act of 1911. There are approx. 7500 separate assessments covering an assessable area of 51,600,000 sq. ft. In addition to above bids are to state price per cu. yd. for rock mattress, L. W. Armstrong, storm drain engr.

THE CONTRACTORS' ROOM

BUILDING AND ENGINEERING NEWS maintains a Contractors' Room where plans and specifications may be filed by Architects, Engineers and Owners for the convenience of bidders in San Francisco and the Bay Counties.

Architects, Engineers and Owners are invited to forward plans of their projects to BUILDING AND ENGINEERING NEWS. No charge for this service. The plans will be returned in good condition when contract for work is let.

NATION PROGRESSING RAPIDLY IN REFORESTATION

An exhaustive survey of forestry legislation by the states during 1925, published by the National Lumber Manufacturers Association, reveals that the nation is earnestly wrestling with the problem of forest perpetuation and reforestation. Twenty-six of the forty-two states which had legislative sessions this year adopted seventy-one important forestry laws. These laws frequently deal with the fundamental problems of taxation and protection against fire.

"The outlook for private reforestation on an extensive scale," says the forest economist of the National Lumber Manufacturers Association, "is becoming most hopeful. This survey shows that the public is beginning to do its part. When the economic position of the forest industries permanently improves reforestation will have a great impetus. Already we have reports that about fifty great commercial forest companies have undertaken systematic reforestation. The public must learn that reforestation and forest utilization go hand in hand. Reforestation will not be helped by disuse of forest products. It is a costly process and must be made to pay its way, if it is to be carried out by private capital."

Perhaps the most radical measure, according to the survey, was that adopted by Michigan, a state now practically denuded of coniferous timber but once the leading lumber producer of them all. The Michigan law takes commercially reforesting land out of the ordinary land tax group and makes its product subject to a yield TAX WHEN removed. The land itself is subject only to a flat annual tax of five cents an acre on pine and ten cents an acre on hardwood land. To make up for the local loss of taxes whilst new forests are growing the state government is bound to pay five cents an acre into county treasuries for all reforesting land within their boundaries. The yield tax is fixed at 25 per cent of the value of the timber at the time of its removal from the land. Taken together with anti-fire measures the new Michigan law is considered by many foresters as solving the problems of taxing forests without penalizing reforestation and at the same time providing forest communities with necessary current revenues.

The California legislature submitted a constitutional amendment exempting growing trees from taxation. Minnesota is again to vote on a yield tax amendment. Wisconsin adopted a constitutional amendment broadening legislative powers.

Including legislation before 1925, the Lumber Association finds that twenty-three states have enacted laws designed to encourage forestry, as follows: Alabama, Connecticut, Illinois, Indiana, Iowa, Kansas, Louisiana, Maine, Massachusetts, Michigan, Minnesota, Mississippi, Nebraska, New Hampshire, New York, North Dakota, Ohio, Pennsylvania, Rhode Island, South Dakota, Vermont, Wisconsin, Wyoming.

separated regions in the eastern United States and covered practically the entire range in quality of clays used for making hollow tiles. These walls were crushed in the largest testing machine in the world, which can exert a force of 10,000,000 pounds. The results of these tests will enable engineers and architects to use this valuable building material properly since the wall strengths themselves were actually found.

The average person gives little attention to the various types of construction used in the buildings which house and shelter him. It is usually assumed, without question, that the strength of all of the members which make up structures he enters, is adequate for the purpose used. In almost all cases this is true, yet few realize that this is not so by accident but is the result of many years of experience and research. The necessity for and the serious attempts to secure more

economical construction by reducing the amount of materials used has made necessary strength tests of the sort just described.

SYSTEMS OF FLOOR CONSTRUCTION

Among the most economical systems of floor construction, for light loads in hotels, apartment houses and similar buildings where a flat plastered ceiling is required, are tile and concrete joist construction. One difficulty encountered is the possible discoloration of plaster at the joists where plaster is applied directly. Some types of rib construction are also recommended for hotels, using metal forms spanning joists about 3 feet apart. Two-way joists and panel construction has also proved economical, all arrangements being governed by the building code requirements for the locality.—Concrete.

Hoists that Qualify

Three Clyde Hoists, a one drum steam and two double drum steam, handled all the material used in the construction of the new Arlington Hotel, at Hot Springs, Arkansas. They have lived up to the usual Clyde standard, by handling the work to the entire satisfaction of their owners.

Mr. G. H. Burden, of Ault & Burden, general contractors, writes: "We are glad to furnish photo of the Arlington Hotel with our best wishes and take this occasion to express our complete satisfaction with the three Clyde Hoists used on this operation."

"This equipment has not given us at any time the least trouble and has met every demand made upon it. We wish to assure you of our high regard for the equipment secured from your good company and the genuine quality involved."

KOEHRING DANDIE Light Mixer

**Four-cylinder
Gasoline
Engine**

FAST! Fast! Fast! Here is a light mixer with a speedy charging skip, liberal drum dimensions and a high speed discharge that will break all your records of putting concrete where it pays you profits!

Just the balanced light weight to haul behind your truck on its rubber tired disc wheels and get from job to job in a big hurry.

Four cylinder, radiator cooled, gasoline engine. Transmission from engine to drum enclosed in oil bath! Double gear drum drive, chilled, beveled gears! Drum rollers fixed to shafts revolving in big bearings!

It's useless to try to give you the smallest idea of what this Dandie represents in superior speed and construction details — but it's *strong, rugged* — it will stand-up for all the punishment you can give it, and *work and work, and work!*

And you have a chance to buy at a price that gives you all the benefit of the economies the Koehring Company effect by big, standardized production! If you had half an idea of what this mixer means in the way of actual value, you would send back the coupon for full detail by next mail!

**Send Back this
Coupon!**

Koehring Dandie — 7 cu. ft. capacity mixed concrete. High speed charging skip, or low charging hopper with hinged steel framed platform which may be folded against mixer for hauling. Discharged from either side of mixer.

4 cylinder gas engine, radiator cooled, or optional two cylinder engine, hopper cooled. Drum drive transmission in oil bath. Maybe equipped with *automatic water measuring tank*, and *Light Duty Hoist*.

Congress of March 3, 1879.

SAN FRANCISCO SCORED BY FIRE ASSOCIATION

The National Fire Protection Association, in its October news letter, asserts a review of its field service of conditions on the Pacific Coast reveals a most gratifying fire prevention development and morale in many of the small and in all the large municipalities except San Francisco.

With direct reference to that city, the news letter says:

"San Francisco's built-over area is estimated to be 90 per cent wooden construction. The housing of automobiles in wooden buildings in which people sleep is common practice. Smoking is allowed in even the best picture houses. The salvage corps reports 749 fires last year from sparks on wooden shingles. The state of municipal housekeeping is indicated by the record of 941 fires from burning rubbish and grass. The fire department operates no systematic inspection service nor investigation of fire causes. No record of fire losses is kept by the department. The salvage corps and the fire marshal, both maintained by underwriters, are the fire-conservation agencies of the city. The fire marshal reports an increase in the number of suspicious and incendiary fires during 1924."

LOGGING PROFITS COMPARED FOR LARGE AND SMALL TREES

To ascertain the comparative profits in logging large and small trees, members of the lake states forest experiment station and the forest products laboratory at Madison, Wis., have lately tallied logs and timed woods operations at a number of mills in Minnesota, Wisconsin and Michigan.

In some other forest regions, states Director Raphael Zon of the forest experiment station, it has been proved by similar investigations that operators were actually losing money on every small tree cut. This is a point of importance, not only to the logger, but in forest conservation as well, for if the operator finds it more economical to leave the small trees standing, these reserved trees will form the nucleus of new forest growth and perform at the same time the very important function of reseeding the cut-over areas.

Although indications thus far are favorable to leaving the small trees standing, the woods and mill studies will be continued through at least a part of the 1926 field season before definite conclusions will be attempted.

Survey crews under the direction of the Pacific Northwest forest experiment station have this year carried through to completion the task begun by the forest service in 1909, of compiling measurements of Douglas fir trees under every typical condition of growth in this region. From these measurements yield tables will be computed, showing the amount of wood grown annually under all sorts of forest conditions. This work has been supervised during the last year by Technical Assistant R. E. McArdle, who has personally located many of the 2000 sample plots upon which the survey crews worked.

DENVER TO HAVE NEW STEEL PLANT

The Denver headquarters of the Colorado Fuel & Iron Company announced that a one- and one-half million dollar addition to its Minnequa steel plant at Pueblo for the manufacture of structural steel—the first of its kind in the west—will be started at once. It is planned to operate steadily and will employ 400 men. The new mill will be electrically driven and operated by 4000 and 3500 horsepower main drive motors. The present nearest structural steel plant is Chicago and in entering this field the C. F. & I. plans not only to fill the need of Colorado, but of all the inter-mountain country.

RAILROADS SAVE FUEL

Nearly \$23,000,000 was saved by the Class 1 railroads on their fuel bill during the first seven months of 1925 compared with the same period last year, through economical practices, according to figures of the Interstate Commerce Commission's Bureau of Statistics.

MILLWORK MEN ARE ENCOURAGED BY ARCHITECTS

At the recent convention of the Millwork Institute of California at Oakland, Architect J. J. Donovan of that city declared the Institute was doing a wonderful work not only for the industry but also for the architect. He said the most difficult part of building specifications for the architect is the carpentry and millwork, and suggested the Institute should have a specification bureau which will co-operate with the architect on millwork so that a standard may be established.

In the resolutions adopted by the Institute it was urged that the association take immediate advantage of the advice of Mr. Donovan in regard to possible methods of better co-operation between the architects and the mill men; that the issuance of service bulletins by the Institute be continued and that the proposed "Manual of Millwork" now being compiled be completed as soon as possible.

Other resolutions adopted endorsed the movement to secure repeal of the Federal capital stock plan; declared for the organization of branch associations into effective units of the Institute; authorizing the president of the Institute to appoint a committee to report at the next meeting a single form of bid based upon the various forms of full mill bids, and requesting the managing director to continue the constructive analysis of the different methods of charging for set-up machines, or making ready charges for moulding production, with a view of developing a uniform method of application.

The following officers were elected: President, Harry Gaetjen, San Francisco; vice-presidents, E. R. Maule, Los Angeles, and A. W. Bernhauer, Fresno; treasurer, E. A. Nicholson, Los Angeles; managing director, H. T. Didesch, Los Angeles; directors, A. V. Bernhauer, Fresno; A. B. Crozier, Eureka; H. Mitchell, Oakland; Harry Gaetjen, San Francisco; W. J. Glasson, San Diego; E. R. Maule, Los Angeles; W. F. O'Keefe, Stockton; J. L. Pierce, Santa Clara, and J. H. Shepard, Sacramento.

The next meeting will be held at Stockton March 26 and 27, 1926.

LUMBER MOVEMENTS

The Pacific Lumber Inspection Bureau has just gotten out its report for the first nine months of 1925, showing 3,468,832,983 ft. of lumber moved by water to all destinations during that time, an increase of 155,661,856 ft. over the same period of 1924. The increased business was practically confined to California and the Atlantic coast, the former running 7.7 per cent better and the latter 25 per cent better, Japan, China, Australia and the west coast of South America all fell off heavily. The United Kingdom and continent showed a healthy increase. Egypt came to the front with 18 millions for 1925, as against 6 million for 1924.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Eight cities of the Pacific coast issued building permits in November in excess of a million dollars, a million dollars more than in the same month of 1924, although total building lost \$600,000 in the cities reporting.

The leading cities are as follows:

City	1925	1924
Los Angeles	\$8,412,440	\$9,754,196
San Francisco	3,478,843	6,358,729
Portland	3,121,195	2,118,349
Oakland	2,271,056	2,104,741
Long Beach	1,751,709	935,566
Sacramento	1,551,360	292,742
Seattle	1,452,840	1,019,841
San Diego	1,329,801	1,437,513

Figures for other coast cities reporting were:

City	1925	1924
Pasadena	\$ 925,643	\$1,067,798
Berkeley	871,828	805,801
Glendale	795,424	628,555
Tacoma	723,860	482,750

Interest in establishment of the five-day week for all union painters in San Francisco has been revived by the visit of Joseph Clark, fourth vice president of the International Brotherhood of Painters. Clark is making a preliminary survey. It is understood, but no action is expected until the meeting in San Francisco of the officials of the building trades department of the A. E. of L. early next month. The question has been discussed at several recent meetings of the District Council of Painters. The five-day week for painters in San Mateo county was put into operation November 16, with general satisfactory results. It is reported. The shorter week does not effect wages. It is favored by the unions because it gives more men an opportunity to work.

An inexpensive building material developed in England, called "Pactocrete," is described as being as durable and easily moulded as concrete, and as easily sawn, nailed, screwed and polished as wood. Two varieties are made, water-resisting and absorbent; so that it may be used for outside and inside walls and house fittings. Claims are made that with this material a house can be built with 20 per cent skilled and 80 per cent unskilled labor in from twelve to sixteen days, and that the cost of house building will be reduced by 20 per cent.

Berkeley building permits for November represent an expenditure of \$871,828. During the month 405 permits were issued, of these 327 being for new construction valued at \$846,659 and 98 for alterations and repairs valued at \$24,869.

Building permits issued in Vallejo during the month of November totaled \$13,567. The building expenditures in the city for the past eleven months total \$163,655.

The Western Retail Lumbermen's Association will convene for its annual meeting February 18-20, 1926, at the Multnomah Hotel, Portland, Ore.

Michael J. Carroll, former contractor and builder, died in a Visalia hospital, Dec. 4, following an illness extending over a period of three years.

America's unprecedented building boom, which already this year has exceeded the five billion dollar mark, is due not to a lack of space, but because of an almost universal demand for high grade space. This explanation is offered by Thomas P. Danahey, of Detroit, who is chairman of the renting committee of the National Association of Building Owners and Managers, which announces that a nationwide survey of rental conditions in office building had been made. A report of his survey for 31 cities shows that office space is more than 90 per cent rented on the average, despite the great activity in building in recent years. In some cities there is more vacant office space than can be absorbed in from three to five years.

Record-smashing progress in the building industry still leaves this country behind in its demands for structures of various types. According to estimates made by the Rail Steel Bar Association the advent of 1926 will see the nation more than a year in arrears in construction. "Tremendous strides have been made in building in the last three years," says the association, "but so great was the shortage brought about by the stagnation due to the world war that there remains a big program to be carried out. It is probable that \$5,000,000,000 will not cover urgent needs."

The wear on macadam roads is seventeen times as great as on concrete, according to the report of the committee on economic theory of highway improvement to the fifth annual conference of the Highway Research Board of the National Research Council, meeting in Washington in a two-day session of the National Academy of Science. Various other reports on different road problems were presented to the conference, in which more than 300 highway engineers from 44 states participated.

Jory & Sons, operating the Stockton Tool Works at Aurora and Taylor streets, Stockton, have incorporated with a capital stock of \$100,000 and will engage in the purchase, sale and distribution of iron, steel, manganese, copper, lumber and other materials. Directors are: C. Jory, W. S. and C. T. Jory, George H. Means and Ira B. Langdon.

C. C. Cottrell recently chief engineer of the Western Willite Co., San Francisco, Calif., severed his connection with the company Dec. 1 to become president of the Cottrell Engineering Corporation and consulting engineer of the California State Automobile Association.

M. E. Kreuger, formerly railroad construction engineer for the Northern Redwood Lumber Company, will enter the faculty of the University of California, where he will be professor of Forestry. He assumes his new position about January 15.

Intercities Bridge Company of San Francisco has been incorporated with a capital stock of \$25,000. Directors are: D. Herbert Heywood, F. Harrington and L. Johnson, all of San Francisco.

Herbert E. Nunn, city manager of Santa Barbara for the past eighteen months, has tendered his resignation to the city council. Prior to accepting the city manager position, Mr. Nunn was state highway engineer for Oregon and previous to that was city engineer of El Paso, Texas.

Fred M. Miller, former engineer with the State Corporation Department, has been named assistant manager of the Nevada Irrigation District in Nevada County which has started construction of an irrigation works to water approximately 50,000 acres.

John N. Edy, city manager of Berkeley, failed to receive appointment as city manager of Cincinnati, Ohio, a position paying \$25,000 a year. The position was given to Clarence O. Sherrill, Superintendent of Buildings of Washington, D. C.

A. H. Baldwin, city electrical inspector of Pittsburg, Contra Costa County, moved his place of residence from that city to Antioch with the result that he is without the position, the city manager having demanded his resignation.

Albert H. Larsen, architect, announces the removal of his office to 417 Sutter street, San Francisco, and desires to receive catalogs and samples of building materials and equipment from manufacturers.

Mrs. Florence Kahn, congresswoman from California, secured \$75,000 appropriation to finance renovation of old Appraiser's Building in San Francisco and \$1,000,000 to finance erection of new Federal Building.

W. R. Falt, Woodland contractor, left that city Nov. 3 for a visit to his home town, Elkhart, Indiana, which city he has not visited for thirty years. He will return about Jan. 15.

W. D. Harrington, consulting engineer of Tracy, was operated on Dec. 2 in a Stockton hospital for a ruptured appendix. He is reported as improving.

Albert E. Carter, congressman, will introduce bill seeking a \$1,500,000 appropriation to finance erection of new post office building in Oakland.

Chas. William Strouse, Redwood City contractor, seeks to be adjudged a voluntary bankrupt, scheduling his liabilities at \$2172.84 with assets of \$693.96.

Chris P. Jensen, Fresno county surveyor, has been elected president of the Fresno Exchange Club.

City of Monterey, at a recent election, voted bonds of \$262,000 to finance construction of a municipal wharf.

John R. Booth, 98, pioneer Canadian lumber magnate, died in Ottawa, Dec. 8.

ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

N. W. ELECTRICAL INSPECTORS TO ORGANIZE IN PORTLAND

An organization to be known as the Northwest Association of Electrical Inspectors will be formed at a meeting of the electrical fraternity to be held in the Multnomah Hotel, Portland, Ore., January 11-12.

Active membership in the association will include municipal and insurance inspectors—associate and industrial memberships will consist of electrical inspectors of power companies, electrical contractors, electrical manufacturers and electrical jobbers.

The object of the association will be to bring about a more uniform interpretation of the National Electrical Code, thereby reducing fire and personal hazards from electrical causes by improving the methods of installing, maintaining and using electrical wiring equipment.

The plan of organization is being promoted and is in charge of H. A. Patton, of the Washington Surveying and Rating Bureau, Seattle, and F. D. Weber, of the Oregon Insurance Rating Bureau, of Portland.

PLANS NEW HOME

The Berkeley Builders' Exchange, recently organized, has unanimously voted to lease the entire second floor of the former Armstrong School in University Ave., Berkeley, and centralize all local building activities. The structure in future will be known as the Builders' Exchange Building. Besides having spacious offices and a meeting and banquet hall, the Exchange will have several small offices which will be sub-leased to various members of the Exchange. There will be a central telephone bureau and stenographers available for these tenants, thus reducing individual office overhead to the minimum. It will also establish a clearing house for all building activities from foundations to roofing.

NEW MEMBERS

Berkeley Builders' Exchange, according to W. G. Toozie, secretary, is growing rapidly since its organization a few weeks ago. Recent new members include: Dickson and Holbrook, sheet metal work, heating and ventilating; Walter Mork, sheet metal work, heating and ventilating; Superior Tile Co., tile contractors; Richard Liebig, builder; W. W. Jones, plasterer; Pacific Lime and Plaster Company, lime products.

The exchange, through its president, E. A. Mitchell, has appointed a committee of five to submit recommendations on a plastering ordinance similar to that recently incorporated in the Oakland city building code.

Headquarters of the exchange is located at 2337 Shattuck Avenue, Berkeley.

Berkeley Builders' Exchange has prepared an ordinance for submission to the Berkeley city council seeking the inspection of all plastering work, the inspections to be under the direction of the city building inspector. The ordinance would license plastering contractors, charging them a fee of \$25 a year and requires them to keep posted with the city a bond of \$250 to back up their workmanship.

Wage Increases And Five Day Week Are Opposed by Contractors

There is nothing in the building outlook for the coming year to warrant wage increases and any effort to boost wage scales in next spring's agreements will be resisted by the contractors of the country was the unanimous decision reached after an all day conference of contractors held in Chicago on November 17th, under the auspices of the National Association of Building Trades Employers.

Many of the speakers at the conference pointed out that some of the contributing factors to the high cost of construction are the unjust and unnecessary practices which are imposed by certain of the building trades. Conservative labor leaders were called on to seriously consider this question and to eliminate these restrictions in agreements or working practices which add unnecessarily to the cost of building.

The conference was one of the most representative gatherings of contractors ever held and was attended by delegates from the following cities, New York, Chicago, Detroit, Cleveland, Pittsburgh, Wichita, Des Moines, Cincinnati, Birmingham, Denver, Milwaukee, Minneapolis, Akron, Grand Rapids, Springfield, Mass., Hammond, Ind., Indianapolis, Rochester, Niagara Falls, N. Y., Springfield, Ill., St. Louis, Kansas City, Madison, Wisc., and Washington, D. C.

The efforts of certain trades in some localities to extend the five-day working week was the subject of considerable discussion at the conference. The movement was characterized as an effort to bring about a still further artificial labor shortage and it was condemned as being unsound economically.

In addition to representatives from the local associations in the above cities, the following state and national contractor organizations were officially represented by delegates at the conference: The New York State Assn. of

Builders, Ohio State Assn. of Builders Exchanges, Associated Building Employers of Michigan, Associated Building Contractors of Illinois, Master Builders Assn. of Iowa, Associated Building Contractors of Indiana, Master Builders Assn. of Wisconsin, Master Builders Assn. of Kansas, The Minnesota Building Employers Assn., Master Sheet Metal Contractors of Wisconsin, the Associated General Contractors of America, the National Assn. of Builders Exchanges, the Tile & Mantel Contractors Assn. of America, the International Assn. of Master House Painters and Decorators of the United States and Canada, the Association of Electricians and Plumbers International, the National Assn. of Master Plumbers of the United States, National Assn. of Sheet Metal Contractors of the United States, Mason Contractors Assn. of the United States and Canada, Contracting Plasterers International Assn., Heating and Piping Contractors National Assn., National Assn. of Marble Dealers, National Slate Assn. and the National Builders Supply Association.

After a canvass of the local conditions in all the communities represented, the consensus of opinion was that the volume of building in 1926 will be within ten per cent of the 1925 record and may be either that much less or more. A summary of local labor supplies revealed that in most communities there were sufficient men with the exception of bricklayers and plasterers and in these two trades the shortage only existed at the peak of the building season.

A number of speakers called attention to the fact that lack of production on the part of the various trades constituted one of the biggest problems in the industry.

Apprentice training was discussed at some length and the contractors organizations that have failed to shoulder their part of the responsibility for the training of boys in the various trades were severely criticized.

tion but the latter organization is promoting also a great exposition of road building and maintenance machinery, methods, materials and appliances to be housed at the Chicago Coliseum the same week.

HARBOR COMMISSION NAMED

Oakland's Port Commission, to act in an advisory capacity, in the expenditure of the \$9,960,000 harbor fund, is announced by City Commissioner Leroy Goodrich. The commission consists of H. C. Capwell, Roscoe D. Jones, Stuart S. Hawley, R. A. Leet and E. H. Pendleton. Commissioner Goodrich announces that an amendment to the city charter will be sought to provide for real powers and authority for the commission.

GOOD ROADS WEEK

Various highway associations, motor clubs, commercial bodies and road contractors and material men's organizations have adopted resolutions pledging their support to the movement sponsored by the American Road Builders' Association, for the observance of "Good Roads Week" throughout the country, Jan. 11 to 15, inclusive. The local celebrations will be staged in conjunction with the great good roads convention to be held in Chicago that week attended by 30,000 delegates from governments, states, counties and cities in this and Pan-American countries. Not only will this convention and the "Good Roads Week" celebrations be held under the auspices of the Road Builders' Associa-

TRADE NOTES

M. E. Waugenheim has been named sales manager of the San Francisco district of the Standard-Pacific Sanitary Manufacturing Company, following the resignation of Miss A. M. Jackson. Ben F. Blair will act as sales representative among the wholesale houses of Northern California and A. J. Barberri will be in charge of the San Francisco warehouse of the Standard Sanitary Manufacturing Company.

L. C. Coombs has opened a San Francisco office for H. H. Chaffee of Los Angeles, representing the Imperial Brass Manufacturing Company, Watrous Division, the Chicago Faucet Co. and the Blake Specialty Co. Mr. Coombs has established headquarters at 741 Call Bldg. and will handle the Northern California territory.

Russell Cement Co., Gloucester, Mass., manufacturers of animal glues, pastes and cement adhesives, is having plans prepared for a two-story reinforced concrete plant in Howard street between Fifth and Sixth streets, San Francisco.

Interlocking Tile Corp., Cleveland, Ohio, announces the opening of two new offices on the Pacific Coast: one in Los Angeles, with George H. Rogers as district sales manager, and the other in San Francisco, with J. S. DeSilva, district sales manager.

The Western Pipe & Steel Company announces the change of its principal place of business from 1758 North Broadway, Los Angeles, to 444 Market street, San Francisco.

John Wylie, 5624 Kales Avenue, Oakland, will operate from 320 Fourth Street, Santa Rosa, under the trade name of Wylie's Paint and Wall Paper Store.

Celite Products Co., of Los Angeles, announces the appointment of James Reed as works manager in charge of the plant operations of the company at Lompoc and White Hills, Calif.

Pacific Pumping Co. has been incorporated in San Francisco with a capital stock of \$50,000. Directors are: L. S. Huntington, George and Alexander Ruxton.

H. A. Chalmers, contracting plasterer, announces the removal of his offices from 277 twenty-first avenue to Room 504 Williams Bldg., Third and Mission Sts., San Francisco.

E. M. Hunt, 415 Burk Street, Oakland, will operate under the trade name of Melrose Sash and Door Company.

C. S. Pierce Lumber Co. of Fresno plans to establish new yards with an 800-foot frontage in H street, served by the Southern Pacific Railroad.

Diamond Match Company of Chico is preparing to open lumber yards to be served by a Sacramento Northern Railroad spur in Oroville.

Alva O. Hoover will operate from 5254 Mission street, San Francisco, under the trade name of Active Electric Company.

L. C. Natenstedt will operate from 1801 Harrison St., San Francisco, under the trade name of United Cement Company.

Irrigation Development Desirable

After two years' study of the question whether irrigation in California is overdeveloped, and whether new irrigation enterprises should be encouraged or discouraged, a joint committee of the irrigation section of the Commonwealth Club (San Francisco) and of the San Francisco section of the American Society of Civil Engineering reports in favor of continued irrigation development without regard to the admittedly large surplus of idle irrigated land. The committee concludes, "Where local areas have reasonable opportunities for irrigation which they desire to develop, there is nothing in a general situation in regard to irrigation which should discourage such development." But they caution that "general or artificial stimulation of irrigation expansion should be carefully guarded against. Development costs should be kept well within the capitalized value of the net income practicable to obtain from ordinary farming operations—in general from diversified farming and field crops except in localities of proven advantages for specialized crops such as fruit or vine.

As an aid to sound development of irrigation, the committee recommends continued state investigation, particularly

of water resources and their development. It asserts that not all of the projects now in operation were justified or are successful, and points out that there is need for careful study and stimulation of wisely guided land colonization with many irrigation projects.

Statistics compiled by the committee indicate that (1924) California had irrigation works constructed and a water supply provided for about 6,800,000 acres of land, of which only 4,720,000 acres or 73.5 per cent were irrigated, so that 1,155,000 acres are idle though provided with irrigation facilities and water supply. The percentage of cultivated land for all of the irrigation states (1920 figures) is 73.9, with a total of 26,000,000 acres provided with water supply and about 19,200,000 acres actually irrigated and cultivated. The committee considers that on the basis of actual development history, an idle margin of about 25 per cent of uncultivated land seems normal and should not be considered as a discouragement to further irrigation.

The joint committee was headed by Fred H. Tibbets, and included B. A. Etcheverry, Thomas H. Means, C. H. Lee, J. R. Mason, W. A. Beard, and S. T. Harding.—Engineering News-Record

Lime-Cement Mortars Most Satisfactory in Cold Weather

Tests recently conducted at the University of Wisconsin, under the direction of the Engineering Society of that state, demonstrated that lime-cement mortars are most satisfactory for use in cold weather. Eight lime and portland cement mixes and four bricklayers' cements were tested under all storage conditions which approximated ordinary field construction curing conditions.

Mortar mixed in the proportion of 1 part of portland cement, 2 parts of lime, and 9 parts of sand by volume gave uniform satisfaction under both warm and cold storage conditions and had a high rating in shear, tensile and compressive strength. The high plasticity of this mix also played an important role in its selection as first on the list of mortars recommended by the committee.

The conclusions drawn by the committee in charge of this work are:

1. With all cements save one, freezing decreased the bond strength of the mortar to the brick. In most cases this decrease was very marked. In the exceptional case, where there was no apparent injury due to freezing the bond strength after curing in warm or freezing temperatures was very low.

2. Curing at low temperatures just above the freezing point of water adversely affected the bond strength to a less extent than during freezing temperatures.

3. Basing judgment on the unit stress at flaking of mortar, it appears that curing at temperatures near the freezing point had little effect on the crushing strength of the mortar in the bonded brick. On the other hand, freezing appears to have had a weakening effect on the crushing strength.

Properties of Cement-Lime Mortars

An increase in workability and possible reduction in cost are the principal reasons why lime might be used to advantage in cement mortars, according to results secured by the Bureau of Standards, Department of Commerce.

When lime plaster is gaged with cement, it still retains considerable of its former workability, and has gained in strength, while the time of set is reduced.

In this work the Bureau found that when cement paste and lime paste were brought to the same consistency, a much greater percentage of water was required by the lime than by the cement. With this relation holding, the percentages of mixing water in cement mortars and in lime mortars increased with a decrease in the percentage of sand. A cement mortar with lime added requires extra mixing water, but this extra water increases shrinkage possibilities, therefore lime

should be limited in cement mortars where it is desired to keep shrinkage low. It is possible to keep shrinkage low by the use of a high percentage of sand in any mortar.

The density of lean cement mortars may be increased by the addition of a small percentage of lime. Where the cement mortar is not richer than 1:2, the addition of lime may result in increasing the strength. The percentages of lime which may result effectively in these respects were found to increase with the leanness of the mortar. It is probable that the lime does more than act as a void filler in lean cement mortars, for it can carbonate and form a binder in the place of the missing cement.

It is not to be expected that these results will be duplicated exactly where other brands of materials or differently graded sands are used with different manipulation and under different storage conditions.

SANITATION LEAGUE ADOPTS CODE OF ETHICS

The California Sanitation Development League has adopted the following code of ethics:

To take pride and believe in our business which renders an essential service to the public, whose high regard we should at all time strive to achieve and retain;

To sell and install the highest quality of material, believing this to be a fundamental requirement of modern business;

To so conduct every transaction that the public will recognize and appreciate the superior service of the members of this League and know that its Emblem stands for the best in workmanship and material;

To place foremost among our business activities an interest in our organization, believing we can accomplish through our collective efforts and co-operation what no member could do alone;

To believe in our League as the very heart of our trade existence; that it is business insurance at insignificant cost; that it is the means by which our craft may place itself on record toward the accomplishment of its ideals; that it is the one thing above all others we can least afford to neglect;

To strive ever through co-operation to bring about the elevation of our industry by the correction of abuses and unethical practices in our business;

To solemnly pledge ourselves to support the League and attend its meetings, since we are benefited by it only as we give to it;

To extend our helpful guidance to the public so that its purchases may afford to it the utmost efficiency, comfort and satisfaction for the amount it may wish to invest, rather than strive for the mere accomplishment of a sale, always remembering that a satisfied customer is our best asset;

To endeavor to co-operate at all times with our fellow-members for the advancement of our craft in every possible way and to be willing to exchange our viewpoints freely whenever it is for the common good, keeping in mind that whatever is good for one is good for all;

To regard our civic obligations as important responsibilities meriting our thoughtful consideration as individuals, institutions and as a trade organization; doing our part in a manner befitting our position in the mercantile world;

Finally, to make every transaction a practical application of the Golden Rule, fulfilling each obligation to those from whom we buy, to those to whom we sell and to those with whom we compete.

TO ASK BIDS ON MILLION DOLLAR WATER SYSTEM

Bids will be asked by the city commission of Medford, Ore., about February 1 to construct the Big Butte Falls municipal water project which will include the construction of thirty-eight miles of steel pipe line from Big Butte Springs. The project is estimated to cost \$1,000,000. Bonds have been voted to cover the cost of construction.

PALO ALTO BUILDING

Palo Alto building permits for Nov. totaled \$144,600 as compared with \$86,690 for the corresponding month of 1924. Permits were issued last month for 23 residences costing \$113,000.

American Housing Need Still Acute—Homes Are in Demand Despite Record Construction

In its semi-annual statement, the American Construction Council, of which Franklin D. Roosevelt is president, says that the housing situation still is acute despite the record breaking year residential building has enjoyed.

The council finds there is lamentable lack of homes for the person of average means.

The statement reads: "Although 1925 has been a record breaking year in volume of building construction for most sections of the country, the first ten months of the year already exceeding the total of 1924, there is still a definite scarcity of suitable housing for persons of average means. The large volume of residential construction has not yet met the country's real housing need. City residential construction has been largely of higher priced apartment hotels and apartments of a speculative nature, and while suburban home developments of the colony type have been very active, they have too frequently been high in price or inferior in quality.

"The general situation as to housing, however, is such as to call attention forcibly again to the great need for proper planning, sounder financing and better construction of homes.

"Aside from residential work, public improvements and utilities and commercial buildings have played a relatively large part for many districts. Institutional buildings have also been active.

"Present indications point toward

increasing demand for industrial buildings. Building activity has been generally pronounced in outlying districts as well as in the large centers. Work contracted for and contemplated for winter schedule is much greater than usual this time of the year.

"Labor productivity has increased, reducing actual costs. Material prices have also continued relatively stable as a whole. Money for building purposes has been readily available in most localities.

"These facts point to continued stability in operations for the industry as a whole, and the council urges that all new work possible for the winter season should be undertaken and carried to completion so as to avoid a spring congestion. The public should be doubly cautious, however, as to the character of construction it accepts for its money. There are evidences in some localities that the element of caution is already curtailing speculative operations.

"Construction of highways has in many sections been going forward rapidly. Development of suburban districts has brought a serious traffic problem before the country. Broader city planning and zoning taking into account needs of the future for years to come is paramount. More and better highways to handle traffic between outlying districts and metropolitan centers are large factors in the development of national economy and should receive encouragement."

Wind Pressure on Building Model Determined by Standards Bureau

The average wind pressure on a tall building when the wind is blowing at 76 miles per hour (100 miles per hour, as shown by a Weather Bureau, Robinson type anemometer) is about 22 pounds per square foot, according to results obtained by the Bureau of Standards, Department of Commerce. The value which is commonly used is 30 pounds per square foot. This would correspond to a true wind speed of about 88.5 miles per hour (118 miles per hour indicated speed). Gusts of this speed have only been observed in a few cities, such as New York and St. Paul.

These results were obtained by measuring the force of the wind on a model of a tall building mounted in the large outdoor wind tunnel of the Bureau. This tunnel is 10 feet in diameter, and in these experiments winds up to 70 miles per hour were produced, values for higher speeds being obtained by extrapolation. By means of small openings in the face and top of the model which were connected to a pressure gauge, the pressures produced by the wind at various parts of the structure were measured. These measurements were made at 70 places on the face of the model and at 49 places on the top, with the wind coming from 13 directions, varying from directly against one face to directly against the opposite face. Of course, in this work the wind always comes from one direction, and the model is turned on its mounting. The pressure obtained were then multiplied by the appropriated areas to

give the total force on the model under the different conditions. The forces tending to overturn and to twist the model were also computed.

This work was undertaken because of the many inquiries received by the Bureau concerning wind pressures on buildings. The same experimental methods were employed which have been found so useful in the investigation of air forces on airplanes.

It has always been recognized that in the design of engineering structures such as tall buildings, bridges, chimneys, transmission lines, radio masts, etc., it is necessary to make provision for the stresses produced by the pressure of high winds. However, the values of the forces produced by the wind used by engineers in structural design are based on experiments made a great many years ago by methods which are now known to be subject to large errors, and on models which do not resemble actual structures. Many engineers have felt that these old values are too large, and that many structures are made stronger than is necessary, and therefore cost more than they should.

The Bureau has determined the actual pressure corresponding to a given wind velocity. There still remains the problem of determining what wind velocity to use in designing a structure. Obviously, a higher velocity ought to be assumed in designing a building facing the lake front in Chicago than for a building in the downtown section of Washington.

APARTMENTS

Plans Being Prepared.
APT. HOUSE Cost, \$200,000
SACRAMENTO, On American River.
Nine-story class A community apartment house (9 apts.)
Owner—P. J. Wentz.
Architect—Eugene J. Seadler, Mitau Bldg., Sacramento.

Plans Being Completed.
APARTMENT BLDG. Cost, \$400,000
SAN FRANCISCO, N E Jackson and Steiner Sts.
Ten-story and basement and sub-basement class A steel frame and concrete apartment bldg. (10 apts.)
Owner—Thomas Hamill & H. G. Hall, Inc., 6140 Geary St., S. F.
Architect—C. A. Muesdorffer, 802 Humboldt Bank Bldg., S. F.
Bids will be called for in 2 or 3 weeks.

Sub-Figures Being Taken.
APT. BLDG. Cost, \$35,000
SAN FRANCISCO, Orchard St., nr. Merritt Hospital.
Three-story frame and stucco apartment building.
Owner—Withheld.
Architect—Clay N. Burrell, 250 Grand Oakland.
Contractor—Sommarstrom Bros., 1536 Franklin St., Oakland.

Plans Being Prepared.
APARTMENTS Cost, \$200,000
OAKLAND, Downtown district.
Five-story steel frame and brick apartment house.
Owner—Withheld.
Architect—Clay N. Burrell, 250 Grand Oakland.

Plans Complete.
APARTMENTS Cost, \$14,000
SAN FRANCISCO, NE 10th Ave. and Lawton Street.
Three-story and basement frame (6) apartments.
Owner—A. Schaefer.
Architect—E. A. Neumarkel, 544 Market Street.

Plans Complete.
APARTMENTS Cost, \$12,000
SAN FRANCISCO, SW Oak and Laguna Streets.
Three-story and basement frame (9) apartments.
Owner—H. Eiben, 335 Laguna Street.
Architect—J. C. Hladik, Monadnock Building.

Plans Being Prepared.
APARTMENT HOUSE Cost, \$100,000
SAN FRANCISCO, Northeast corner of Van Ness Ave. and Filbert St.
Five-story reinforced concrete apartment house (30 two- and three-room apartments).
Owner—Marian Realty Co., 110 Street, San Francisco.
Architect—H. C. Baumann, 251 Kearny Street, San Francisco.

Plans Being Prepared.
APARTMENTS Cost, \$300,000
SAN FRANCISCO, Jackson Street, West of Laguna.
Fourteen-story class A community apartments (1 apartment of nine rooms with 3 baths to each floor).
Owner—Theodore Meyer.
Architect—H. C. Baumann, 251 Kearny Street, S. F.
Segregated figures will be called for in about one week.

Working Drawings Being Prepared.
APARTMENT BLDG. Cost, \$30,000
PITTSBURG, Contra Costa Co., Cal.
Three-story frame and stucco apartment building (6 3-room apts.)
Owner—Withheld.
Architect—E. P. Whitman, 192 Main St., Hayward.

Plans Being Completed.
APARTMENT HOUSE Cost, \$50,000
SAN FRANCISCO, 24th Street.
Three-story frame and brick veneer apartment house to contain 12 two-room apartments.
Owner—Woolfrey & Sheehan, 109 Sutter St., San Francisco.
Architect—H. C. Baumann, 251 Kearny Street, San Francisco.
Mr. Baumann will call for figures for a general contract.

Owner To Take Figures.
APT. HOUSE Cost, \$60,000
SAN FRANCISCO, Alhambra & Scott Streets.
Three-story frame, stucco and brick veneer apartment house, 18 two- and three-room apartments.
Owner—M. P. Storheim, 201 Caselli Street.
Architect—H. C. Baumann, 251 Kearny Street, San Francisco.

Plans To Be Out Shortly.
APARTMENT HOUSE Cost, \$40,000
SAN FRANCISCO, North side of Greenwich Street, West of Gough.
Three-story frame and stucco apartment house to contain 12 apartments.
Owner—Wm. Hoffman, 1931 Oak St., San Francisco.
Architect—H. C. Baumann, 251 Kearny St., San Francisco.

To Be Done By Day's Work.
APARTMENTS Cost, \$20,000
SAN FRANCISCO, B Leavenworth 60 N Broadway.
Three-story and basement frame (12) apartments.
Owner—Hind Building Co., 609 French Bank Bldg., S. F.
Architect—W. G. Hind, 609 French Bk. Bldg., S. F.

Preliminaries Being Prepared.
APARTMENTS Cost, \$750,000
SAN FRANCISCO, N-S Pacific Ave. 69 W of Laguna.
14-story class A community apartment (14 apartments).
Owner—E. Tropp, 129 Sutter St., San Francisco.
Architect—Hyman & Appleton, 68 Post Street, San Francisco.
NOTE—There is to be 30 feet of landscape gardening between the above planned building and the Pacific Laguna apartments now under course of construction also belonging to Mr. Tropp.

Plans Complete.
APARTMENTS Cost, \$75,000
SAN FRANCISCO, N Sacramento 60 W Franklin.
Four-story and basement concrete (10) apartments.
Owner—Louis D. Stoff, 26 Montgomery Street.
Architect—H. C. Baumann, 251 Kearny Street.

To Be Done By Day's Work.
APARTMENTS Cost, \$45,000
SAN FRANCISCO, S Bush 137 W Hyde Street, San Francisco.
Four-story class C reinf. concrete (24) apartments.
Owner—L. Blum, 180 Jessie St.
Architect—None.

To Be Done By Day's Work—Plans Completed.
APARTMENTS Cost, \$36,000
OAKLAND, Alameda Co., Cal. Hopkins St., near Bruce St.
Three-story frame stores and apartments.
Owner—Claus A. Tornell, 339 15th St., Oakland.
Architect—John Carl Thayer, 339 15th St., Oakland.

LOS ANGELES, Cal.—Arthur Le Brun & Co., 5656 Hollywood Blvd., has revised plans and is taking new bids for a 3-story 70-rrm. 30-apt., lobby and part basement apt. bldg.

Contract Awarded.
APARTMENTS Cost, \$15,000
OAKLAND, Alameda Co., Calif. N Greenwood Ave. 250 W Hampel.
Three-story 20 room frame and stucco apartments.
Owner—Henry Tweed, 4035 Greenwood Ave., Oakland.
Architect—None.
Contractor—National Builders, 1123 Hampel St., Oakland.

To Be Done By Day's Work.
APARTMENTS Cost, \$18,000
OAKLAND, 659 Wesley Ave.
Two-story 19-room frame apartments.
Owner—John Field, American Bank Bldg., Oakland.
Architect—None.

To be Done By Day's Work—Plans Completed.
APARTMENTS Cost, \$50,000
OAKLAND, Alameda Co., Cal. No. 3331 Broadway.
Four-story frame apartments.
Owner—Claus A. Tornell, 339 15th St., Oakland.
Architect—John Carl Thayer, 339 15th St., Oakland.

LOS ANGELES, Cal.—Globe Investment Co., 5562 Hollywood Blvd., has had plans prepared and will erect a three-story Class C apartment house at 1717 N. Normandie Ave., for itself; 76 rooms, 30 apts.; 48x150 ft., brick walls, pressed brick facing, wrought iron, composition roofing, metal skylights, pine trim, oak and pine floors, tiled baths, wall beds, gas radiators, water heaters; \$100,000.

LOS ANGELES, Cal.—Samuel F. Bard & Co., Chamber of Commerce Bldg., have contract and desire sub-bids for 4-story and basement Class C apartments at southwest corner of Seventh St. and Gramercy Place for Albert J. Eyraud; plans by L. A. Smith, Film Exchange Bldg., Vermont Ave. and Washington St.; 50 single apartments and 24 bachelor apartments, large dance hall; \$245,000.

LOS ANGELES, Cal.—Architects L. L. Jones and E. Van den Hoven, 620 Grosse Bldg., are preparing plans for a 13-story Class A apartment building at the southeast corner of Hollywood Blvd. and La Brea Ave. for H. H. Abernathy; reinforced concrete construction, 78x106 feet, 308 rooms, arranged in suites of one to five rooms each; pressed brick and terra cotta facing, marble and tile work, hardwood and pine trim, elevators, steam heating, wall beds, refrigerating system; \$1,000,000.

GOVERNMENT WORK AND SUPPLIES

SAN FRANCISCO—Until Dec. 18, 11 a. m., bids will be rec. by U. S. Engineer Office, 85 2nd St., under Order No. 6450-804, to fur. and del. Rio Vista, Solano county, miscellaneous castings. Lists of materials desired obtainable from above office on request.

PEARL HARBOR, T. H.—Bids will be asked in immediate future by Bureau of Yards and Docks, Navy Department, under Specification No. 5149 for extension to Administration Building at Naval Operating Base, Pearl Harbor, involving reinforced concrete and plain concrete; hollow tile; steel and iron work; wood roof framing; flooring, sleepers, galvanized corrugated steel roofing; copper gutter and downspouts; plumbing; electric light system and telephone conduits; vault doors; marble and terrazzo; hardware; painting and glazing. Work will also include rearrangement of interior partitions, removing stairs to new portion and the necessary repairs to floors and walls of existing building. The extension consists of one lanai bay to the north west end and 12 bays to the south east end of the present building. See notice under official proposal section in this issue.

SAN FRANCISCO—Until Dec. 14, 11 a. m., bids will be rec. by U. E. Engineer Office, 85 2nd St., to fur. and del. Rio Vista, Solano county, lumber. Lists of materials desired obtainable from above office on request.

PEARL HARBOR, T. H.—Until Dec. 16, 3:30 P. M., bids will be rec. by Bureau of Yards and Docks, Navy Department, to erect diamond mesh, wire fencing and posts spear heads and rails, etc., at Naval Operating Base, Pearl Harbor. Specification No. 5147.

SAN FRANCISCO—Mrs. Florence Kahn, congresswoman from California, seeks \$75,000 appropriation to renovate the old Appraiser's Building in San Francisco and for \$1,000,000 to finance erection of new Federal Building.

SAN FRANCISCO—See "Harbor Works and Excavations," this issue. Bids opened by U. S. Engineer Office, for dredging in Sacramento river below Rio Vista.

SAN DIEGO, Cal.—Ira M. Johnson, 5435 California St., San Diego, at \$7992 time for completion 180 days, awarded cont. by Bur. of Yards and Docks, Navy Dept., for pile driver, under spec. 5153.

WASHINGTON, D. C.—Until Dec. 23, 10:30 a. m., bids will be rec. by Purchasing Officer, Panama Canal, under Circular No. 1712, to fur. and del. Balla (Pacific Port); transformers, batteries, ignition cable, driving-wheel tires, splice bars, gasoline engines, grinders, range boilers, steel cabinets, bolts, nuts, rivets, paints, varnishes, putty, bituminous solution, linseed oil, creosote oil, coal-tar pitch, copper sulphate, brooms, brushes, mop heads and handles, pails, fire hose, lumber. Further information obtainable from Assistant Purchasing Agent, Fort Mason, San Francisco.

PUGET SOUND, Wash.—W. A. Parker, Bremerton, Wash., at \$32,819, time for completion 180 days, awarded cont. by Bureau of Yards and Docks, Navy Dept., to erect one-story storehouse at naval ammunition depot, Puget Sound.

WESTPORT, Wash.—Bids are being rec. (date not set) by Supt. of Light-houses, Portland, Ore., to c. nst. rein. conc. fog signal at Grays Harbor Light Station, Westport, Wash.

SAN DIEGO, Cal.—See "Harbor Works and Excavations," this issue. Award of contract for dredging at San Diego.

PACIFIC COAST—Appropriation of \$35,062,965 for river and harbor improvements throughout the U. S. during the fiscal year ending June 30, 1927, are recommended in the annual report of Major General Harry Taylor, chief of engineers of the Army. Pacific Coast appropriations are recommended as follows:

S. F. Bay District
San Francisco harbor, maintenance, \$110,000;
Redwood creek, maintenance, \$500.
Oakland harbor, maintenance \$310,000.
Richmond harbor, completion \$864,000; maintenance, \$30,000.
Monterey harbor, completion, \$600,000.
San Pablo bay and Mare Island strait, completion, \$296,400; maintenance, \$250,000.
Suisun bay channel, maintenance, \$20,000.
Suisun channel, maintenance \$1000.
Los Angeles District
San Diego harbor, completion \$149,000; new work, \$119,000.
Los Angeles harbor, completion, \$10,752,700; new work, \$1,800,000.
San Luis Obispo harbor, maintenance, \$20,000.
Portland District
Columbia and lower Willamette rivers below Vancouver, Wash., and Portland, Ore., completion, \$1,085,200;

maintenance, \$430,000; new work, \$60,000.

Willamette river above Portland and Yamhill rivers, Ore., completion \$53,990; maintenance, \$26,000.

Seattle District
Puget sound and its tributary waters, maintenance, \$23,000.
Seattle harbor, completion, \$182,500; maintenance, \$56,000.
Lake Washington ship canal, completion, \$352,000; maintenance, \$14,000.

WASHINGTON, D. C.—Bids are being received by Bureau of Supplies & Accounts, Navy Department, to furnish and del. materials to Navy Yards and Station, the date for opening bids as noted at close of each paragraph: (Further information regarding the Schedules may be obtained from Navy Purchasing Office, 310 California St., San Francisco.)

Sched. 4744, various yards, 29,174 lbs., Portland cement, Dec. 15.

Sched. 4748, Mare Island, 51,000 lbs. mutiatic acid; Puget Sound, 5000 lbs. do.; Mare Island, 400 lbs. nitric acid; Mare Island, 3600 lbs. do.; Mare Island, 2000 lbs. sulphuric acid; Mare Island, 19,080 lbs. do.; Mare Island, 400 lbs. hydrofluoric acid, and Puget Sound, 900 lbs. do., Dec. 15.

Sched. 4749, Puget Sound, 9 ship lavatories; Mare Island, 108 lavatory faucets, 6 distributing cocks and 16 floor drains; Puget Sound, 4 urinals, and Mare Island, 24 controlling valves, Dec. 15.

Sched. 4757, Mare Island, counter-sinks and twist drills, Dec. 15.

Sched. 4758, eastern and western yards, copper steam hose, Dec. 15.

Sched. 4759, eastern and western yards, linen fire hose, Dec. 15.

Sched. 4766, eastern and western yards, 13,000 lbs. spun oakum, Dec. 29.

Sched. 4761, eastern and western yards, steel boiler tubes, Dec. 29.

Sched. 900-163, Mare Island or contractor's works, vacuum tube transmitters, Dec. 30.

HALLS AND SOCIETY BUILDINGS

Contract Awarded

Letters of commendation and checks have been received. It was announced at police headquarters yesterday, for Policeman James Cudmore of Traffic A, who stopped traffic on Lafayette Street at Franklin Street six times in order to let a mother cat carry her family one at a time by the back of the neck to the other side of the street.

"His kindness to this cat is greatly appreciated in an age when there is not so much humane treatment of animals as you and I could wish," wrote General McC. Reeve of Minnetonka Beach, Minn., former chief of police at Manila, in including \$10.00 for the policeman.

Another check of \$5.00 was sent for the policeman by Mrs. Jane Chamberlain of Jackson Heights, L. I.—From New York Times, New York City.

THE WORLD is full.

OF HUMAN kindness.

IF WE only look for it.

FOR SOME time ago.

NEAR SANDY Pratt's sand plant.

ON THE American River.

AT SACRAMENTO.

A SACRAMENTO-Northern engineer.

STOPPED HIS passenger train.

AND CALLED to the employees.

OF SANDY's sand plant.

THAT TWO puppies.

WERE ON the big bridge.

AND MIGHT fall.

INTO the water.

OR BE killed.

IF HE moved his train.

SO TOM, who washes sand.

SHUT DOWN the plant.

CAUTIOUSLY CLIMBED the bridge.

RESCUED THE two pups.

THUS A train load.

OF BUSY people.

HAD TO wait.

AND THE entire sand plant,

OF SANDY Pratt, president.

OF THE Pratt Building Material Co.

WITH SAND and rock plants.

AT MARYSVILLE, Sacramento.

PRATTROCK (NEAR Folsom).

AND PRATTCK (Monterey County).

WAS CLOSED down.

THEY NAMED the friendless pups.

"TOM" AFTER the rescuer.

AND "SANDO" (meaning Pratt's sand).

AND IF "Tom" and "Sando."

COULD ONLY talk.

THEY WOULD say.

"I THANK you."

Both "Tom" and "Sando," the two puppies, found a welcome home and Sandy Pratt, producer of sand, rock and gravel, was glad his sand plant was shut down to rescue the pups.

Permit Applied For.

Architects—Engineers— City and County Officials

How about bids wanted?

Are you satisfied with the bids you received on that last job?

Did you have competition—and plenty of it?
If not—why not?

Without charge the BUILDING & ENGINEERING NEWS will place your job before the construction interests of the Pacific Coast. That means competition and—competition means the lowest possible bid.

If you want competition send particulars of your job to BUILDING & ENGINEERING NEWS—also a set of plans and specifications.

Reach the *Independent Bidder* through the columns
of BUILDING & ENGINEERING NEWS

The combined news services of BUILDING & ENGINEERING NEWS have a circulation of

3340

—reaching the Engineer, Contractor and Material Dealer.

Can you reach one quarter the amount of interested people through any other news service published in this section? We think not—in fact, we know you cannot.

If you want *competition*—if you want *independent* contractors to figure your job—if you want the *lowest possible bid*—send particulars of your project to

Building & Engineering News

9776—Burlingame, Cal. Business man returning to Vancouver in the near future desires to act as selling agent for a California manufacturer wishing representation in California.

9777—Colusa, Cal. Gentleman having excellent business ability and experience is making a trip to the South Sea Islands, New Zealand and Australia early in 1926 and is in a position to undertake business transactions for San Francisco firms in the Antipodes.

He is thoroughly conversant with business methods and customs prevailing in the Antipodes and would be capable of handling the sale of products of American manufacturers and producers, making investigations as to possible commercial openings, report on trade conditions, the possibility of introducing new lines, etc.

WARD HEATER COMPANY TO PLAY SANTA CLAUS TO EMPLOYEES

Yuletide gifts will be distributed this year by the Ward Heater Company, of Oakland, in the form of cash bonuses, ranging from 10 to 20 per cent of the annual salaries to all employees who have worked a year or more for the concern, according to announcement made by Samuel Sproat, president of the concern.

"This action was decided upon after we had completed preparation to boost our production schedules for the Pacific Coast of 1926 to \$2,500,000, a preliminary step toward transferring all our manufacturing operations to the Pacific Coast," Sloat declared.

According to Sproat's announcement all employees of one year's service with the company will receive 10 per cent of their salaries, in the form of a cash bonus at Christmas time. Employees of two years' standing will get 15 per cent of their salary, while a bonus of 20 per cent will go to those who have worked for the company five years or longer.

"Most of this sum to be distributed will be invested in California homes," Sproat said. "Ninety-six per cent of our employees are married and 83 per cent either own their own homes or are buying them on the installment plan we found in a recent survey."

OIL BURNER BULLETIN

A twenty page bulletin covering the methods and procedure in oil burner testing wherever the burners are fired under boilers or in warm air heating plants, has been issued by the American Oil Burner Association, 350 Madison Avenue, New York, N. Y. The bulletin discusses such theoretical considerations as are needed for the practical application of the methods and procedure given, which apply for both industrial and domestic burners. One of the principal purposes of preparing the bulletin was to provide under one cover all the important tables and formulae needed in testing burners, so that those in charge of the test need not suffer the usual annoyance and loss of time due to having to use a number of handbooks or references.

Emphasis is laid on the heat balance method of test for domestic burners. By this method, with simple apparatus and few observations, the operating efficiency of an oil burner can be learned quickly with a sufficient degree of accuracy for most purposes, the bulletin states. A chart for quick determination of losses in oil combustion which will prove particularly useful is included in this manual of testing. Copies may be secured from the Association Headquarters at 75 cents each, payment to accompany the order.

OLD MISSION CEMENT COMPANY TO ENLARGE PLANT

President Humphrey of the Old Mission Portland Cement Co., in his annual report to stockholders, reported a healthy growth of the company, as evidenced by increased sales and production, compared with 1924, and emphasized the fact that the outlook for the cement industry is good generally.

Commenting upon the affairs of the company during the year, he said that the capacity of the company's mill at San Juan Bautista is taxed to the limit, adding that the company expended \$250,000 last year for improvements and extensions, while \$750,000 additional will be expended during 1926 to increase the plant capacity to approximately 1,500,000 barrels a year, a program decided upon at the last annual meeting.

Official Proposals

NOTICE TO CONTRACTORS

(Furniture—Alameda County Highland Hospital)

Office of the Clerk of the Board of Supervisors, Alameda County, Calif.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, at his office, until Monday, January 4th, 1926, at 10:30 o'clock A. M. (the day when said bids will be opened and the contract awarded) for the purchase of certain furniture for use at Highland Hospital of Alameda County, situated at 14th Avenue and Vallecito Place, Oakland, California. Specifications are on file in the office of the County Clerk open to inspection. Copies may be obtained by applying to the County Clerk of Alameda County.

Each bid must be accompanied by a check for at least ten per cent of the total amount of the bid or proposal, certified to by some responsible bank, and made payable to Geo. E. Gross, Clerk of the Board, to be forfeited to the County of Alameda in the event of liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the Contract.

(Seal) GEO. E. GROSS,
Clerk of the Board of Supervisors of the County of Alameda.

NOTICE TO CONTRACTORS

State Board of Harbor Commissioners
Office of the Board of State Harbor Commissioners, Union Depot and Ferry House, San Francisco, California, December 4, 1925.

Sealed proposals or bids will be received at this office at or prior to 2 o'clock p. m., Thursday, December 17, 1925, for furnishing materials and constructing a Crab and Salmon Market Building at Fishermen's Basin, on the waterfront of the City and County of San Francisco, in accordance with plans and specifications adopted by the Board December 3, 1925, and on file in this office, to which special reference is hereby made.

The work to be done under these specifications consists in removing such portions of existing structures as are within the lines and which interfere with the construction of the new work, furnishing all necessary materials (excepting Portland cement, which will be furnished to the contractor), labor, tools, machinery and equipment for the construction of a Crab and Salmon Market Building.

The materials to be used in this work shall consist of the requisite quantities of Portland cement (which will be furnished to the Contractor by the Board), hydrated lime, sand, metal lath, structural steel, Douglas fir lumber, pine lumber, redwood lumber, steel fastenings, galvanized iron, window glass, plumbing materials, painting materials, roofing materials, etc. The Portland cement will be furnished to the Contractor by the Board. All other materials shown on the plans or called for in these specifications shall be furnished by the Contractor.

No bid will be received unless it is made on a blank form furnished from this office and is accompanied by a certified check for an amount equal to five (5) per cent of the amount of the proposal, to be made payable to the Secretary of the Board, conditioned that if the proposal is accepted and the contract awarded, and if the bidder shall fail or neglect to execute a contract, and give the bond required within six (6) days after the award is made, in that case the said sum men-

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

tioned in said check shall be deemed liquidated damages for such failure and neglect, and shall be paid into the San Francisco Harbor Improvement Fund.

Bids will not be considered by the Board unless delivered to the Secretary or to the Assistant Secretary, at the office of the Secretary, Room No. 17, Union Depot and Ferry House, at or prior to 2 o'clock p. m., on Thursday, December 17, 1925, at which time and place the bids will be publicly opened. The Board reserves the right to reject any or all bids if deemed for the best interests of the State.

Plans and specifications for this work to be had at Room 18, Union Depot and Ferry House upon depositing \$10.00 for same which will be returned on return of plans and specifications.

Bidders are requested to mark envelope containing bid: "Bid for constructing a Crab and Salmon Market Building."

WM. A. SHERMAN,
M. F. COCHRANE,
JOHN B. SANFORD,
Board of State Harbor Commissioners.
FRANK G. WHITE,
Chief Engineer.

NOTICE TO CONTRACTORS

(Specification No. 5149—Bureau of Yards and Docks)

The Bureau of Yards and Docks invites attention to the fact that it will open bids, in the near future, on Specification No. 5149, "Extension of Administration Building, Naval Operating Base, Pearl Harbor, T. H." The work includes plain and reinforced concrete; hollow steel and iron work; wood roof framing; flooring, sleepers, doors, sash and trim; plaster on metal lath; galvanized corrugated steel roofing; copper gutters and downspouts; plumbing; electric light system and telephone conduits; vault doors; marble and terrazzo; hardware; and painting and glazing. The work also includes the rearrangement of interior partitions, removing stairs to new portion and the necessary repairs to floors and walls of the existing buildings.

QUANTITY SURVEYOR

Valuation Engineer
ARTHUR FRIDDLE
693 Mission Street, at Third St.
San Francisco, Calif.
Telephone Douglas 8-4-9-3
General Listing Bureau
Architect's Preliminary Estimates

ing. The extension consists of one lanai bay to the northwest end and 12 bays to the south east end of the present building, with details in general similar to those of existing work.

In the event that this work is of interest to your firm, you should forward to the Bureau of Yards and Docks, Navy Department, Washington, D. C., to the Commandant, Naval Operating Base, Pearl Harbor, T. H., or to the Commandant, Navy Yard, Mare Island, Calif., a check or postal money order for \$20, payable to the Chief of the Bureau of Yards and Docks as security for the safe return of the drawings and specifications.

Inasmuch as the specifications and accompanying drawings are nearing completion, it is requested that you submit your application as soon as practicable in order that the bidding data may be forwarded when the specifications are received from the printer.

Prospective bidders on the West Coast should make application at the Navy Yard, Mare Island, Calif., for the bidding data.

STATE OF CALIFORNIA

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock p. m., on December 21, 1925, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway, as follows:

Imperial County, across the Sand Hills (VII-imp-27-B), about six (6.0) miles in length, to be graded and paved with portland cement concrete or with asphalt concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

HARVEY M. TOY,
LOUIS EVEREDING,
N. T. EDWARDS,
California Highway Commission.
R. M. MORTON,
State Highway Engineer
W. F. MIXON, Secretary.
Dated: November 23, 1925.

AUTOMOBILE INDUSTRY IS TOPIC FOR LUNCHEON

Today will be Automobile Association Day at the regular weekly luncheon of the Builders' Exchange Luncheon Club in the Palace Hotel. The question to be discussed will be "Is the Automobile Industry Out of Proportion".

At the last luncheon, Plumbing and Heating Craft Day, R. G. Guyett, insurance broker, presided and Jos. Ahlback of the firm of Ahlback and Mayer acted as chairman of the day.

The prize drawing was won by Bill Itaney, Jr., brick contractor and Thos. Leary, Pacific Coast Manager for the Mueller Manufacturing Company. Both failing to be present at the drawing, the prize was awarded to E. G. Guiles of the U. S. Metal Products Company.

Entertainment was furnished by the California Sanitation Development League which opened with a song by Mrs. Victor Peterson, wife of Victor Peterson, plumbing and heating contractor. Mrs. Peterson was accompanied by Miss McLaughlin.

Following this the club was entertained by W. R. Farlow, show room manager for Holbrook, Merrill and Stetson, who impersonated an old colored mammy giving a youngster a bath in a modern bathroom.

The luncheon closed with a song by Mr. and Mrs. Peterson, followed by De Peyser and Bobba, street musicians and a brief talk by Wm. H. George, president of the Builders' Exchange, who outlined the purposes of the luncheon club.

ST. MARY'S COLLEGE WILL REMAIN IN OAKLAND

An offer from Los Angeles to provide a site and underwrite a \$3,000,000 building program for St. Mary's College, now located in Oakland, has been rejected by the officials of that institution. The officials admit receiving a similar offer before, but indicate no tendency to consider the school's transfer.

ENGINEER RECOVERATING

Raymond Witt, city engineer of Chico, convalescent from a recent illness, will spend two weeks at Richardson Springs before assuming his official duties as city engineer of Chico.

KOEHRING DANDIE Light Mixer

**Four-cylinder
Gasoline
Engine**

FAST! Fast! Fast! Here is a light mixer with a speedy charging skip, liberal drum dimensions and a high speed discharge that will break all your records of putting concrete where it pays you profits!

Just the balanced light weight to haul behind your truck on its rubber tired disc wheels and get from job to job in a big hurry.

Four cylinder, radiator cooled, gasoline engine. Transmission from engine to drum enclosed in oil bath! Double gear drum drive, chilled, beveled gears! Drum rollers fixed to shafts revolving in big bearings!

It's useless to try to give you the smallest idea of what this Dandie represents in superior speed and construction details — but it's *strong, rugged* — it will stand-up for all the punishment you can give it, and *work and work, and work!*

And you have a chance to buy at a price that gives you all the benefit of the economies the Koehring Company effect by big, standardized production! If you had half an idea of what this mixer means in the way of actual value, you would send back the coupon for full detail by next mail!

Koehring Dandie — 7 cu. ft. capacity mixed concrete. High speed charging skip, or low charging hopper with hinged steel framed platform which may be folded against mixer for hauling. Discharged from either side of mixer.

4 cylinder gas engine, radiator cooled, or optional two cylinder engine, hopper cooled. Drum drive transmission in oil bath. Maybe equipped with *automatic water measuring tank*, and *Light Duty Hoist*.

**Send Back this
Coupon!**

HIGHWAY CONSTRUCTION TOTAL
FOR 1925 IS \$37,926,706

California cities and counties strongly favor good roads. A report by State Controller Ray L. Riley on the financial transactions of municipalities and counties for last year reveals that these political subdivisions spent \$37,926,706 for roads, streets and bridges.

The counties expended in construction of new highways and bridges \$21,616,340, while the cities contributed \$16,304,366 worth of new streets, alleys, curbs and gutters.

Los Angeles city spent \$4,351,757 in street work, and the county's highway bill for the year was \$3,821,235. San Francisco city and county paid out \$1,896,805 for streets.

Sacramento city spent \$495,794 for new streets and improvements, while the county added to her highway mileage \$506,882 in new roads.

Riley's report also shows that the cities and counties own \$672,335,518 worth of property, \$435,836,465 of which is claimed by the municipalities.

Municipal service enterprises in the 264 cities are valued at \$221,896,041, parks are listed at \$70,742,702, fire department equipment \$18,320,859, and city halls \$18,202,927.

School property owned by the counties is appraised at \$178,064,567, court houses \$20,144,444, and jails \$2,865,742,

SCARCITY OF HIGHWAY ENGINEERS TO BE DISCUSSED

The great scarcity of highway engineers, due to America's extraordinary road and street building program for which nearly one and one-half billion dollars is being spent annually by the Federal government and the states, counties and cities, will be one of the subjects to receive thorough consideration at the mammoth good roads convention to be held in Chicago, January 11 to 15. The convention will be composed of from 25,000 to 30,000 highway officials, engineers, contractors, manufacturers of road building equipment and material men, as well as good roads advocates generally and will be held under the auspices of the American Road Builders' Association.

The demand for good highway engineers is so heavy and the supply so limited that highway officials are confronted with a serious problem. Road material interests have already taken cognizance of the situation and are planning the establishment of temporary schools for training young men to become highway engineers. The field is a lucrative one and young engineers now graduating from highway engineering courses at technical schools are finding splendid positions immediately open to them at good salaries.

Discussing the need for more highway engineers, Charles M. Upham, state highway engineer of North Carolina; business director of the American Road Builders' Association; convention manager of the coming good roads meeting, and director, Highway Research Board, National Research Council, declares that he is at a loss to understand why more college students do not take up highway engineering.

SNAKE RIVER DAM PROJECT IS APPROVED

Secretary Work has approved the construction of a super-dam at American Falls, on the Snake River, west of Pocatello, Idaho.

The secretary approved the larger Idaho project in preference to a smaller one after he had been informed that the president and the budget bureau favored an appropriation of \$1,600,000 for the dam. The foundation for the dam, already under construction, is designed to permit construction of either of the proposed projects.

Construction of the larger dam, which will have a capacity of 1,700,000 acre feet of water, was recommended to the interior secretary by a delegation of house members headed by Representative Smith, Republican, Idaho.

Demand for water in the American Falls section of the state was increasing so rapidly, they said, that the interest of economy would best be served by construction of the bigger dam. The smaller one called for a capacity of 1,045,000 acre feet.

TALL BUILDINGS ARE SAFER IN EARTHQUAKE ZONE

Tall steel buildings are safer than structures of 100 feet in height during earthquakes, in the opinion of Dr. Bailey Willis, professor emeritus of geology at Stanford, and seismologist.

This view, contrary to the general conception of the layman, is supported by Dr. Willis on the theory that the period of swing in a building of more than 200 feet does not coincide with the earthquake's period of swing, and, hence, the inertia of the building mass stops jerking when the theoretical pendulum passes.

A building 100 feet high swings with the earthquake and this receives the maximum jerk when the subterranean pendulum changes its swing, he said.

"There is almost no danger in the ordinary light dwelling house unless the chimney comes through the roof," Dr. Willis continued. "The most dangerous place is on the outer edge of the sidewalk and the adjoining part of the street, where store fronts and heavy cornices will strike."

The safest places are in doorways and against walls, he said.

1925 STEEL PRODUCTION TOPS 1921 OUTPUT

Steel output in 1925 is well above the production of 1924.

According to data collected by the United States commerce department, production this year topped that of 1925 each month from April to October, inclusive. During February and March, the output of 1924 was greater than that of the corresponding months of this year.

During the summer period, however, the 1924 production went below that of even 1923. But during the summer of 1925, output was comparatively high.

October production this year 39 per cent above 1913 while in October 1924, production was 24 per cent higher than in the prewar year.

A comparison of the curves of production of steel ingots from the commerce department's data for 1925 and 1924 reveals what appears to be a seasonal slackening from late spring to early autumn. This slackening occurred this year and last year. The 1924 slackening was more pronounced than that of 1925.

COLD WEATHER MORTAR

National Lime Association, 918 G St., Washington, D. C., has issued an 8-page bulletin on "Cold Weather Mortar." The bulletin shows tests conducted at the University of Missouri, that a mortar composed of one part of Portland cement, two parts of lime and nine parts of sand, is most satisfactory. The information presented shows that this mortar withstands the effect of low temperature, is easily proportioned, smooth working under all conditions and low in cost. Copies of the bulletin will be furnished on request to the Lime Association.

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Richard Joslin, secretary of H. A. DeBaugh Company, Beverly Hills, Cal., has just returned from a six weeks' business trip to Florida. He reports the freight embargo has demoralized all smaller building activities and contractors are losing money because of inability to complete jobs. Workers are much dissatisfied on account of undesirable living conditions, irregularity of work and exceedingly high prices for rent, clothing and foodstuffs. In the opinion of Mr. Joslin, California stands to gain from Florida's abortive boom.

November turned out to be the banner month of this year for southern California lumber cargo movement, beating June by eight million feet. One hundred and thirteen cargoes arrived at Los Angeles harbor during the month, 96 of them fir and 17 redwood. The capacity of the fir boats was 140,950,000 feet and the redwood 13,875,000 feet. Total for the month, 154,825,000 feet, and for the year 1,459,895,000 feet, which is a fifty-one million better showing than the 1924 movement for the same time.

Architects of Santa Barbara have incorporated as the Associated Architects of Santa Barbara "for the protection of the interests of their profession in the city and for the furtherance of the business." Incorporators are: W. A. Edwards, K. E. Lockard, A. C. Sanders, G. W. Smith and Winsor Soule. Incorporation provides a membership fee of \$50.

The Building Age and National Builder, published in New York City, says that the probable 1926 building construction will total \$5,611,827,000. The report is based on a survey of growing needs of the nation, normal increase in population, figured on the present-day average of five to a family.

The Senate Appropriations Committee has introduced a bill providing for appropriations for Federal building construction in California as follows: Long Beach, \$750,000; Modesto, \$175,000; Red Bluff, \$135,200; San Bernardino, \$200,000; San Luis Obispo, \$115,000; San Pedro, \$500,000.

Building permits issued in Reno, Nevada, during November totaled \$22,200, the lightest month of the year. In November, 1924, the total was \$31,070. The past eleven months records a total of \$1,347,857.

Frank J. Judge, operating in the contracting plastering business in Oakland with a brother, under the name of Judge Brothers, committed suicide in his offices at Fortieth and Opal Sts., Oakland, by shooting himself with a revolver.

Robinson Hardware Co., for sixty years engaged in the hardware business in Gilroy, announces retirement from the field. The entire stock will be sold at a general "close-out" sale on December 19.

Alameda's municipal electric power plant earned a net sum of \$100,010.19 during the last fiscal year, according to a report submitted to the city council by C. E. Hickok, city manager. The net gain in earnings over the previous year was \$15,647.85. The report shows that the plant made this showing after all such items of expense as depreciation, and interest on bonds had been met. The plant's total gross earnings were \$356,699.27 and its total production costs were \$256,689.08. The major share of the receipts, or \$195,227.65, came from charges for residence lighting. The largest item of expense was for the purchase of current and amounted to \$105,172.31.

W. P. Fuller & Company has filed a complaint with the Railroad Commission against Southern Pacific Company alleging that that company collected a rate of 38½ cents per 100 pounds on shipments of linseed oil in tank cars from San Francisco to Los Angeles, during the period October 21, 1922, to March 23, 1923, which complainant alleges in excessive and unreasonable in view of the published rate of 31½ cents per 100 pounds subsequently established by defendant, reparations in the amount of the difference between the 38½ cent rate and 31½ cent rate are asked by complainant.

The Hydrex Asphalt Products Co., 120 Liberty St., New York, manufacturers of a waterproof building paper base their claims for superiority on the coating of the paper on both sides. The oils in uncoated paper will eventually dry out, destroying the waterproof qualities, but it is claimed that the coating of this paper seals in the interior oils, repels water and protects the paper against rain, wind, snow, dust and alkali in stucco, indefinitely extending its life and service. It contains no tar or other acids to corrode tin roofing or nails. It is sold in rolls of 500 square feet 36 inches wide.

Construction of a \$500,000 copper refinery and wire drawing factory on the Stockton waterfront is contemplated by the Calaveras Copper Company operating a plant at Copperopolis, Calif., according to S. M. Levy, manager for the company, who is negotiating for the site. Plans for the plant have already been prepared and are awaiting approval of the company's main offices in Boston.

Directors of the Modesto Irrigation District in Stanislaus County plans to submit to voters of the district the question of appointing a manager for the district. An election will probably be held in February to decide the question.

Louis S. Stone and Franklyn E. Warner, associate architects, announce the removal of their offices from 357 Twelfth St. to Howden Bldg., 337 Seventeenth St., Oakland.

January 16, 1926, is the date set for the next Hoo Hoo dinner dance at the Vista Del Arroyo, Pasadena.

ALONG THE LINE

Roy W. Pilling, assistant city manager of Berkeley, has filed application with the Santa Barbara city council seeking appointment as city manager of that city, succeeding Herbert Nunn whose resignation is effective January 1. Other applicants include Geo. D. Morrison, former city engineer of Santa Barbara and Jas. Henderson Childs, consulting engineer of Los Angeles; Arnold F. Smith, assistant city manager of Pittsburg, Cal.; F. W. McCarton, city engineer of Modesto, and Austin B. Fletcher, former state highway engineer.

Venice will have two assistant inspectors of buildings under the Los Angeles city building department as a result of the recent annexation to that city. They are W. L. Clark, building inspector under the last Venice administration, and R. H. Morris of the Los Angeles office. Mrs. E. L. Ballow, assistant under Mr. Clark, will be retained. No immediate change will be made in the zoning and fire regulations of Venice.

C. A. Smith, 73, president of the Coos Bay Lumber Company of Marshfield, Ore., died at his home in Berkeley, Dec. 9, as the result of a heart attack. He founded the C. A. Smith Lumber Company which later became the Coos Bay Lumber Company and acquired large lumber properties in Humboldt County and in Southern Oregon. He served a term as vice-president of the National Lumber Manufacturers' Association.

Arthur S. Bent of Bent Bros., general engineering contractors, Los Angeles, was nominated for director at the convention of the Western Division, U. S. Chamber of Commerce, at Seattle. Election will be at the convention of the U. S. Chamber of Commerce at Washington, D. C., next May. The next convention of the western division will be held at Colorado Springs, Colo., in 1926.

Eureka contemplates a bond issue for approximately \$770,000 to finance water supply improvements, estimated to cost \$275,000; purchase of municipal railway equipment, \$150,000 and construction of a sanitary sewer system, \$250,000.

Harris J. Ryan, professor of electrical engineering at Stanford University, has been awarded the Edison Medal for 1925 for his work on high-tension transmission of power, it is announced by the American Institute of Electrical Engineers.

Neal Dowell Barker of Altadena, for many years an architectural designer in Los Angeles and vicinity, was killed when his automobile collided with a motor bus on the Ridge route.

ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

PORTLAND PLUMBERS TO START APPRENTICESHIP CLASSES

As a result of the movement recently set on foot by the Portland Master Plumbers' Association to start apprenticeship classes in that city, the committee, which was appointed to investigate the need for such a school, has submitted the following report:

"We recommend the establishment of a school for the training of apprentices, and the adoption of the same course of study as outlined by the Trade Extension Bureau. We recommend that the instructor for the course shall be a man who has served at least two years beyond the apprenticeship period, and has the ability to express himself so as to be understood; one who has interest in boys, and enough of the qualities of leadership as to be respected for what he is."

Regulations are to be similar to the Association of Building Contractors and no student will be permitted to attend school unless he has been hired as a regular apprentice, according to master plumbers. A survey of Portland is to be made to determine the number of apprentices in the city so as to decide the number of days to use for the Portland course of study. Students will attend the Buckman vocational school for at least four hours a week.

The Portland Master Plumbers' Association will appoint four men as advisory committee, and the local journeymen plumbers' association will also be asked to appoint four men on the advisory committee. The instructor will spend two days in Portland and one day each in Salem, Corvallis and Eugene. The classes for apprenticeship plumbers will be held in daytime, and the journeymen classes will be conducted evenings. The salary for day work is to be paid from co-operative state and federal funds; one-half of the salary for night work from federal funds, the balance of pay to be determined later.

NEW MEMBERS ARE ANNOUNCED

W. C. Tooez, secretary of the Berkeley Builders' Exchange, announces the following new members in that organization: University Hardware Co.; Sunset Hardware Co.; Kronke & Brampton (tents and awnings); The Martin Co. (stucco); L. H. Miltz, (plumbing); R. N. Hughes, (plastering).

E. A. Mitchell, president of the exchange, leads the membership in the "new member" campaign having brought in a total of 16. W. C. Tooez, secretary, follows a close second with 10 new members.

ELECTRIC APPRENTICE SCHOOL OPENED IN SAN FRANCISCO

A training school for journeymen electricians has been started by the Industrial Association of San Francisco. In co-operation with the Electrical Contractors' joint apprenticeship committee. Twenty apprentices are enrolled in the beginners' class, while it is expected that twenty additional apprentices will be enrolled in the advanced classes next year.

"Civil War" Among Builders Flayed By Secretary Of Labor

Commenting upon the work of the division of conciliation of the department of labor during the past year, the secretary of labor in his report to congress takes a fling at the so-called jurisdictional dispute. He says, "On the matter of jurisdictional disputes I have strong convictions and shall open my mind freely and frankly on the evil effect these disputes have on the building program of the entire country. In some instances it is more than a jurisdictional dispute—it is civil war between contending organizations."

"I know of nothing more disheartening to a workman than to set out in the morning not knowing whether or not he is going to get a day's pay, because one of these jurisdictional disputes may be on. I don't know of anything so disheartening to the owner of a building, the man who is paying for it, or to the contractor who employs the men to build it. All parties connected with the enterprise of raising a new building can side-step the responsibility for these disputes, but it is usually the workman who in the end gets the blame for stoppage of work and organized labor suffers from it."

All Innocent Losers

"The contractor, the subcontractor, the architect, the owner, the financial organization paying the bills are all innocent losers in a situation not of their making. I know many men who

are anxious to build, and afraid to build, because of these jurisdictional disputes."

"Nothing can do more to destroy the chances of organized labor to deal with large organized industrial interests than these civil wars among the unions. Organized labor has withstood destructive assaults within and without its own ranks. It should root out the jurisdictional dispute. So long as the trade union movement stands true to its principles and deserves the support of its membership and the public, it will get that support. But, unlike other movements in this or any other country, organized labor can commit suicide through internal dissension. And these jurisdictional disputes are just that form of suicide."

Disputes Inevitable

"Here is the case in a nutshell: Invention and change in building methods are going to go on. So long as progress goes on disputes are bound to occur. The thing is to get them settled."

"After all, the American worker is a business man. We have got to rely on his business sense to refer to an impartial tribunal created for the purpose of all matters in dispute. We must appeal to his business sense to abide by its decisions when handed down. And we appeal to his business sense, his sense of profit and loss, to stay on the job and finish the job until his difference is ended."

LUMBERMEN ELECT

J. U. Dryden, Modesto; V. O. Wilson, Stockton, and Lester Elliott, Lodi, were elected president, vice-president and secretary, respectively, by the Central California Lumbermen's Association, in session at Modesto.

Wilson is secretary-treasurer of the Central Lumber Company of Stockton.

The meeting was addressed by Geo. Cornwell, editor of the "Lumberman," Portland, Ore., and Richard Endstadt of the Retail Merchants' Association, San Francisco.

The organization voted to accept an invitation to attend a lumber conference in February, to be held in Sacramento.

STUDY SIERRA TIMBER

The Division of Forestry of the University of California, whose investigative work during the past several years has been largely devoted to reforestation in the Redwood Region has this season shifted its activities to the pine region of the Sierra.

One of the principal questions that requires solution, says F. N. Schumacher, is the growth in useful products of the species of so-called lesser value—fir and cedar. To this end Mr. Schumacher and P. D. Hanson spent much of the field season in measuring

the growth on 125 fir plots—samples of forests from practically every Sierra County between Shasta and Fresno. Members of the United States Forest Service are cooperating in the study and have added the measurements of fifty other fir plots.

It is believed that the results of this work, which will be available in the spring, will have an important bearing on policies of care of private timberlands in the Sierra.

GOOD ROADS CONVENTION AT SANTA MONICA

The 14th annual convention of the United States Good Roads Association will be held in Santa Monica June 7 to 12, 1926. In conjunction with this convention will be held the United States good roads show of road material, machinery, trucks, tractors and automobiles. For information in regard to same address J. A. Rountree, director general, Maudmont, 3200 Cliff Road, Birmingham, Ala. After Feb. 1 address J. A. Rountree, director general, Miramar Hotel, Santa Monica, Calif., where temporary headquarters will be maintained until June 15. The 10th annual convention of the Bankhead National Highway Association will be held in Santa Monica during the week of June 7 to 12, 1926.

TRADE NOTES

The firm of Jacobs, Ackerman & Crozier, with headquarters at 533 Sixth St., Eureka, Calif., will hereafter be known as George C. Jacobs Company. The interest of A. B. Crozier in the building material company has been purchased by Jacobs and Newton A. Ackerman. The general business policy of the firm will remain the same.

Main offices of the Sterling Lumber Company, now located in San Francisco, will be moved to Oakland, as the result of a purchase of 24,100 square feet of land at 32nd and Etlie streets, Oakland. A warehouse and office building will be erected on the site, according to the Oakland Chamber of Commerce.

Hobbs Wall & Company will spend approximately \$300,000 at the company's mill and logging camps near Crescent City. Among the more important items of the construction program will be an electrically operated planing mill.

Minton Lumber Company, with its main plant at Mountain View, has opened a branch office in the Cardinal Hotel Building, Palo Alto. Henry A. Hoyt will be in charge of the office. A branch office is also maintained at San Jose.

The Hall Gas Furnace Company, the East Bay Division of the Potter Radiator Corporation, is occupying its new offices and display rooms at Fifty-first and Broadway, Oakland. S. Terry is Oakland manager for the company.

Engineering & Sales Company, 24 California St., San Francisco, has been appointed Western representative for the Racine Radiator Co., Racine, Wis. This company will handle only the industrial line of Perflex Radiators.

Modoc Moulding & Lumber Company of Alturas, Modoc County, has been incorporated with a capital stock of \$25,000. Directors are: E. G. Scammon and P. G. Loftstedt of Westwood and H. L. Payne of Alturas.

The United States Radiator Corporation of Detroit will establish a Pacific Coast factory branch in Second street between Mission and Howard Sts., San Francisco.

Larry Wilson of Clearlake Park (Lake county), has opened a branch plumbing shop in Lakeport. Wilson formerly operated in San Francisco.

Amerlux Steel Corporation, capitalized at \$10,000, has been incorporated in San Francisco. Directors are: L. B. Parker, E. D. Bennett and Amy Rolph.

Harold G. Gustafson will operate from 3243 Mission street, San Francisco, under the trade name of C. & D. Paint and Wall Paper Store.

Zupar Planing Mill, formerly located at 550 Bryant street, has moved to 623-625 Bryant street, San Francisco.

Steps to Further Progress of Steel Industry Outlined at Meet

Definite steps to further the progress of the structural steel industry by means of closer internal co-operation, by the application of the most approved business practices, and by the education of the public in regard to the advantages of structural steel marked the annual convention of the American Institute of Steel Construction held at White Sulphur Springs, West Virginia, November 11 to 14 inclusive.

The members of the Institute to the number of 160, together with a number of the country's foremost engineers and architects attending the convention as guests, were welcomed by C. Edwin Michael, President of the Virginia Bridge & Iron Company, Roanoke, Virginia. Mr. Michael reviewed the achievements of the Institute in the past, including the formulation of the 18,000 pound unit of working stress and the code of standard practice, and then outlined the steps which remain to be taken or encouraged by the Institute.

Striking The Keynote

The keynote of Mr. Michael's address, and in fact the whole convention, was struck, when in summing up, Mr. Michael said "Sectional and group co-operation of members is necessary to eliminate duplication of expensive practices. Accurate cost finding, modern selling methods, economical distribution, and a campaign of intelligent and forceful publicity promoting the use of structural steel are essential for the success of all engaged in the industry." Mr. J. L. Kimbrough, president of the American Institute of Steel Construction replied to the address of welcome.

During the business sessions that followed, the passage of a number of resolutions and the adoption of new budget gave the board of directors the authority and the means to initiate a program of activity involving the recommendations made by Mr. Michael. This constructive action, according to the officers and directors of the Institute, makes the 1925 convention a milestone in the career of the American Institute of Steel Construction and in that of each individual member.

Technical Discussions

Aside from the strictly business sessions, a considerable portion of the convention's time was devoted to discussions of various technical phases of the industry. R. A. Storm, Manager of the structural department of the Morgan Engineering Company, Alliance, Ohio, delivered an address on "Electric Arc Welding And Its Application To Structural Steel" in the course of which he stated that tests conducted by his company in connection with the erection of an electrically welded frame for a twelve-story building in Detroit showed that the joints held until they were subjected to nine time the safe load.

Speaking on the use of steel in residences, farm buildings, garages, and small apartments, Henry R. Brigham, Chairman of the Housing Committee of the National Association of Real Estate Boards, stated that such construction offered an almost untouched field for the expansion of the structural steel industry. As an illustration of the practicality of steel frame construction for such buildings he cited the fact that a builder who is now building small houses with steel frames and metal laths has found that

the cost of the steel for a six-room bungalow is about \$75 less than the cost of wood joists, rafters, studs, and laths.

Other Papers

The need of further technical research in the structural steel industry was emphasized in a paper by Dr. George F. Swain, Professor of Civil Engineering, Harvard University. A paper by H. A. Frommelt, Consulting Engineer of Milwaukee, Wisconsin, urged the adoption of the apprenticeship system in the building trades. Among the other addresses delivered before the Institute were:

"The Fireproofing of Structural Steel" by B. C. Collier, President, Cement-Gun Company, Inc., Allentown, Pa.

"An Investigation to Determine the Cause of Rivet Failures in Driving" by A. L. Spencer, Jr., Pittsburgh Screw & Bolt Company, Pittsburgh, Pa.

"My Experience With Concrete and Steel in Building Construction" by Albert C. Martin, Architect and Engineer, Los Angeles, California.

"Structural Steel in Earthquake Areas" by John L. Clymer, Manager, Northern California Division, California Institute of Steel Construction.

"Tests of I Beams Encased in Concrete" by Dr. H. M. McKay, Dean Faculty of Applied Science, McGill University, Montreal, Canada.

"The Structural Steel Industry and Its Future" by H. A. Fitch, President, Kansas City Structural Steel Company, Kansas City, Kansas.

The Annual Dinner

At the annual dinner held on the night of November 13 the members of the Institute, their wives, and their guests, were addressed by Senator George H. Moses of New Hampshire, who spoke on the relationship between government and industry. That the men who frame and enact our laws are themselves unable to operate under them was cited by the Senator as an instance of the hampering effect upon business of unnecessary, harassing, and contradictory legislation.

"Perhaps the most striking commentary upon the manner in which legislation, tax legislation in particular, affects our citizenry," said Senator Moses, "is to be found in the fact that each year an expert has to be sent from the Treasury Department to the Capitol to help Senators and Representatives prepare their income tax returns."

Elections

J. L. Kimbrough, Indiana Bridge Co., Muncie, Indiana, was re-elected president of the Institute for the ensuing year. The other officers—W. M. Wood, Mississippi Valley Structural Steel Company, Decatur, Illinois; Charles F. Abbott of New York; and Lee H. Miller of Cleveland, Ohio,—were re-elected vice president, executive director, and chief engineer respectively. C. E. Michael, Virginia Bridge & Iron Company, Roanoke, Virginia, was elected to the new office of second vice president.

The following were elected as new directors: W. S. Mosher, Mosher Steel & Machinery Company, Dallas, Texas; R. Llewellyn, Llewellyn Iron Works, Los Angeles, California, and C. E. Michael, Virginia Bridge & Iron Company, Roanoke, Virginia. N. W. War-

ren, Dominion Bridge Company, Montreal, Canada, was elected to fill the unexpired term of E. S. Mattice, Canadian Vickers, Ltd., Montreal, Canada.

The five men who formulated the standard specification of the Institute involving the 18,000 pound unit of working stress were elected as the first honorary members. Their names are: G. F. Swain, Professor of Civil Engineering, Harvard University; M. S. Ketchum, Dean of the College of Engineering, University of Illinois; E. R. Graham, Anderson, Probst & White, architects, Chicago, Illinois; W. J. Thomas, Chief Engineer, G. B. Post & Sons architects, New York, and W. J. Watson, President, Watson Engineering Company, Cleveland, Ohio.

At the meeting of the Board of Directors held on the afternoon of November 13 it was decided to hold the next annual convention at White Sulphur Springs, West Virginia, during the last week in October.

FRAME BUILDINGS HAVE FEWER FIRES

In forty-five cities of the United States having populations in excess of 20,000 some seventy-five per cent of the buildings are of frame construction, yet there were fewer fires last year in such structures than in those of the other types, according to Robert Beck, President of the Longacre Engineering & Construction Company, which has just completed a country-wide survey of existing conditions.

Commenting upon the report, Mr. Beck says: "Washington, Boston, Fall River, Oklahoma City, Berkeley, Calif., Topeka, Wilkes-Barre, Salt Lake City, and Milwaukee are among the cities surveyed where there were 851,984 frame buildings out of a total of 1,128,002 of all kinds.

"It was found that although this large number comprising seventy-five per cent of the aggregate were structures of frame construction, only in 1.4% fires occur, whereas in 6.1% of the buildings of brick, cement and other less combustible materials blazes originated and caused varying damage. Of the combined structures, 2.6% were visited by fire.

"While in most cities the number of frame buildings far exceeds the census of the other types, the opposite condition prevails in Washington, Salt Lake, and York, Pa. In the first named city, there are 115,923 buildings of brick, stone, etc., for example, and only 30,985 of frame, while in the Utah capitol the figures are respectively 33,050 and 13,350.

"This analysis is, as far as we know, the first of its kind and contains several surprises. It seems to indicate for one thing, that, in spite of popular opinion to the contrary, housewives and others occupying dwellings, (which are naturally in the majority among the frame buildings) are more careful in handling fire hazards than are the workers and tenants of factories and other business properties.

"On the other hand, a contributing factor in swelling the non-frame figures may be the 'set' fires involving business enterprises suffering from unsatisfactory trade conditions. One point that stands out clearly is the tremendous dependence upon wood for structural purposes, past and present, despite the trend toward reinforced concrete, brick, stone and other more lasting materials."

Each Year Sees More Varied Adoption Of Concrete Masonry

Estimates compiled for 1925 indicate that not less than 600,000,000 concrete block will be used to build structures of all types in this country. Concrete brick sales also show a large increase, this year's production reaching a total of some 300,000,000 brick. Other concrete products such as concrete sewer pipe, lamp posts, garden furniture, silo staves, culverts, and tile show corresponding increases in adoption, according to A. J. R. Curtis of the Portland Cement Association.

"Since the war," Mr. Curtis declares, "production of all concrete units has increased many hundred per cent. Concrete block, as an example, has increased its sales from 50 million units in 1920 to 468 million units in 1924. In 1924 the American public spent more than \$85,000,000 for concrete block and it is estimated that more than \$100,000,000 will be spent for concrete block in 1925.

Variety of Uses

"Not many years ago, rural construction where the user made his own block in home-made molds pretty nearly circumscribed the field of usage. Today there are millions of dollars of capital invested in high type manufacturing plants and production and sales have been put on an equal basis with other large modern industries.

"Not only houses and barns, but schools, industrial plants, store buildings, office buildings, churches and many other types of structures are being built of concrete masonry. New uses are coming thick and fast, so fast, indeed, that the industry is hard put to keep pace with the demand during the construction season.

New Developments

"A survey recently concluded shows that concrete products manufacturers are today making many new and

specialized types of units. Partition tile and block, floor tile, roofing tile, floor slabs and beams, posts, conduits and many other special products are being manufactured to meet the requirements of users.

"Machinery has replaced hand labor and special machines designed to insure uniformity are in general use. Plants representing hundreds of thousands of dollars worth of machinery and property are replacing the one man shops of a generation ago.

"There has been a noticeable trend of late toward a widespread revision of local building codes to give concrete products an equal standing with older materials. The Underwriters Laboratories have given concrete block a 2-hour fire rating. Concrete block have brought the hollow air space type of wall into great favor as the best wall for home building.

Heavy Demand

"Building materials figures show that usage of concrete building block and tile has within the last five years increased from about .48 block per capita to above .644 block per capita. To supply this tremendous demand some plants have been forced to work day and night during 1925. Several more plants climbed into the million block per year production class.

"The great interest now being manifested in portland cement stucco with its numerous varied colors and textures, has been reflected in the demand for masonry walls to carry the stucco. Architects, contractors, and home builders have taken a most noticeable interest in this latest development of American home building. Through the combined use of concrete masonry and portland cement stucco a new and beautiful style of home, wholly American, is evolving," states Mr. Curtis.

Cleaning Stone With Steam

The use of steam from a boiler directly against the stone through a simple nozzle has been found by the Bureau of Standards, Department of Commerce, to be a very effective way to remove dirt from the walls of a stone building.

To meet the changing demands of present day commercial conditions many old buildings are being altered or remodeled. In order to eliminate the undesirable contrast always present in such cases between the old dirty surfaces and the new stone put in the walls some kind of cleaning of the old portions is generally carried out. Because of the detrimental effects of acid cleaning or sand-blasting, scrubbing with soap powders and hand brushes is customarily employed. This method is effective but slow and laborious, and in an effort to devise a faster and more efficient means of cleaning limestone, experiments with the use of live steam were conducted under the co-operative research program of the Bureau of Standards and the Indiana Limestone Quarrymen's Association, Bedford, Indiana.

An interesting demonstration of this experimental work was the steam cleaning of a remodeled bank building in Baltimore, Md., where the scheme was given a practical trial under com-

mercial conditions. The use of steam at 80 pounds per square inch pressure the pressure ordinarily used in small portable boilers blown directly against the stone through simple nozzles made of galvanized pipe fitted to the end of ½-inch steam hose lines was found to be very effective in removing the twenty-year accumulation of dirt on this Indiana limestone building. Although the structure was heavily carved and moulded the work was done rapidly with inexperienced labor, the engineer firing the boiler being the only skilled worker on the job. The cost of the job was somewhat higher than a bid received for acid cleaning which was due in part to its experimental character, this being the first complete building ever cleaned with steam. The final color of the stone was not so bright as that of new stone work but was considered entirely satisfactory since it combined cleanliness with the appearance of age which is usually thought desirable in stone buildings. The successful use of steam in this practical test leads to the conclusion that for the removal of dirt from old limestone buildings, the steam cleaning process would, in most cases, be an economical and effective method to employ with the added advantage that it does not damage the stone.

APARTMENTS

Being Done by Day's Work.
APARTMENTS, ETC. Cost, \$16,000
SAN FRANCISCO. Eighteenth St. near Guerrero St.
 Two-story frame and stucco apartment and store building (2 4-room and 2 2-room apts., 2 stores).
 Owner—A. Schonwald, San Francisco.
 Architect—Walter Falch, Hearst Bldg., San Francisco.

Plans to be Out This Week.
APARTMENTS Cost, \$15,000
SAN FRANCISCO. Twenty-ninth St. near San Jose Ave.
 Two-story and basement frame and stucco apartment house (4, 3 and 4-room apts.)
 Owner—Virginia Bonzani.
 Architect—Mark T. Jorgensen, 110 Sutter St., San Francisco.

*Contract Awarded.
APARTMENTS Cost, \$15,000
OAKLAND, Alameda Co., Cal. W. Miles Ave. 107 S Forest St.
 Two-story 16-room apartments.
 Owner—F. T. Butler, Modesto, Cal.
 Architect—None.
 Contractor—H. S. Butler, 3679 Oak Grove Ave., Oakland.

Contract Awarded.
APARTMENTS Cost, \$18,000
SAN FRANCISCO. SW Fifteenth Ave. and Tascosa St.
 Three-story and basement frame (12) apartments.
 Owner—H. O. Lindeman, 619 27th Ave., San Francisco.
 Architect—H. C. Baumann, 251 Kearny St., San Francisco.
 Contractor—W. R. Lindeman, 619 27th Ave., San Francisco.

Contract Awarded.
APARTMENTS Cost, \$34,000
SAN FRANCISCO. N Page 180 W Octavia St.
 Three-story and basement frame (20) apartments.
 Owner—L. J. Neal, 180 Jessie St., San Francisco.
 Architect—None.
 Contractor—J. Harold Johnson, Hearst Bldg., San Francisco.

Plans Completed.
APARTMENTS Cost, \$14,000
SAN FRANCISCO. SE Sutter and Broderick Sts.
 Three-story and basement frame (12) apartments.
 Owner—Cal. Real Estate & Finance Corp., 319 De Young Bldg., S. F.
 Architect—R. R. Irvine, 736 Call Bldg., San Francisco.

REDWOOD CITY, San Mateo Co., Cal.
 —See "Miscellaneous Building Construction," this issue. Undertaking parlors and apartments planned.

To Be Done By Day's Work.
APARTMENTS Cost, \$15,000
BERKELEY, SE Alcatraz & Dohr.
 Two-story frame and stucco (4) apts.
 Owner—A. Schwortzke, 354 Hobart St., Oakland.
 Designer—Clement McLean, Webster & 12th Sts., Oakland.

*Contract Awarded.
APARTMENTS Cost, \$255
SAN JOSE, 7th near San Carlos.
 Two-story frame and stucco apartments.
 Owner—J. J. McLaurin, 150 N 3rd St., San Jose.
 Architect—Chas. McKenzie, Bank of San Jose Bldg., San Jose.
 Contractor—W. O. Hurtwangler, 269 S 23rd St., San Jose.

Plans Being Prepared.
APARTMENTS Cost, \$200,000
SAN FRANCISCO, W S Hyde South of O'Farrell.
 Eight-story class B apartment house (40 2-room apts.)
 Owner—E. V. Lacey and Mr. Steur.
 Architect—J. C. Hladik, Monadnock Bldg., S. F.

Contract Awarded.
APARTMENTS Cost, \$16,000
BERKELEY, 2428 Grove St.
 Two-story 24-room frame and rustic stucco apartments.
 Owner—P. A. Crackhon, 1636 Franklin St., Oakland.
 Architect & Contractor—California Builders, Inc., 1636 Franklin St., Oakland.

Sub-Bids Being Received.
APARTMENTS Cost, \$90,000
OAKLAND, Alameda Co., Cal. NE 12th and Filbert Sts.
 Three-story 80-room reinforced concrete apartments.
 Owner—B. Gregorio, 607 American Bank Bldg., Oakland.
 Contractor—E. Field, 607 American Bk. Bldg., Oakland.

Contract Awarded.
APARTMENTS Cost, \$19,000
OAKLAND, Alameda Co., Cal. E Vermont St. 201 S Fairbanks Ave.
 Two-story 28-room frame and stucco apartments.
 Owner—F. M. Meher, 908 Federal Bldg., Oakland.
 Architect—None.
 Contractor—West Construction Co., 908 Federal Bldg., Oakland.

SACRAMENTO, Cal.—G. E. Harvie, 2212 T St., Sacramento, has prepared plans and has contract to erect a two-story steel and brick apartments at s. e. 17th & J Sts., for W. E. Brewster; 80 by 160 ft.; will contain 14 two and three-room apts., with one store on ground floor.

Contract Awarded
APARTMENTS Cost, \$90,600
OAKLAND, NE 12th & Filbert Sts.
 Three-story 80-room reinforced concrete apartments.
 Owner—B. Gregorio, 607 American Bank Bldg., Oakland.
 Architect—None.
 Contractor—E. Field, 607 Amer. Bank Bldg., Oakland.

Contract Awarded
APARTMENTS Cost, \$30,000
OAKLAND, W HAVENSCOURT Blvd., 4th & 5th Bk.
 Two-story 32-room frame apartments.
 Owner—W. E. Murlin, 2624 Havenscourt Blvd., Oakland.
 Architect—None.
 Contractor—Wm. Wolfe, 128 13th St., Oakland.

Steel Contract Awarded.
A.P.T. HOUSE Cost, \$80,000
SAN FRANCISCO, Ellis and Hyde Sts.
 Five-story steel and concrete apartment house.
 Owner—Wm. Helbing, 1332 Lombard St., San Francisco.
 Architect—D. C. Coleman, 110, Sutter St., San Francisco.
 Steel to Golden Gate Iron Wks., 1541 Howard St., San Francisco.

BONDS

SANTA ROSA, Sonoma Co., Cal. — Miss Louise Clark, county supt. of schools, has called meeting of high school trustees of Sonoma county to discuss proposed formation of county junior college district. After organization of district it is proposed to vote bonds to finance erection of new junior college building, the present structure at Santa Rosa being inadequate to care for the present attendance.

RODEO, Contra Costa Co., Cal. — Election will be held in January in Rodeo School District to vote bonds of \$90,000 to finance erection of new school.

PHOENIX, Ariz. — Phoenix union high school dist. has called bond election for Dec. 28 at which time it is proposed to vote \$80,000, proceeds of which would be used to finance erection of high school athletic stadium. Louie G. Bennett, clerk.

WASHINGTON, Yolo Co., Cal. — Election will be called shortly to vote bonds of \$20,000 to finance erection of new school building.

CHURCHES

Contract Awarded
FEMILE HOUSE Cost, \$250,000
SAN FRANCISCO. North side of Lake near Arguello Blvd., adjoining Temple Emanuel.
 Reinforced concrete Temple House containing about 25 classrooms and auditorium for use of various activities of the congregation.
 Owner—Congregation Emanuel, Nevada Bank Bldg., San Francisco.
 Architect—Sylvain Schnaitacher, 233 Post St. and Baker & Brown, 251 Kearny St., S. F., associated.
 Contractor—MacDonald & Kahn, 130 Montgomery St., S. F.
 Steel—Awarded Dyer Bros., 17th and Kansas Sts., San Francisco.

Plans Being Figured.
CHURCH Cost, \$130,000
LONG BEACH, Los Angeles Co., Cal.
 Atlantic and State Sts.
 Two-story and basement concrete and brick church building.
 Owner—Atlantic Avenue Methodist Church.
 Architect—Rollin S. Tuttle, 363 17th St., Oakland, associated with Kirkland Cutter, 1000 E. Ocean Blvd., Long Beach.

Working Drawings Being Prepared.
CHURCH & SCHOOL Cost, \$40,000
SAN DIEGO, San Diego Co., Cal. Normal Heights District.
 Frame and stucco church and school building.
 Owner—Normal Heights Methodist Episcopal Church.
 Architect—Rollin S. Tuttle, 363 17th St., Oakland.

PORTLAND, Ore. — Arch. Chas. W. Ertz, Pittcock Block, completing plans for Eighth Church of Christ Scientist in Laurelhurst District; 2-story concrete, seating 900; est. cost, \$100,000.

Craftsmanship is the priceless ingredient sought by every architect for his client. It is more than an ideal with us and with the workmen who are a part of us—it is an obligation and a tradition over forty years old.

That is why you will find Quandt craftsmen wherever fine work and quality workmanship are insisted upon.

Co-operation for the economy of quality.

AROUND XMAS time.
SANDY PRATT, producer.
OF CLEAN, sharp sand.
AND HARD, crushed rock.
IS REMINDED.
OF HIS childhood days.
DOWN IN Tulare.
WHEN SANDY.
LIKE ALL kids.
WAS "FISHING."
FOR AN extra Xmas present.
OF COURSE Sandy.
WAS A regular attendant.
AT THE Methodist Sunday School.
ALL DURING December.
BUT SANDY'S best stunt.
DURING DECEMBER.
WAS TO borrow a knife.
FROM SANDY'S dad.
FOR LIKE all kids.
SANDY COULD never.
KEEP A knife.
THE SCHEME was a success.
FOR EACH year.

SANDY FOUND a knife.
IN HIS well-filled stocking.
AND THUS the present generation.
IS BRIGHTER in Sandy's family.
THAN HIS dad's.
"I THANK you."

This "Xmas scene," without the snow and holly berries, pictures Sandy Pratt (as a boy) "consulting his dad" about Xmas and trying to borrow a knife (see above story). Sandy now produces sand, rock and gravel at Sacramento, Prattrock (near Folsom) Marysville and Praticco (Monterey County). Central office, 518 Hearst Bldg., San Francisco.

Official Proposals

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M., on January 11, 1926, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway, as follows:

Humboldt County, between $\frac{1}{4}$ mile west of Big Lagoon and $\frac{1}{2}$ mile east of Big Lagoon (H-11um-1-J), about seven-tenths (0.7) miles in length to be graded and surfaced with crushed gravel or stone and a timber trestle seven-tenths (0.7) miles in length across Big Lagoon, consisting of 209 nineteen-foot (19') spans on pile bents.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any all bids or to accept the bid deemed for the best interests of the State.

HAIVEY M. TOY,

Division Engineer.

N. T. EDWARDS,

California Highway Commission.

R. M. MORTON,

State Highway Engineer.

W. J. MIXON, Secretary.

Dated: December 11, 1925.

NOTICE TO BIDDERS

(Modesto Irrigation District)

Sealed proposals will be received at the office of the Modesto Irrigation District at Modesto, California, until January 5th, 1926, at 10 o'clock A. M., for the furnishing of a dredger that will dig and clean both sides of a canal in one operation, cutting the banks and bottom even and at a fixed slope, and will operate on one bank or both banks, if necessary, working in dry ditches or under a full head of water, cleaning from one-half to one mile of ditch in an 8-hour day, a day. Ten days' delivery required.

Contract will be let to the lowest responsible bidder, but the Board of Directors reserve the right to reject any or all bids.

Any person or persons to whom a contract may be awarded shall enter into a bond, with good and sufficient sureties, to be approved by the Board, payable to said Board for its use, for twenty-five per cent of the amount of the contract price, conditioned for the faithful performance of said contract. The proposal must be marked "Pro-

A call for bids published in this section indicates that bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate: 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

posals for Dredger," and address to "Secretary, Modesto Irrigation District, Modesto, California."

Done in pursuance of an order of said Board of Directors of the Modesto Irrigation District, this 14th day of December, 1925.

J. C. GARRISON, President.

C. S. ABBOTT, Secretary.

NOTICE TO CONTRACTORS

(State Harbor Commissioners)

OFFICE OF THE BOARD OF STATE HARBOR COMMISSIONERS, Union Depot and Ferry House, San Francisco, California, December 15, 1925.

Sealed proposals or bids will be received by this office at or prior to 2 o'clock P. M., Thursday, December 24, 1925, for furnishing materials and constructing two sheds for Pier 50, on the waterfront of the City and County of San Francisco, in accordance with plans and specifications adopted by the Board December 10, 1925, and on file in this office, to which special reference is hereby made.

The work to be done under these specifications consist in removing such portions of existing structures as are within the lines and which will interfere with the construction of the new work, furnishing all necessary materials (except Portland cement, which will be furnished to the Contractor by the Board), labor, tool, machinery and equipment for the construction of two sheds for Pier 50.

The materials to be used in this work shall consist of the requisite quantities of Portland cement, hydrated lime, plastering sand, fine concrete aggregate, steel reinforcement, structural steel, cast iron, galvanized iron, green pipes, vitrified pipe, wrought pipe, roofing, asphalt, roofing felt, glass, window sash, painting, materials, plumbing fixtures and such other materials as are called for in the plans and specifications. The Portland cement will be furnished by the Board. All other materials shown in the plans or called for in these specifications shall be furnished by the Contractor.

No bid will be received unless it is made on a blank form furnished from this office and is accompanied by a certified check for an amount equal to five (5%) per cent of the amount of the proposal, to be made payable to the Secretary of the Board, conditioned that if the proposal is accepted and the contract awarded, and if the bidder shall fail or neglect to execute a contract and give bond required within six (6) days after the award is made, in that case the said sum mentioned in said check shall be deemed liquidated damages for such failure and neglect, and shall be paid into the San Francisco Harbor Improvement Fund.

Bids will not be considered by the Board unless delivered to the Secretary or to the Assistant Secretary, at the office of the Secretary, Room No. 17, Union Depot and Ferry House, at or prior to 2 o'clock P. M., on Thursday, December 31, 1925, at which time and place the bids will be publicly opened.

The Board reserves the right to reject any or all bids if deemed for the best interests of the State.

Plans and specifications for this work to be had at Room 18, Union Depot and Ferry House upon depositing \$20.00 for same, which will be returned on return of plans and specifications.

Bidders are requested to mark envelope containing bid: "Bid for constructing Two Sheds on Pier 50."

WM. A. SHERMAN,

WM. F. COCHRANE,

JOHN B. SANFORD,

Board of State Harbor Commissioners, FRANK G. WHITE, Chief Engineer, J. L. PHELPS, Secretary.

NOTICE TO BIDDERS

Pipe and Fittings—City of Santa Cruz

Notice is hereby given that the Council of the City of Santa Cruz invites sealed proposals or bids for furnishing the following:

5200 feet 12 inch Class B Cast Iron Pipe Bell and Spigot Joints.
7-8 inch x 6 inch Cast Iron Tees.
4-8 inch x 4 inch Cast Iron Tees.
4-8 inch x 8 inch Cast Iron Tees.
2-8 inch x 4 inch Cast Iron Reducers.
Pipe to be not less than 12 foot lengths.

Pipe and fittings to be delivered f. o. b. Santa Cruz. Delivery to be made within 75 days after award of contract.

Said proposals or bids will be received at the office of the City Clerk in the City Hall, Church Street, in the City of Santa Cruz, up to the hour of 9 o'clock A. M., on Thursday, the 24th day of December, 1925, and the same will be opened and declared by said Council at 9:30 o'clock A. M. on said day.

All proposals or bids must be in writing, state the total amount of bid submitted, and must be accompanied by a certified check or bond for ten per cent of the amount bid, payable to the City of Santa Cruz.

The Council of said City reserves the right to reject any and all bids.

Dated December 10, 1925.

S. A. EVANS,

City Clerk.

NOTICE TO CONTRACTORS

(Radio Towers—Eureka, Calif.)

The Bureau of Yards and Docks invites attention to the fact that it will open bids in the near future, on Specification No. 5161, "125-Foot Radio Tower, Naval Radio Station, Eureka, California." The tower will be triangular plan, the base of the legs forming the corners on the triangle approximately 17 feet on each side. The tower will have a ladder, top plat-

form, top sheave, and lightning protection. Each leg will be supported by and anchored to a concrete footing, with electrical connection to the legs of the tower.

In the event that this work is of interest to your firm, you should forward to the Bureau or to the Commandant, Navy Yard, Mare Island, Calif., a check or postal money order for \$10, payable to the Chief of the Bureau of Yards and Docks as security for the safe return of the drawings and specifications.

Inasmuch as the specifications and accompanying drawings are nearing completion, it is suggested that you submit your application as soon as practicable in order that the bidding data may be forwarded when the specifications are received from the printer.

Prospective bidders on the West Coast should make application at the Navy Yard, Mare Island, Calif., for the bidding data.

INFORMATION TO CONTRACTORS

(U. S. Bur. Pub. Roads)

The District Engineer, Bureau of Public Roads, U. S. Department of Agriculture, 901 St. S., San Francisco, California, proposes to open bids for the Covelo-Low Gap National Forest Highway project early in 1926, for construction during the season of 1926.

A survey party is now in the field staking the line. Design and contract quantities have not yet been completed. The total length of the project is approximately 16 miles extending from Mendocino Pass to the Covelo Ranger Station. Approximate quantities are as follows:

Clearing, 50 acres.

Excavation, unclassified, 125,000 cu. yds.

Concrete, 50 cu. yds.

Corrugated Metal Pipe, 2,800 lin. ft.

As the country will soon be covered by snow, contractors who will want to file bids on formal advertisement should go over the work during the month of December, 1925. The engineer in charge of the survey will conduct contractors to the work.

C. H. SWEETSER District Engr.
December 9, 1925.

STATE OF CALIFORNIA

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock p. m. on December 21, 1925 at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway, as follows:

Imperial County, across the Sand Hills (VIII-imp-27-B), about six (6.0) miles in length, to be graded and paved with Portland cement concrete or with asphalt concrete.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willets, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

HARVEY M. LOUIS EVERDING,

N. T. EDWARDS,

California Highway Commission.

R. M. MOYER,

State Highway Engineer.

W. F. MIXON, Secretary.

Dated: November 23, 1925.

NOTICE TO CONTRACTORS

(Furniture—Alameda County Highland Hospital)

Office of the Clerk of the Board of Supervisors, Alameda County, Calif.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, at his office, until Monday, January 4th, 1926, at 10:30 o'clock A. M. (the day when said bids will be opened and the contract awarded) for the purchase of certain furniture for use at Highland Hospital of Alameda County, situated at 14th Avenue and Alameda Place, Oakland, California. Specifications are on file in the office of the County Clerk open to inspection. Copies may be obtained by applying to the County Clerk of Alameda County.

Each bid must be accompanied by a check for at least ten per cent of the total amount of the bid or proposal, certified to by some responsible bank, and made payable to Geo. E. Cross, Clerk of the Board, and be forfeited to the County of Alameda as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the

bond required by the Board for the faithful performance of the Contract. (Seal) GEO. E. CROSS, Clerk of the Board of Supervisors of the County of Alameda.

NOTICE TO CONTRACTORS

(Specification No. 5149—Bureau of Yards and Docks)

The Bureau of Yards and Docks invites attention to the fact that it will open bids, in the near future, on Specification No. 5149, "Extension of Administration Building, Naval Operating Base, Pearl Harbor, T. H." The work includes plain and reinforced concrete; hollow tile; steel and iron work; wood roof framing; flooring, sleepers, doors, sash and trim; plaster on metal lath; galvanized corrugated steel roofing; copper gutters and downspouts; plumbing; electric light system and telephone conduits; vault doors; marble and terrazzo; hardware; and painting and glazing. The work also includes the rearrangement of interior partitions, removing stairs to new position and the necessary repairs to floors and walls of the existing building. The extension consists of one lanai bay to the northwest end and 12 bays to the south east end of the present building, with details in general similar to those of existing work. In the event that this work is of interest to your firm, you should forward to the Bureau of Yards and Docks, Navy Department, Washington, D. C., to the Commandant, Naval Operating Base, Pearl Harbor, T. H., or to the Commandant, Navy Yard, Mare Island, Calif., a check or postal money order for \$20, payable to the Chief of the Bureau of Yards and Docks as security for the safe return of the drawings and specifications.

Inasmuch as the specifications and accompanying drawings are nearing completion, it is requested that you submit your application as soon as practicable in order that the bidding data may be forwarded when the specifications are received from the printer.

Prospective bidders on the West Coast should make application at the Navy Yard, Mare Island, Calif., for the bidding data.

SAFETY STORY

"Safety News," the official publication of the California Industrial Accident Commission, says:

One of the problems of the Department of Safety is to prevent accidents to window cleaners. Many of the workmen either refuse or neglect to wear belts and accidents result. Many office buildings are not equipped with hooks for the protection of the workmen. The occupation of the window cleaner is extra hazardous, and there should be a greater degree of co-operation between the men and their employers to prevent accidents of this kind.

One unit of the Clyde line which has been gaining popularity very rapidly is the Concrete Tower Hoist. Two one drum 60 H. P. electric motors were employed on the operation illustrated, which shows the Phoenix Utility Company, of Duluth, working on a Hydro-Electrical development for the Minnesota Power & Light Co. at Fond du Lac, Minn.

The dam is 600 feet long and 85 feet high. Twelve hundred and seventy-five yards of concrete a day were hoisted and spouted to place. The Clyde 10 ton stiff leg derrick shown in the picture was used for handling materials from storage to bins.

Officials of the Phoenix Company have shown their satisfaction with Clyde Equipment by placing several repeat orders.

Complete information about either one or two drum concrete tower hoists or any other unit of the Clyde line, will be furnished gladly by the home office or any branch.

You'll Take Pride
in Your Clyde!

KOEHRING

DANDIE

Light Mixer

**Four-cylinder
Gasoline
Engine**

FAST! Fast! Fast! Here is a light mixer with a speedy charging skip, liberal drum dimensions and a high speed discharge that will break all your records of putting concrete where it pays you profits!

Just the balanced light weight to haul behind your truck on its rubber tired disc wheels and get from job to job in a big hurry.

Four cylinder, radiator cooled, gasoline engine. Transmission from engine to drum enclosed in oil bath! Double gear drum drive, chilled, beveled gears! Drum rollers fixed to shafts revolving in big bearings!

It's useless to try to give you the smallest idea of what this Dandie represents in superior speed and construction details — but it's *strong, rugged* — it will stand-up for all the punishment you can give it, and *work and work, and work!*

And you have a chance to buy at a price that gives you all the benefit of the economies the Koehring Company effect by big, standardized production! If you had half an idea of what this mixer means in the way of actual value, you would send back the coupon for full detail by next mail!

Koehring Dandie — 7 cu. ft. capacity mixed concrete. High speed charging skip, or low charging hopper with hinged steel framed platform which may be folded against mixer for hauling. Discharged from either side of mixer.

4 cylinder gas engine, radiator cooled, or optional two cylinder engine, hopper cooled. Drum drive transmission in oil bath. Maybe equipped with *automatic water measuring tank*, and *Light Duty Hoist*.

**Send Back this
Coupon!**

BATHROOM ACCESSORIES DISPLAY ROOMS ARE OPENED

A new service is offered to architects, builders, owners and dealers, of Northern California, by the recent opening at 839 Howard St. of an unusually large and complete display of bathroom accessories by the wholesale firm of Hallenscheid & McDonald.

Among the lines which will be displayed and carried in stock, and for which they are exclusive Coast distributors, are included the "Sno-Wite" line of porcelain enameled fixtures both for recessing in tile and plaster, and for surface mounting on the wall; "Sno-Wite" metal frame mirrors; "Sana-china", vitreous china recess fixtures; "Columbia" steel medicine cabinets and more popular priced lines of white and nickel finished brass surface fittings.

For a number of years Hallenscheid & McDonald have specialized in high grade bathroom accessories in Southern California and the success of their lines and service in the south have prompted their opening the San Francisco office and warehouse. All of their lines will be distributed through the regular trade channels and both dealers and architects are being invited to avail themselves of the display in helping their customers select modern bathroom trimmings. The San Francisco office will be in charge of W. B. McDonald.

wish you

A Merry Christmas and
A Happy New Year

Your loyalty and kind co-operation are our most valued assets
for which we owe you our sincere thanks.

Straus Predicts Brisk Building Program For Winter

"There is every indication that there will be more building throughout the United States this Winter than ever before in our history," says S. W. Straus, president of the American Society for Thrift.

Continuing, Straus says:

"There was a time when the winter months brought a perceptible let-up in building operations which meant waste to the country in the form of lost time, idle labor and idle capital. Through education we are learning that building can go on during the winter with only a slight recession from the activities of the other seasons.

"The prospects of large building operations throughout the coming winter is important because building exerts an influence on all branches of business. Secretary Davis recently compiled some statistics on this point which showed that more than 11,000,000 people depend on it directly for their

livelihood; that 250,900 freight cars are required to handle building materials and that the nation's building bill amounts to \$200 a year for each family.

"It is important that the seasonal curves be straightened out, as both inflation and depressed conditions are bad for the country. Business prospers most and the welfare of the individual is best safeguarded when business is stabilized.

"The recent development of winter building in the United States is an example of progress through thrift and education. More and more old habits and traditions give way under the influences of education to better practices.

"Apply this truth personally. Get away from your old habits if they retard your progress. Let each new day teach you that seemingly impossible tasks can be accomplished if you only think so."

WHERE FIRES START

The greater part of the annual fire loss of the United States, aggregating hundreds of millions annually, is traced to six sources by the National Fire Waste Council in co-operation with the Insurance Department of the Chamber of Commerce of the United States.

As enumerated in a bulletin issued by the Council these are:

Improper building construction; defective installation of equipment supplying power, heat and light; improper or careless storage, handling and distribution of explosives and inflammable liquids; handling and use of nitro-

cellulose films; storage of trash and rubbish; storage, handling and use of matches.

The best way of launching a campaign against fire waste, it is suggested, is by concentrating the attack upon the hazards arising from these six sources. This can best be done by the enactment of fire codes or ordinances.

"Most cities," the bulletin states, "have ordinances or state laws dealing with at least some of these subjects, but in many cases they are incomplete or obsolete. Frequently the enforcement of these ordinances is so poor the community does not profit from them."

THE OBSERVER

WHAT HE HEARS AND SEES ON HIS ROUNDS

Formation of a construction division of the American Society of Civil Engineers has been authorized by the board of direction of that organization. Any member of the society who is engaged in construction work or in any way interested in it may be enrolled in this division. Previously created divisions embrace city planning, irrigation, power, highways, sanitary engineering and structural engineering. The purpose of these different divisions is to bring together members for a more intimate study and discussion of specific branches of engineering.

Suit of W. S. Farley, former city engineer of Martinez, to collect over \$35,000 alleged to be due for engineering fees in handling street improvement work in Martinez, was settled on the eve of the trial set before Judge H. V. Alvarado. The city trustees met in special session and offered Farley \$2000 which he accepted.

Stanislaus county during the past ten years spent \$2,176,614.89 in county road construction, according to a report filed with the supervisors by J. H. Hoskins, county surveyor. This sum has built 156 miles of paved roads in the county's five road districts, the average cost per mile being \$13,800.

Complaint of the Union Rock Company against the Southern Pacific, Pacific Electric and Santa Fe railways that rates for transportation of crushed rock and gravel between points in southern California are unjust and unreasonable was dismissed by the state railroad commission.

Wall street hears that the General Fireproofing Company, in addition to extra dividends has announced plans for a 50 per cent stock dividend next year. The company is reported to be in a strong financial condition, having liquidated practically all indebtedness other than current bills.

The Oakland Manufacturing Company, manufacturing built-in fixtures, doors, sash and general mill work is occupying its new quarters at Twenty-fourth avenue and Ford St., Oakland. The concern previously operated from Second and Castro streets, Oakland.

Wm. J. Baez, city commissioner of Oakland, recommends to Alameda county supervisors the construction of a subway under the tracks of the Southern Pacific at Seventh Street. It is estimated the project will cost \$400,000.

American Oil Burner Co. has been incorporated in San Jose with a capital stock of \$100,000. Directors are: L. M. Harris, W. R. Johnston, C. W. Shaffer, L. D. Canfield and Nat E. Weinstein, all residents of San Jose.

Portland says logging operations continue in the Columbia River District. Strong efforts are being made to stiffen fir prices, but no advance noted, buyers still having the best of it.

C. F. Braun and Company, Alhambra, Calif., is in the market for 14-inch diameter, one-half-inch wall thickness, lap-welded pipe. Desires quotations by wire, cost per foot.

The sale of 14,000 acres of fir timber land containing about 800,000,000 feet of fir on the lower Siuslaw river to the Stout Lumber Company of North Bend, Ore., was made known in Eugene, Ore., Dec. 19, by agents for T. C. Starrett and H. N. Hovey, of Detroit, Mich., former owners. The consideration was said to be something more than \$1,000,000. The deal also involves the property of the Siuslaw Boom Company. It is understood the timber will be milled on Coos Bay.

A. W. Miller, vice-president and general manager of the Mickle Mills on the North Portland harbor, announces construction will be started early next year on a \$1,000,000 paper mill adjacent to the company's present holdings. It is proposed to use byproducts of the sawmill, now ground and sold for fuel, to supply raw material for the pulp and paper mill. Surplus electric power of the sawmill also will be used in operating the paper mill.

Assuming a total of more than \$37,000,000 in building for Oakland during 1925, permits for the week ended Dec. 16 amounted to \$501,696, making an aggregate of \$36,464,114 to date this year. At the same date last year, the total was \$28,915,441. This represents a gain of \$7,548,723, or more than 26 per cent for this year. Permits for the corresponding week last year amounted to \$442,624.

The question whether paper interliners in sacks for foreign cement used on city work shall be required was referred by Los Angeles city council to the board of public works at a meeting Dec. 14. At a previous meeting the board of public works had adopted a resolution opposing such a requirement.

The Stanislaus county supervisors will consider estimates of cost at an early meeting for a new courthouse. It was at first proposed to make additions to the present structure but this was abandoned due to the fact that a majority of the board favored a new building. A bond issue will probably be submitted to finance construction.

Six additional building inspectors and two engineers will be added to the forces of the Bureau of Building Inspection of the San Francisco Department of Public Works, according to announcement of John P. Horgan, chief inspector.

Clarence S. Morten, former deputy clerk of Sacramento county, has accepted the position of assistant secretary with the Valley Brick Company with offices in the Ochsenr Bldg., Sacramento.

O. A. Kratz, city manager of Astoria, Ore., has filed application with the Santa Barbara city council for appointment as city manager of that city. W. A. Layton of Salina, Kansas, is another applicant.

The Charles R. McCormick Lumber Co. is going after Florida business property. Distributing yards at Miami and Jacksonville are arranged. G. E. Smith will be in charge of operations,

THAT FLORIDA BOOM

Says the Southwest Builder and Contractor of Los Angeles:

"Stories of the rush of contractors to Florida read like the stories of the gold rush to California in '49. One New York contractor, anxious to get in the game, loaded \$100,000 worth of supplies on a schooner and gave last order, 'Sail to Florida.' Taking a fast train, he rushed south to look over the ground and pick the best location to unload. Having decided upon a place to begin operations, he notified the captain of the schooner to dock at Miami. Many contractors from all parts of the country, including California, have been in Florida during the last year looking for a chance to get a start, but few of them have remained. Some were fortunate enough to have jobs in Florida before they went there. Local contractors are doing the bulk of the work, however. Most California contractors who were attracted by the boom have been glad to return to their own state in which they have renewed their faith.

"We have no desire to disparage or belittle the prosperity of Florida. That state is making rapid progress in developing its great agricultural resources. It is the nearest winter playground to a great proportion of the country's population. But Florida is now learning what California learned many years ago. Subdividing land and clearing it is only the start in agricultural development. Establishing profitable crops and building up markets require time. California, for example, is just now realizing on agriculture which has been many years in the making. Many of the most profitable agricultural industries of the state had their beginning 25 or more years ago and their development involved a lot of pioneering. Another thing California learned a long time ago is that no great population can live on tourists or sunshine. There must be industries to support it. California by her enterprise has secured both. Given time Florida may do likewise, but her present boom is anticipating it by some years, at least."

SAFETY NEWS OFF PRESS

The December issue of the California Safety News, official organ of the Industrial Accident Commission, contains information of interest and value to both employer and employee.

John A. McGilvray, Chairman of the Commission, contributes the leading article on "Jurisdictional Problems Arising Out of Shifting Labor," dealing with some of the problems presented by the employment of Californians in other states and in Alaska.

G. Chester Brown, Mining Engineer, tells how to avoid "Metal Mine Shaft Accidents." F. A. Page, Chief of the Boiler Division, answers the question "When is a Safety Valve not a Safety Valve?" Warren H. Pillsbury, Attorney for the Commission, has an exceptionally interesting article on "Employee or Independent Contractor?"; while Secretary Ratliff contributes an excellent "Question and Answer" page. A timely article on "Interlocks on Hydraulic Elevators" is contributed by E. G. Sheibley, C. E., Superintendent of the Department of Safety.

The edition is profusely illustrated, including a group of photographs showing how a physician employed by a lumber company uses his automobile both for pleasure and as an ambulance. Copies will be mailed free upon request.

ORGANIZATION NEWS

Organizations having a direct connection with the construction industry are invited to submit news for publication in this department.

EMPHASIZES VALUE OF "OPEN SHOP" POLICIES

The report of the Open Shop Committee of the National Association of Manufacturers emphasizes the following:

1. With the exception of a few key industries the "open shop" condition generally prevails in American industry. The open shop has made great gains the past five years.
2. Those who seek to impose the "closed shop" upon American industry and society are economic reactionaries, since that system under the guilds of former centuries crippled industry and harmed society.
3. The cost of building is one-third greater under closed shop than open shop conditions. Over the country as a whole the additional building cost due to the closed shop is \$500,000,000.
4. Favors elimination of clauses put in Government appropriation measures at the request of closed shop unions which prevent the Government from using up-to-date efficiency methods.
5. Favors elimination of clauses which prevent Government funds being used to prosecute labor unions for acts which are deemed criminal if performed by other private groups.
6. Cost to the public of strikes in 1924 was \$613,000,000.
7. Strikes in the nine years 1916 to 1924, inclusive, have cost the public over \$10,000,000,000—more than 50 per cent greater than the cost of pensions since the Revolutionary War.
8. Declares that union methods and practices and their internal management are the antithesis of democracy—"those who desire to extend the closed shop in industry seek the extension of the principles of monopoly and autocracy."
9. Declares analysis of closed shop philosophy shows that if put into practice it would "dangerously menace our fundamental American institutions."

BUILDERS TO AWARD PRIZE FOR EMBLEM DESIGN

The National Association of Builders' Exchanges, 411 Curry Building, Pittsburgh, Pa., has offered a prize not to exceed \$50 for a design or sketch of an emblem for the National Association. The contest is open to all members of Builders' Exchanges affiliated with the National Association. In making sketches and designs the finished form will have to be reduced to 1 or 1½ inches over all. The prize will be awarded on the last day of the National Convention, at Oklahoma City, February 25th, 1926.

A. G. C. TO MEET

The annual meeting of the Associated General Contractors of America will be held at the Multnomah Hotel, Portland, Ore., Tuesday, Wednesday, Thursday, Friday and Saturday, January 19-23. All members of the Associated General Contractors as well as sub-contractors, architects, engineers, manufacturers, material dealers, sureties and others concerned in the construction industry are cordially invited to attend this meeting and participate in its deliberations.

General Contractors of S. F. Banquet

Members of the General Contractors of San Francisco celebrated their annual banquet in the French Parlor of the Palace Hotel, Thursday eve., Dec. 17. Practically every member of the organization was present and after enjoying a splendid supper listened to brief talks and a program of entertainment.

Leroy D. Frasier, president of the organization, opened the evening with a brief address following which he introduced Supervisor Warren Shannon who acted as toastmaster for the evening.

Daniel O'Brien, chief of police, made a brief address on the co-operation of the Police Department with the contractors with regard to occupancy of the street for storage of building materials and safety of the public on construction projects.

William H. George, president of the San Francisco Builders' Exchange, spoke on the progress of plans for the proposed new Builders' Exchange home and advocated payment to unsuccessful bidders in the figuring of plans and specifications. Closing his remarks he congratulated the General Contractors in having the largest craft

representation in the Builders Exchange.

Frederick H. Meyer, architect, spoke along the same lines as Mr. George with regard to compensating contractors who figure plans and are unsuccessful in the bidding.

Other speakers included Paul Elie of the Industrial Association of San Francisco and E. J. Lloyd, manager of the Contractors' Association of Northern California and U. V. Stewart.

Tim Reardon, president of the Board of Public Works and Supervisor Ralph McLeran occupied places at the speakers table.

Entertainment was rendered by J. J. Mann, Otto Walfish, Scotty Butterworth, M. P. Brennan and Mike Lawley. The Reception Committee consisted of W. E. Brinkler, John Diestel, Leroy D. Frasier, G. K. Jensen, A. H. Wilhelm, J. G. Liebert, J. S. Malloch, W. J. Stevens, S. Stockholm and Frank Barrett.

Officers of the General Contractors are: Leroy D. Frasier, president; J. G. Liebert, G. K. Jensen, W. J. Stevens, W. E. Brinkler, John Diestel and S. Stockholm, directors; C. J. Dixon, secretary.

U. C. SENIORS TO WORK FOR ENGINEERING PRIZE AWARD

Senior students in the college of civil engineering of the University of California who intend to graduate in May are already making plans to compete for a prize just announced by the San Francisco section of the American Society of Civil Engineers. To the member of the graduating class who gives the most promise of becoming distinguished in his profession, the San Francisco section will give as a prize the initiation fee and the first year's dues of junior membership in the national organization.

ENGINEERS SEEK BETTER PAY

Municipal engineers of Toronto, Boston, New York, Philadelphia, Detroit and San Francisco at a meeting in New York, December 21, will demand "commensurate recognition and compensation." In addition to increased pay and better working conditions the engineers are seeking acknowledgment by the city fathers of their professional standing in the municipal machine.

FEWER LAWS URGED

Fewer building laws and rigid enforcement of essential regulations, made possible by adequate city building inspection forces, were advocated by building inspectors of Central California, at a recent convention in Berkeley.

The fifteenth annual convention of the National Association of Builders' Exchanges will be held in Oklahoma City, February 23, 24 and 25.

CONCRETE INTERESTS ELECT

W. F. Paddock of the Peerless Concrete Products Company of Seattle, was elected president of the Northwest Concrete Products Association, when the organization was perfected at a 2-day session in the Multnomah Hotel at Portland, Ore., last week. Other officers are: Roy Ward, Brick and Block Mfg. Co., Portland, first vice president; W. P. Hewes, Yakima Concrete Products Co., Yakima, Wash., second vice president; Earl V. Bull, Ontario Concrete Pipe Co., Ontario, Ore., third vice president, and W. H. Sharp, Longview Concrete Pipe Co., Longview, Wash., secretary-treasurer. Longview, Wash., was selected as the place for the first annual meeting on January 29 and 30.

ALAMEDA COUNTY BUILDERS TO HOLD CHRISTMAS JINKS

The Fifth Annual Christmas Tree Jinks of the Builders' Exchange of Alameda County will be held Monday evening, Dec. 28, in the exchange auditorium, according to E. W. Shaw, secretary of the organization and chairman of the committee on arrangements.

Prizes ranging from a barrel of cement to a bathtub will be distributed by Santa Claus to the lucky holders of numbered admission tickets.

"Oakland is just closing the biggest building year in its history." Secretary Shaw says, "and with this in mind we plan to make this jinks the biggest in the history of the organization."

Prizes to be awarded at the jinks will be contributed by exchange members.

A good slogan that should be adopted by every police department is "We cannot keep the driver from drinking, but we can keep the drinker from driving."—Bemidji Pioneer.

Fauding; work will consist of either structural steel or reinforced concrete frame, to be erected inside present walls; new front, new interior floors, partitions, etc. Work will be let by contractor already selected by owner.

Craftsmanship is the priceless ingredient desired by every architect for his client. It is more than an ideal with us and with the workmen who are a part of us—it is an obligation and a tradition over forty years old.

That is why you will find Quandt craftsmen wherever fine work and quality workmanship are insisted upon.

Co-operation for the economy of quality.

BUSINESS OPPORTUNITIES

SAN FRANCISCO.—Further information regarding these opportunities may be obtained from the office of Larsen Advance Construction Reports, 818 Mission Street, San Francisco, either by phone, letter or personal call. Requests for additional information should be made to the Business Opportunities Department. Such requests must be accompanied by the Index Number of each opportunity.

D-1902—St. Louis, Mo. Manufacturers of fireproof freight elevator doors, folding doors, tinclad doors, dumb waiter doors, slide-up doors, etc., are desirous of securing representation in San Francisco.

D-1903—Chicago, Ill. Manufacturers of high grade ventilating equipment, consisting of propeller fans in all currents and voltages; blowers, both direct connected and belt driven; unit heaters, pent houses, guards, shutters; also high class planing mill exhausters and pressure blowers; desires to appoint a suitable representative to handle the sale of their equipment in this territory.

D-1904—Chicago, Ill. Manufacturers desire to secure the services of a San Francisco broker or agent to handle the sale of their cold rolled steel in this territory, on a commission basis.

D-1905—New York, N. Y. Manufacturers of heat recovery apparatus for the production of heated air for drying or power plant use and an interesting type of mechanical draft new in its country, desire to communicate with parties familiar with power plant accessories, drier accessories or fans, who would be interested in handling the sale of their products in this territory.

D-1906—Stockton, Calif. Old established firm, with capital of \$100,000, furnishing excellent references, desires to represent San Francisco manufacturers wishing representation in Stockton and vicinity.

D-1907—Seattle, Wash. Experienced sales representative desires to establish business connections with a San Francisco wholesaler or manufacturer with a view to representing them in Western Washington and the state of Oregon. He is exceptionally well experienced in handling men's furnishing lines, but would be interested in any other line of merit.

9796—Iquique, Chile. Part wishes to procure a sailing schooner of the fol-

lowing description: Capacity 750,000 to 1,000,000 ft. of lumber, which may be loading at some lumber shipping port—either with or without cargo; about 8 to 10 years old and classified for first class insurance.

9798—Montreal, Canada. Gentleman desires to communicate with San Francisco firms contemplating appointing an agent in Canada. Can furnish excellent references and a bond if required.

9802—Germany. Firm is in the market for hardened steel wire of a very high elasticity, to be used in the manufacture of spool rings. Sample is on file with Foreign and Domestic Trade Department.

9805—Rustringen - Wilhelmshaven, Germany. Manufacturers of engraving machines desires representation on the Pacific Coast of the United States.

9806—Czechoslovakia, Austria and Poland. Manufacturers of Bentwood

SPEAKING OF Xmas.

AND XMAS presents.

SANDY PRATT, producer.

OF CLEAN, sharp sand.

AND HARD rock and gravel.

HAS A friend.

WHO WANTED a new car.

AND TO avoid arguments.

WITH FRIEND wife.

WHO WANTED the money.

TO FIX up the house.

AND BUY a new dining table.

SANDY'S FRIEND thought out.

A WONDERFUL scheme.

AND SO this friend.

ON ACCOUNT of the holiday season.

AND "PEACE on Earth.

GOOD WILL Toward All Men."

(AND THE women folks).

GAVE HIS wife.

A NICE new closed car.

AND ALL went well.

UNTIL THE wife.

WAS NOT allowed.

TO DRIVE the new wagon.

AND WHEN Sandy.

WAS A boy in Tulare.

ONE OF the neighbors.

A SOUTHERN Pacific locomotive engineer.

GAVE HIS wife a shot gun.

FOR XMAS.

AND ON the next day.

WENT HUNTING.

WITH FRIEND wife's Xmas gift.

LEAVING THE pink ribbon.

AND XMAS card at home.

JUST TAKE it.

IN SANDY'S own family.

FOR ON Xmas.

NOT MANY years ago.

THEY GAVE Sandy.

A "READING" table.

IT HAD all the "ear marks."

OF A "sewing" table.

AND JUST as.

"BLOOD is thicker than water."

WILL SO a "sewing" table.

JUST NOT stand.

TO BE called a "reading" table.

AND THIS year.

SANDY ASKED for sex.

OR SOMETHING not "feminine."

"I THANK you."

Everybody at Sandy Pratt's house wishes everybody at your house a Merry Xmas and a Happy New Year and everybody at Sandy's house wishes Santa Claus is good to everybody at your house for everybody at Sandy's house likes everybody at your house.

Furniture desires to establish a California market for their products.

9808—Charleroi, Belgium. Firm in a position to supply metal products of all kinds, glassware, building materials, paper, cutlery, paints, etc., desires to quote C. I. F. to interested San Francisco importers.

9813—Ponce, Porto Rico. Old established firm of wholesalers and commission merchants desire to secure the exclusive representation in Porto Rico for San Francisco manufacturers of exporters desiring to market their products in that territory. Excellent references furnished.

9815—Paris, France. Established commissionaire of Paris, now in San Francisco, returning shortly, seeks representation to market California items, products, or buy for wholesale firms, agents or retailers. References.

9816—San Francisco, Calif. Sales executive going to Australia is interested in placing firms' products in Australia and New Zealand.

LOCK SCHLAGE UP

While hurrying back to the plant one day last week, Walter Schlage, the noted inventor, was hailed by a traffic policeman who inquired in loud tones: "Say, I have a good notion to send you to jail and lock you up. What's your name?"

Answer: "Schlage."
"Are you the fellow who makes the lock?"

"Yes sir."
"Well say, because you make such a good lock, I'll let you go."—"Douglas 20."

ADOPTS TRADE NAME

Ralph Zelinsky, A. N. Brown and Cyril Zelinsky will operate from 270 Tehama Street, San Francisco, under the firm name of Raphael Company.

LACK OF PROPER INSULATION IS COSTLY

In a span of fifteen years the owner of a small home north of the Mason Dixon line having an average heating coal consumption of ten tons, finds the cost has increased 200 per cent in 1925 as compared with 1910 and bewails because the lack of proper insulation in his house makes for a probable continuance of such an upward trend in the future.

The late Charles P. Steinmetz, chief engineer of the General Electric Company, in an address prior to his death said "Our present structures are causing annual leakage cost of literally millions of dollars worth of heat and this in the face of a constant diminution of our coal and other heat producing natural resources. The house of the future will be scientifically built from the standpoint of heating."

It has been estimated that if one-third to one-half of the owners of medium priced homes in the \$5000 to \$10,000 class would insulate against the escaping heat units, their collective saving at present prices of anthracite and bituminous coal, would be the interesting sum of \$45 to \$70,000,000 annually.

The United States Bureau of Industrial Research in a statement recently issued said: "The fuel consumed in fifteen million homes is fully 30 per cent and probably 50 per cent more than would be necessary if standards were maintained in materials. Owners of buildings have not been taught that heat is transmitted through lumber, brick and stone just as it is through glass, but less rapidly. Many homes in America have a fuel-cost equal in a period of twenty-five years to the first cost."

The above are reasons why houses insulated with celotex are at a premium whether in Florida or California, or in Maine or Minnesota. The builder of a home so insulated will find its additional cost repaid within three years at most by saving in fuel costs assuming that its location is in the so-called northern states.

Such insulation does more than keep in and reduce the cost of expensive artificially produced heat, it is a comfort insurance that excludes the intense natural heat of intense sun rays and the primary reason why nearly one thousand bungalows and homes celotex-insulated are now under construction in Southern California and Florida alone.

SAFETY STORY

"Safety News," the official publication of the California Industrial Accident Commission, says:

In preparing plans for buildings to be used for industrial purposes, some architects fail to provide hand railings on all stairways. Such railings are required by the Commission's orders, and it is respectfully suggested to architects that if hand-rails are included in original plans it will not be necessary for the Department of Safety's representatives, in making inspections, to require owners of buildings to put in the railings at considerable additional expense.

It takes alcohol in the radiator nowadays to drive a car—and alcohol in the driver to smash it.—Fairmont Sentinel.

Official Proposals

NOTICE TO CONTRACTORS

(Hamilton Union High School District)

Notice is hereby given that sealed bids will be received by the Board of Trustees of Hamilton Union High School District, in Glenn County, California, at the office of the Clerk of said Board, until 9 o'clock A. M. of Thursday, December 31st, 1925, for furnishing and installing an additional heating and ventilating unit for the auditorium of the high school building in said district.

Specifications for said unit may be seen at the office of the Clerk of said district.

Each bid must be accompanied by a certified check on some responsible California Bank, in a sum not less than five per cent (5%) of the amount of bid, made payable to A. M. Gelston, President of said Board, as a guarantee of good faith that the party to whom the contract may be awarded will, within ten days enter into the necessary agreement and bonds for the faithful performance of said work.

Each bid must be enclosed in a sealed envelope and addressed to James Mills Jr., Clerk of the Board of Trustees of Hamilton Union High School District, Hamilton City, California.

The Board of Trustees reserves the right to reject any and all bids.

By order of the Board of Trustees of Hamilton Union High School District.

By JAMES MILLS, JR., Clerk.

NOTICE TO CONTRACTORS

(Garfield School—Oakland)

Office of the Secretary of the Board of Education of the City of Oakland.

Notice is hereby given that the Board of Education of the City of Oakland and of the Oakland School District of Alameda County, hereby calls for sealed proposals to be delivered to the Secretary of said Board, Room 211, City Hall, Oakland, California, until Tuesday, the 12th day of January, 1926, at 9:45 A. M., at which time said bids will be opened for the erection and completion of the Garfield School Building, of the Oakland School District, located on the east side of 22nd Avenue, between E-15th and E-17th Streets, in the City of Oakland, County of Alameda, State of California. These bids shall be presented in accordance with the plans and specifications for said building on file in the office of the Secretary of the Board of Education, City Hall, and in the office of the Superintendent of Buildings, 337 17th Street, Oakland, California.

Separate bids will be received for:
(1) General Work.
(2) Awning Type Window Fixtures and Hardware.

On a deposit of Twenty-five (\$25.00) Dollars, complete sets of plans and specifications may be had by any bidder upon application to the Superintendent of Buildings at his office hereinbefore mentioned, and in each case shall be returned within ten (10) days after securing same, to the Superintendent of Buildings. If the plans and specifications are not returned within said time, or if mutilated, the said deposit shall be retained by the School District as agreed and liquidated damages for said mutilation or detention.

Bids must be made on proposals obtained at the office of the Superintendent of Buildings, and be signed by the bidder and accompanied by a certified check, certified to by some responsible bank or banker, and made payable to the Board of Education of the City of Oakland and of Oakland School District, to be retained by said School District, as agreed and liquidated damages should the party or

A call for bids published in this section indicates that all bids are desired from other than local bidders. Maximum competition is desired, and this is assured through BUILDING AND ENGINEERING NEWS which reaches every worth-while contractor and materialman in Central and Northern California who bids on public work.

Rate, 10 cents per line, per insertion.

All official calls for bids of the California State Highway Commission and Nevada State Highway Commission are published in this section.

parties to whom the contract should be awarded fail to enter into the contract after the award, or to give bonds required for the faithful performance of the contract, or any bond required by law. The amount of said check shall not be less than ten (10%) per cent of the amount bid, provided, however, that in no case shall said check be required to be in excess of Five Thousand (\$5000.00) Dollars. Each bidder shall execute the affidavit accompanying the proposal obtained from the Superintendent of Buildings.

Bids will be opened by the Board of said District on Tuesday, the 12th day of January, 1926, at 9:45 A. M. in the Board Room, 211 second floor, of said City Hall, in said City of Oakland. The Board reserves the right to reject any and all bids or any or all items of such bids.

JOHN W. EDGE-MOND,
Secretary of the Board of Education of Oakland, California.

NOTICE TO CONTRACTORS

(Fencing—Vallejo, Cal.)

Sealed proposals will be received at the office of the City Clerk, Vallejo, California, until 10 o'clock A. M. January 24, 1926, for the furnishing and erection of a boundary fence between the lands of Edward F. Scally et al and the City of Vallejo situated in Gordon Valley, Napa county, California.

The work involves:
(a) The furnishing and erecting of approximately four and eight-tenths mile of fence using redwood posts 8 and 12 feet centers, one course hog tight wire 32 inches high and 3 strands barb wire.

(b) The furnishing and erecting of approximately four and eight-tenths miles of fence using steel posts 8 and 12 feet centers, one course hog tight wire 32 inches high and 3 strands barb wire.

Proposals will be received upon the above work under two schedules as follows:

Schedule No. 1, includes item (a) as above noted. A certified check or bid's bond for 10 per cent of the amount bid must accompany the proposal upon this schedule.

Schedule No. 2, includes item (b). A

certified check or bidders bond of 10 per cent of the amount bid must accompany the proposal upon this schedule.

Plans, specifications and form of proposal may be secured from the City Clerk of Vallejo, California, or from the office of L. M. Canady, Project Engineer, Vallejo, California.

The right is reserved to reject any or all bids or to accept other than the lowest as may appear to be the best interest of the City of Vallejo.

Dated December 18th, 1925.

ALF. E. EDGE-CUMBE,
City Clerk.

NOTICE TO CONTRACTORS

(Highland Hospital)

Office of the Clerk of the Board of Supervisors of Alameda County, California.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, at his office until Monday, January 11, 1926, at the hour of 10:00 A. M. The time when said bids will be opened and the contract awarded for the erection and completion of roadways, walks, steps, terraces, gateways, retaining walls and other miscellaneous work contained in Department 26 for Highland Hospital of Alameda County at 14th Avenue and Vallecito Place, Oakland, California.

Complete plans and specifications of said work on file in the office of said Clerk in the Hall of Records Building at Oakland, Alameda County, California, where copies may be obtained by depositing with the County Clerk the sum of Fifty (\$50.00) Dollars. Contractors will be restricted as to the length of time they retain these plans and specifications to twelve (12) days.

Contractors failing to return said plans and specifications within said time limit will forfeit their deposit to the County of Alameda. The entire amount of the deposit will be returned to contractors returning said plans and specifications in good condition within said time limit.

Each bid must be accompanied by a check for at least ten (10%) per cent of the total amount of the proposal, certified to by some responsible bank and made payable to Geo. E. Gross, Clerk of the Board, to be forfeited to the County of Alameda as agreed and liquidated damages, should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award or to give the bond required by the Board for the faithful performance of the contract.

The Board reserves the right to reject any and all bids.

GEO. E. GROSS,
Clerk of the Board of Supervisors of Alameda County.

NOTICE TO BIDDERS

Desks—Alameda High School District

STATE OF CALIFORNIA

CALIFORNIA HIGHWAY COMMISSION

NOTICE TO CONTRACTORS

SEALED PROPOSALS will be received at the office of the California Highway Commission, 515 Forum Building, Sacramento, Cal., until 2 o'clock P. M., January 11, 1926, at which time they will be publicly opened and read, for construction, in accordance with the specifications therefor, to which special reference is made, of portions of State Highway, as follows:

Yolo County, between Fifth Street in Washington and the M Street Bridge (X-Yolo-6-C), about twenty-five hundred (2,500) miles in length to be graded.

Plans may be seen, and forms of proposal, bonds, contract and specifications may be obtained at the said office and they may be seen at the offices of the Division Engineers at Los Angeles and San Francisco, and at the office of the Division Engineer of the division in which the work is situated. The Division Engineers' offices are located at Willits, Redding, Sacramento, San Francisco, San Luis Obispo, Fresno, Los Angeles, San Bernardino and Bishop.

A representative from the Division office will be available to accompany

prospective bidders for an inspection of the work herein contemplated, and Contractors are urged to investigate the location, character and quantity of work to be done, with a representative of the Commission. It is requested that arrangements for joint field inspection be made as far in advance as possible. Detailed information concerning the proposed work may be obtained from the Division office.

No bid will be received unless it is made on a blank form furnished by the Commission. The special attention of prospective bidders is called to the "Notice to Contractors" annexed to the blank form of proposal, for full directions as to bidding, quantities of work to be done, etc.

The California Highway Commission reserves the right to reject any or all bids or to accept the bid deemed for the best interests of the State.

NOTICE TO BIDDERS

(Modesto Irrigation District)

Sealed proposals will be received at the office of the Modesto Irrigation District at Modesto, California, until January 5th, 1926, at 10 o'clock A. M., for the furnishing of a dredger that will dig and clean both sides of a canal in one operation, cutting the

banks and bottom even and at a fixed slope, and will operate on one bank or both banks, if necessary, working in dry ditches or under a full head of water, cleaning from one-half to one mile of ditch in an 8-hour day, a day. Ten days' delivery required.

Contract will be let to the lowest responsible bidder, but the Board of Directors reserve the right to reject any or all bids.

Any person or persons to whom a contract may be awarded shall enter into a bid, with bonds and sufficient surties, to be approved by the Board, payable to said Board for its use, for twenty-five per cent of the amount of the contract price, conditioned for the faithful performance of said contract.

The proposal must be marked "Proposal for Dredger," and address to "Secretary, Modesto Irrigation District, Modesto, California."

Dated in pursuance of an order of said Board of Directors of the Modesto Irrigation District, this 14th day of December, 1925.

J. C. GARRISON,
District Engineer and President.
C. S. ABBOTT,
Secretary.

NOTICE TO CONTRACTORS

(Furniture—Alameda County Highland Hospital)

Office of the Clerk of the Board of Supervisors, Alameda County, Calif.

Sealed bids will be received by the Clerk of the Board of Supervisors of Alameda County, at his office, until Monday, January 4th, 1926, at 10:30 o'clock A. M. (the day when said bids will be received, the bids must be filed in the office of the County Clerk open to inspection. Copies may be obtained by applying to the County Clerk of Alameda County.)

Each bid must be accompanied by a check for at least ten per cent of the total amount of the bid or proposal, certified to by some responsible bank, and made payable to Geo. E. Gross, Clerk of the Board, to be forfeited to the County of Alameda as agreed and liquidated damages should the party or parties to whom the contract shall be awarded fail to enter into the contract after the award, or to give the bond required by the Board for the faithful performance of the Contract. (Seal) GEO. E. GROSS,
Clerk of the Board of Supervisors of the County of Alameda.

NOTICE TO CONTRACTORS

(Radio Towers—Eureka, Calif.)

The Bureau of Yards and Docks invites attention to the fact that it will open bids for the construction of Specification No. 5161, "125-Foot Radio Tower, Naval Radio Station, Eureka, California". The tower will be triangular in plan, the bases of the legs forming the corners of the triangle approximately 17 feet on each side. The tower will have a ladder, top platform, top sheave, and lightning protection after the leg will be supported by and anchored to a concrete footing, with electrical connection to the legs of the tower.

In the event that this work is of interest to your firm, you should forward to the Bureau or to the Commandant, Navy Yard, Mare Island, Calif., a check or postal money order for \$10, payable to the Chief of the Bureau of Yards and Docks as security for the safe return of the drawings and specifications.

Inasmuch as the specifications and accompanying drawings are nearing completion, it is suggested that you submit your application as soon as practicable in order that the bidding data may be forwarded when the specifications are received from the printer.

Prospective bidders on the West Coast should make application at the Navy Yard, Mare Island, Calif., for the bidding data.

California Palace of the Legion of Honor. Construction of reinforced concrete with Portland Cement Stucco. Gift of Mrs. A. B. Sprackels to the City of San Francisco. Architect, George A. Applegarth.

Beauty with Permanence

When architect and engineer unite in the use of concrete, as on the California Palace of the Legion of Honor, the result is *beauty with permanence*. Construction of this Memorial is reinforced concrete with Portland Cement Stucco. All ornaments, including column caps, bracket moulds, statuary and inserts, are of precast concrete. For illustrated literature regarding concrete's wide range of adaptability, with and without stucco, write the nearest office listed below. Ask for "Portland Cement Stucco Textures" and "A Manual of Concrete Masonry."

Approximate quantities of materials involved follow:

Proposal "A"—Grading
Item 1. 18,400 cu. yds. rdwy. excavation without classification.
Item 2. 19,700 sta. yds. overhaul.
Item 3. 60 cu. yds. structure excavation without classification.
Item 4. 150 cu. yds. stand. rd. surfacing, crushed gravel or stone.
Item 5. 35 cu. yds. class "A" cement conc. (structures).
Item 6. 170 cu. yds. class "A" cem. conc. (slope paving).
Item 7. 2500 lbs. bar reinf. steel in place (structures).
Item 8. 1020 sq. yds. furnishing and placing reinf. steel (slope paving).
Item 9. 130 lin. ft. size "3" reinf. conc. culvert (Type "A" or "B" or "C" or "D").
Item 10. 10 monuments.

Time for completion of above work shall be 150 days.
Proposal "B"—Timber Trestle
Item 11. 640 M ft. b. m. Douglas fir timber, Select Common Structural.
Item 12. 415 M ft. b. m. Douglas fir timber, Select Common Stringers.
Item 13. 35,000 lin. ft. untreated Douglas fir piles.
Item 14. 525 cu. yds. asph. surface Type "E".

ALTERNATIVE ITEMS
Item 15. 110 M ft. b. m. Douglas fir timber, Select Common Structural.
Item 16. 530 M ft. b. m. creosoted Douglas fir timber, Selected Common Structural.
Item 17. 415 M ft. b. m. creosoted Douglas fir timber, Selected Common Stringers.
Item 18. 1250 M ft. b. m. Extra Merchantable r.w. timber.
Item 19. 35,000 lin. ft. second growth r.w. piles.
Item 20. 35,000 lin. ft. first growth split r.w. piles.
Item 21. 35,000 lin. ft. split Cedar piles.
Item 22. 35,000 lin. ft. Eucalyptus piles.
Item 23. 35,000 lin. ft. creosoted Douglas fir piles.

NOTE—Alt. items 15, 16 and 17 to be considered as alternative for items 11 and 12.
Alt. Item 18 is to be considered as alternative for items 11 and 12.

Alt. Items 19, 20, 21, 22 and 23 are to be considered as alternative for item 13.

Time for completion of above work shall be 200 days.

Proposal "C"—Grading and Timber Trestle

Item 24. 18,400 cu. yds. rdwy. excavation without classification.
Item 25. 19,700 sta. yds. overhaul.
Item 26. 60 cu. yds. structure excavation without classification.
Item 27. 1550 cu. yds. stand. rd. surfacing, crushed gravel or stone.
Item 28. 35 cu. yds. class "A" cem. conc. (structures).
Item 29. 170 cu. yds. Class "A" cem. conc. (slope paving).
Item 30. 2500 lbs. bar reinf. steel in place (structures).
Item 31. 1020 sq. yds. furnishing and placing reinf. steel (slope paving).
Item 32. 130 lin. ft. size "3" reinf. conc. culvert (Type "A" or "B" or "C" or "D").
Item 33. 10 monuments.
Item 34. 640 M ft. b. m. Douglas fir timber, Select Common Structural.
Item 35. 415 M ft. b. m. Douglas fir timber, Select Common Stringers.
Item 36. 35,000 lin. ft. untreated Douglas fir piles.
Item 37. 525 cu. yds. asph. surface Type "E".

ALTERNATIVE ITEMS

Item 38. 110 M ft. b. m. Douglas fir timber, Select Common Structural.
Item 39. 530 M ft. b. m. creosoted Douglas fir timber, Select Common Structural.
Item 40. 415 M ft. b. m. creosoted Douglas fir timber, Select Common Stringers.
Item 41. 1250 M ft. b. m. Extra Merchantable Redwood timber.
Item 42. 35,000 lin. ft. second growth r.w. piles.
Item 43. 35,000 lin. ft. first growth split r.w. piles.
Item 44. 35,000 lin. ft. split Cedar piles.
Item 45. 35,000 lin. ft. Eucalyptus piles.
Item 46. 35,000 lin. ft. creosoted Douglas fir piles.
NOTE—Alt. Items 38, 39 and 40 are

to be considered as alternative for items 34 and 35.

Alt. Item 41 is to be considered as alternative for items 34 and 35.

Alt. Items 42, 43, 44, 45 and 46 are to be considered as alternative for item 36.

S. F. AND L. A. INTERESTS TO ENTER FRESNO MATERIAL FIELD

Anticipating an substantial increase of building development in Fresno and the surrounding area, San Francisco and Los Angeles building supply men have organized the San Joaquin Materials Company and will enter the business field of the valley with headquarters in Fresno.

This was the announcement recently of R. D. Hatton of Los Angeles, executive vice president of the new corporation and vice president and general manager of the Los Angeles Pressed Brick Company. The Hatton statement was made in connection with the consummation of leasing negotiations with the Southern Pacific Company for a site for a material yard comprising 45,000 square feet of land lying between G street and the Southern Pacific tracks north of Main street. Included in the lease are warehousing facilities, Hatton asserted.

The company will not enter the manufacturing field, but will stock a complete line of building materials. While the corporation is backed by the Los Angeles Pressed Brick Company of Los Angeles, and Gladding, McBean & Company of San Francisco, and its officers and directors are interested in these corporations, it is a business in itself and will function as such.

The following are officers of the corporation: Atholl McBean, president; P. G. Lingren, vice president and manager; R. D. Hatton, executive president; H. B. Potter, secretary and treasurer. The directorate consists of the officers and F. B. Artman.

SAN JOSE PAVING IN 1925

San Jose's 1925 paving program in which 1,750,000 square feet of pavement was laid on eight miles of city streets, was completed when finishing touches were placed in South Seventeenth St.

I wish I was a little rock
Sitting on a hill,
I wouldn't eat, I wouldn't sleep
I wouldn't even wash
I just sit there and rest myself
A thousand years, by gosh.

"Has anyone seen Pete?"

"Pete who?"

"Petroleum."

"Kerosene him yesterday and he ain't benzine since."
